**RE: Case No.14-1854-TP-ACE**  
**Application of Vision Concept Technology, LLC dba Vision CTS, LLC as a Non-**  
**BLES Competitive Local Exchange Carrier**

Dear Commission:

Per Staff request, we submit this amended tariff associated with the application for Authority to operate as a Non-BLES Competitive Local Exchange Carrier on behalf of Vision Concept Technology, LLC dba Vision CTS, LLC. Please replace the originally submitted tariff in its entirety with this one.

If you have any questions or require additional information, please contact me at (405) 755-8177 extension 103, or by email at [mdean@telecompliance.net](mailto:mdean@telecompliance.net).

Respectfully,

/s/ Matt W. Dean

Matt W. Dean  
Regulatory Agent

**TITLE PAGE**

This tariff applies to Access Services furnished by Vision Concept Technology LLC dba Vision CTS LLC between one or more points within the State of Ohio. This tariff is on file with the Public Utilities Commission of Ohio and copies may be inspected, during normal business hours, at Vision Concept Technology LLC dba Vision CTS LLC, 649 Kintner Parkway North, Sunbury, OH 43074-8038.

Access Tariff

**SYMBOLS**

The following are the only symbols used for the purposes indicated below:

- (C) Changed regulation
- (D) Delete or discontinue
- (I) Change resulting in an increase to a customer's bill
- (M) Moved from another tariff location
- (N) New
- (R) Change resulting in a reduction to a customer's bill
- (T) Change in text or regulation but no change in rate or charge

---

**TARIFF FORMAT SHEET**

- A. Page Numbering. Page numbers appear in the upper-right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added, the page appears as a decimal. For example, a new page added between pages 34 and 35 would be 34. 1.
- B. Page Revision Numbers. Revision numbers also appear in the upper-right corner of the page. These numbers are used to determine the most current page version on file with the Public Utilities Commission of Ohio. For example, the 4th revised Page 34 cancels the 3rd revised Page 34. Because of deferrals, notice periods etc., the most current page number on file with the Commission is not always the tariff page in effect. Subscriber should consult the check page for the page currently in effect.
- C. Paragraph Numbering Sequence. There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level of coding.
- 2.
  - 2.1.
  - 2.1.1.
  - 2.1.1.A.
  - 2.1.1.A.1.
  - 2.1.1.A.1.(a).
  - 2.1.1.A.1.(a).I.
  - 2.1.1.A.1.(a).I.(i).
  - 2.1.1.A.1.(a).I.(i).(1).
- D. Check List of Effective Pages. When a tariff filing is made with the Commission, an updated Check List of Effective Pages ("Check List") accompanies the tariff filing. The Check List lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the Check List is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on the Check List if these are the only changes made to it (i.e., the format, etc.). The subscriber should refer to the latest Check List to find out if a particular page is the most current page on file with the Commission.

## **SECTION 1 - TERMS AND ABBREVIATIONS**

**Access** - as used in this tariff means an arrangement which connects the Customer's or Subscriber's telecommunications service to the Underlying Carrier's designated point of presence or network switching center.

**Access Code** - Denotes a uniform code assigned by the Company to an individual Customer. The code has the form 101XXXX, 950-0XXX, or 950-1XXX.

**Authorized User** – A person, corporation or other entity who is authorized by the Company's customer to utilize service provided by the Company to the Customer. The Customer is responsible for all charges incurred by an Authorized User.

**Access Minutes** – Denotes that usage of exchange facilities in intrastate service for the purpose of calculating chargeable usage.

**Access Tandem** – A switching system that provides a traffic concentration and distribution function for originating or terminating traffic between end offices and a Customer's premises.

**Answer Supervision** - The transmission of the switch trunk equipment supervisory signal (off-hook or on-hook) to the Customer's point of termination as an indication that the called party has answered or disconnected.

**Call** - A Customer attempt for which the complete address code is provided to the service end office.

**Carrier or Common Carrier** – Any individual, partnership, association, corporation or other entity engaged in intrastate communication for hire by wire or radio between two or more exchanges.

**Carrier-to-Carrier** - a wholesale provider where the Company is a communications Carrier and the Customer is a communications Carrier.

**SECTION 1 - TERMS AND ABBREVIATIONS (con't)**

**Central Office** – A local Company switching system where exchange service Customer station loops are terminated for purposes of interconnection to each other and to trunks.

**Channel** – A communications path between two or more points of termination.

**Commission** - means the Public Utilities Commission of Ohio.

**Communications System** - Denotes channels and other facilities which are capable of communications between terminal equipment provided by other than the Company

**Company** - means Vision Concept Technology LLC dba Vision CTS LLC, unless otherwise specified in this tariff.

**Customer** - The person, firm, corporation or other entity which orders service and is responsible for payment of charges due and compliance with the Company's tariff regulations.

