The Ohio Environmental Protection Agency has reviewed the plans submitted pursuant to Ohio Revised Code Chapter 6111. These plans are approved subject to the condition of compliance with all applicable laws, rules, regulations and standards. Further, all construction must be supervised by an engineer or expert qualified in such work.

This approval shall apply only to those facilities shown on the plans cited above.

That this approval shall become void October 1, 1978 unless the facilities shall be constructed as proposed by that time.

The owner shall provide for the proper maintenance and operation of the water supply and distribution system.

Necessary measures shall be taken to insure that there shall be no cross connections between the public water supply and any private water supply.

This approval covers a water supply to serve lots 201 through 273 only, Arrowhead Hills.

This approval covers only the water supply facilities proposed. Sanitary waste handling facilities may need a separate approval by the Ohio Environmental Protection Agency. Other aspects of the project may need approval by the Ohio Department of Health and/or the local health department.

This approval is made with the condition that these water mains will not be used until the proposed Arrowhead Hills Water Treatment Plant expansion to eighty-eight gallons per minute is approved, constructed and placed in operation.

The proposed facility may be constructed only in accordance with plans approved by the Director of the Ohio Environmental Protection Agency. There may be no deviation from the approved plans without the express, written approval of the Agency. Approval of these plans does not constitute an assurance that the proposed facilities will operate in compliance with all Ohio laws and regulations. Additional facilities shall be installed upon orders of the Ohio Environmental Protection Agency if the proposed facilities prove to be inadequate or cannot meet applicable standards.

Should there be any questions regarding the requirements, meaning or interpretations of any of the above which we may clarify, please contact the Office of Public Water Supply in the appropriate District Office of the Ohio Environmental Protection Agency.

Note #3 - Ownership of Fixed Assets

G & E Development Co., the developer of the subdivision being served, has contributed to the Corporation the fixed assets listed in Note #2. The fixed assets and the off-setting account, Contribution in Aid of Construction, have been set up in accordance with procedures outlined by the National Association of Regulatory Utility Commissioners in their Publication Uniform System of Accounts for Class D Water Utilities 1957.

Note #4 - Federal Income Taxes & Depreciation

Under accounting policies prescribed by the Public Utilities Commission of Ohio, fixed assets contributed to Arrowhead Hills Utilities Corp. by the developer are being depreciated as described in Note #1. As there is no basis in the assets for tax purposes, depreciation taken is not a deductible item. Accordingly, there exists a difference between book and taxable income for which no tax provision is or need be provided.

Note #5 - Subsidization of Losses

The developer of the subdivision being served has agreed to subsidize Arrowhead Hill Utilities Corp. to the extent of losses incurred during the development stage.

EXHIBIT "D"

In order to accomodate the service area of Lots 201 through 273, inclusive, Arrowhead Hills Utilities Corporation had made several additions to the system as described in Case No. 74-577-W and Case No. 75-778 WW-AAC before the Public Utilities Commission of Ohio.

A second 20,000 gallon storage tank has been added together with 3 additional iron filters. The tank is concrete and measures 20' x 20' x 8'. The new water storage tank is located adjacent to and connected with the existing storage tank, as depicted by Exhibit "E" attached hereto.

An effluent and suction line has been added to the new storage tank which will allow the water works system to operate off of either storage tank in the event one has to be shut down for maintenance purposes.

The cost of the additional water lines, storage tank and iron filters has been paid for by G & E Development Co., the developers of Arrowhead Hills Subdivision. The entire system additions and operations have been turned over to the applicant, Arrowhead Hills Utilities Corporation.