**Customer Designated Premises** – The premises specified by the Customer for termination of Access Services.

**Dual Tone Multifrequency (DTMF)** - Tone signaling, also known as touch tone signaling.

**Delinquent** - means a payment for a billing for services provided, which is not in dispute, where payment is not received on or before the due date as posted on the bill.

**End Office Switch** – A Company switching system where exchange service Customer station loops are terminated for purposes of interconnection to each other and to trunks.

Access Tariff

---

**End User** - Any Customer of an interstate telecommunications service that is not a Carrier or Common Carrier, except that a Carrier shall be deemed to be an End User when such Carrier uses a telecommunications service for administrative purposes. A person or entity that offers telecommunications service exclusively as a reseller shall be deemed to be an End User if all resale transmissions offered by such reseller originate on the premises of such reseller when making such service available to others, directly or indirectly.

**Entry Switch** – First point of switching.

**Exchange** - A group of lines in a unit generally smaller than a LATA established by the Company for the administration of communications service in a specified area. An Exchange may consist of one or more central offices together with the associated facilities used in furnishing communications service within that area.

**Facilities** – Denotes any cable, poles, conduit, carrier equipment, wire center distribution frames, central office switching equipment, etc., utilized to provide the service offered under this Tariff.

**First Point of Switching** - The first Company location at which switching occurs on the terminating path of a call proceeding from the Customer premises to the terminating end office and, at the same time, the last Company location at which switching occurs on the originating path of a call proceeding from the originating end office to the Customer premises.

**Individual Case Basis (ICB)** - A service arrangement for private line or private circuit services the Company will make available to Customers in a non-discriminatory manner. Rates for interexchange dedicated access, private line or circuit, non-switched services will be determined on an Individual Customer Basis (ICB). ICB rates will be structured to recover the Company's cost of providing the service and will be made available to Commission Staff upon request on a proprietary basis. ICB rates will not be used for switched services.

**Interstate Communications** - Any communications with that crosses over a state boundary. Interstate Communications includes interstate and international communications.

**SECTION 1 - TERMS AND ABBREVIATIONS (con't)**

**Intrastate Communications** - Any communication which originates and terminates within the same state and is subject to oversight by a state regulatory commission as provided by the laws of the state involved.

**IXC** means interexchange carrier or interexchange company which is a carrier or company authorized by the Commission to provide long distance communications services, but not local exchange services, within the State of Ohio borders.

**Local Access and Transport Area (LATA)** - A geographic area established for the provision and administration of communications service. A LATA encompasses designated exchanges, which are grouped to serve common social, economic and other purposes.

**Local Calling Area** - A geographical area, as defined in the Company's local or general exchange service Tariff in which an End User may complete a call without incurring toll usage charges.

**Message** – A Message is a Call as defined above.

**Off-Hook** – The active condition of Switched Access Service or a telephone exchange line.

**On-Hook** – The idle condition of Switched Access Service or a telephone exchange line.

**Originating Direction** – The use of Switched Access Service for the origination of calls from an End User premises to a carrier's premises.

**Point of presence - ("POP")** - means the location where an IXC has transmission equipment in a service area that serves as, or relays calls to, the interexchange network.

**SECTION 1 - TERMS AND ABBREVIATIONS (con't)**

**Point of Termination** - The point of demarcation within a Customer-designated premises at which the Company's responsibility for the provision of access service ends. The point of demarcation is the point of interconnection between Company communications facilities and Customer-provided facilities as defined in Part 68 of the Federal Communications Commission's Rules and Regulations.

**Premises** - A building or buildings on contiguous property, not separated by a public highway or right-of-way.

**Service** - means the offering of telecommunications for a fee to other telecommunication carriers

**Serving Wire Center** – The wire center from which the Customer-designated premises normally obtains dial tone from the Company.

**Special Access Circuit** – The physical pathway for transmission of information between a dedicated originating point and a dedicated terminating point.

**Telecommunications service** - means the transmission of voice communications or, subject to the transmission capabilities of the services, the transmission of data, facsimile, signaling, metering, or other similar communications.

**Terminating Direction** – The use of Switched Access Service for the completion of calls from a carrier's premises to an End User premises.

**Transmission Path** – An electrical path capable of transmitting signals within the range of the service offering. A transmission path is comprised of physical or derived facilities consisting of any form or configuration of plant used in the telecommunications industry.

**SECTION 1 - TERMS AND ABBREVIATIONS (con't)**

**Trunk** – A communications path connecting two switching in systems in a network, used in the establishment of connections between switching systems in which all of the communications paths are interchangeable.

**Trunk Group** – A set of trunks which are traffic engineered as a unit for the establishment of connections between switching systems in which all of the communications paths are interchangeable.

**Toll VoIP-PSTN Traffic** – A Customer's interexchange voice traffic exchanged with the Telephone Company in Time Division Multiplexing format over PSTN facilities, which originates and/or terminates in Internet Protocol (IP) format. "Toll VoIP-PSTN Traffic" originates and/or terminates in IP format when it originates from and/or terminates to an End User Customer of a service that requires IP-compatible Customer Premises Equipment.

**Underlying carrier(s)** - Means the provider of facilities utilized by a wholesaler in the provisioning of its interexchange service to its customers.

**Wire Center** – A physical location in which one or more central offices, used for the provision of exchange services, are located.

## **SECTION 2 – APPLICATION AND SCOPE OF TARIFF**

### **2.1 Application of Tariff**

This Tariff contains regulations, rates and charges applicable to the provision of competitive access tandem telecommunications services by Vision Concept Technology LLC dba Vision CTS LLC, hereinafter referred to as the “Company”, with its principal address at 649 Kintner Parkway North, Sunbury, OH 43074-8038 for communications within the State of Ohio. This Tariff is on file with the Public Utilities Commission of Ohio and copies may be inspected during normal business hours at the Company’s principal place of business at 649 Kintner Parkway North, Sunbury, Ohio, 43074-8038.

The company may, from time to time and in particular circumstances provide discounts or promotional offerings or otherwise waive or modify these general rates and regulation for potential customers, in conformance with this Tariff and the rules, regulations and order of the Commission.

### **2.2 Scope**

Company's services are provided subject to the availability of facilities and subject to the terms and conditions of this tariff. All services within the jurisdiction of the Commission provided by Company between and among points in Ohio are governed by this tariff.

### **2.3 Interconnection with Other Carriers**

Service provided by Company may be connected with services or facilities of other carriers or may be provided over facilities provided by carriers other than Company. However, service provided by Company is not a part of a joint undertaking with any other carrier providing telecommunications channels, facilities, or services.

### **SECTION 3 - RULES AND REGULATIONS**

#### **3.1 USE OF FACILITIES AND SERVICE**

##### **3.1.1 Use of Service**

- A) Service may be used for any lawful purpose by the Customer.
- B) The Customer obtains no property right or interest in the use of any specific type of facility, service, equipment, number, process, or code. All right, title and interest to such items remain, at all times, solely with the Company.
- C) Recording of telephone conversations of service provided by the Company under this Tariff is prohibited except as authorized by applicable federal, state and local laws.
- D) Any service provided under this Tariff may be resold to or shared (jointly used) with other persons at the Customer's option. The Customer remains solely responsible for all use of service ordered by it or billed to its account(s) pursuant to this Tariff, for determining who is authorized to use its service, and for promptly notifying the Company of any unauthorized use. The Customer may advise its Customers that a portion of its service is provided by the Company, but the Customer shall not represent that the Company jointly participates with the Customer in the provision of the service.

### **SECTION 3 - RULES AND REGULATIONS (Cont'd)**

#### **3.1 USE OF FACILITIES AND SERVICE (Cont'd)**

##### **3.1.2 Limitations**

- A) Service is offered subject to the availability of the necessary facilities and/or equipment and subject to the provisions of this Tariff. The Company may decline applications for service to or from a location where the necessary facilities or equipment are not available. The Company may discontinue furnishing service in accordance with the terms of this Tariff.
- B) The Company reserves the right to discontinue or limit service when necessitated by conditions beyond its control (examples of these conditions are more fully set forth elsewhere in this Tariff), or when service is used in violation of provisions of this Tariff or the law.
- C) The Company does not undertake to transmit messages, but offers the use of its service when available, and, as more fully set forth elsewhere in this Tariff, shall not be liable for errors in transmission or for failure to establish connections.
- D) The Company reserves the right to discontinue service, limit service, or to impose requirements as required to meet changing regulatory or statutory rules and standards, or when such rules and standards have an adverse material effect on the business or economic feasibility of providing service, as determined by the Company in its reasonable judgment.
- E) The Company reserves the right to refuse an application for service made by a present or former Customer who is indebted to the Company for service previously rendered pursuant to this Tariff until the indebtedness is satisfied.

### **SECTION 3 - RULES AND REGULATIONS (Cont'd)**

#### **3.1 USE OF FACILITIES AND SERVICE (Cont'd)**

##### **3.1.3 Use and Ownership of Equipment**

The Company's equipment, apparatus, channels and lines shall be carefully used. Equipment furnished by the Company shall remain its property and shall be returned to the Company whenever requested, within a reasonable period following the request, in good condition (subject to reasonable wear and tear). The Customer is required to reimburse the Company for any loss of, or damage to, the facilities or equipment on the Customer's premises, including loss or damage caused by agents, employees or independent contractors of the Customer through any negligence.

#### **3.2 MINIMUM PERIOD OF SERVICE**

The minimum period for which services are provided and for which rates and charges are applicable is one month unless otherwise specified. When a service is discontinued prior to the expiration of the minimum period, charges are applicable, whether the service is used or not.

**SECTION 3 - RULES AND REGULATIONS (Cont'd)**

**3.3 PAYMENT FOR SERVICE RENDERED**

**3.3.1** Service is provided and billed on a monthly basis. Bills are due and payable upon receipt.

In the event that the Company incurs fees or expenses, including attorney's fees, collecting, or attempting to collect, any charges owed to the Company, the Company may charge the Customer all such fees and expenses reasonably incurred. Collection fees on overdue charges shall begin to accrue when the Account is assigned to an outside collection agency. Such collection fees are separate and distinct from attorney's fees and other costs incurred in collecting charges owed to the Company.

**3.3.2** The Customer is responsible for payment of all charges for service furnished to the Customer, or the Customer's agents, End Users or Customers. All charges due by the Customer are payable to the Company or to the Company's authorized billing agent. Any objections to billed charges should be reported promptly to the Company.

**3.3.3** The Company reserves the right to assess a charge of \$20.00 whenever a check or draft presented for payment of service is not accepted by the institution upon which it is written. The foregoing shall not limit the Company's right to discontinue service for returned checks or drafts.

**3.3.4** Application of Late Payment Charge

Late payment charges do not apply to final accounts.

### **SECTION 3 - RULES AND REGULATIONS (Cont'd)**

#### **3.4 DEPOSITS**

- 3.4.1** The Company reserves the right to examine the credit record of the Customer. If the Customer's financial condition is unknown or unacceptable to the Company, the Customer may be required to provide the Company with a security deposit which the Company may apply against overdue charges. The amount of the security deposit shall be equal to two month's estimated usage but may vary with the Customer's credit history and projected usage. The Customer shall be apprised that after one year of service the Account shall be reviewed, and in the event that all amounts due have been paid within the terms and conditions of this Tariff, the deposit shall be refunded in full. If subsequent payment or usage patterns change, the Company may request an increase in or resubmission of the security deposit as appropriate. The Company may also require a security deposit before service is restored (along with the payment of overdue charges) from the Customer whose service has been discontinued for nonpayment of overdue charges. Such security deposit may be based on a new credit history (taking into account the discontinuance of service) and estimates of usage.
- 3.4.2** The fact that a security deposit has been made in no way relieves the Customer from the prompt payment of bills upon presentation.
- 3.4.3** If the amount of a deposit is proven to be less than required to meet the requirements specified above, the Customer shall be required to pay an additional deposit upon request.
- 3.4.4** When a deposit is to be returned, the Customer may request that the full amount of the deposit be issued by check. If the Customer requests that the full amount be credited to amounts owed the Company, the Company will apply the deposit to any amount currently owed to the Company, and return any remaining amount of the deposit to the Customer by check.

Access Tariff

---

**SECTION 3 - RULES AND REGULATIONS (Cont'd)**

**3.5 ADVANCE PAYMENTS**

The Company reserves the right to require an advance payment from the Customer instead of or in addition to a security deposit. The advance payment shall be in an amount equal to or less than estimated installation charges plus two months estimated billing.

**3.6 DISPUTED BILLS**

In the case of a billing dispute between the Customer and the Company for service furnished to the Customer, which cannot be settled with mutual satisfaction, the Customer may, within (90) days of the date of the bill containing the disputed amount, request an in-depth investigation and review of the disputed amount. The Company shall comply with the request. The undisputed portion and subsequent bills must be paid on a timely basis. The Company shall communicate to the Customer the results of such investigation and review as soon as reasonably possible. If the dispute notification is not made within ninety (90) days of the bill date, the bill will be considered final. If the Customer and the Company are unable to resolve the dispute to their mutual satisfaction the customer may file a complaint with the Public Utilities Commission of Ohio in accordance with the Commission's rules and procedure at:

Public Utilities Commission of Ohio  
180 E. Broad St.  
Columbus, Ohio 43215-3793

(800)-686-7826 (voice)  
(800)-686-1570 (TDD)  
(614) 752-8351 (Fax)

**SECTION 3 - RULES AND REGULATIONS (Cont'd)**

**3.7 INSPECTION, TESTING AND ADJUSTMENT**

- 3.7.1** The Company may, upon reasonable notice, make such tests and inspections as may be necessary to determine whether the terms and conditions of this Tariff are being complied with in the installation, operation or maintenance of the Customer's or the Company's facilities or equipment. The Company may interrupt service at any time, without penalty or liability, due to the departure from or reasonable suspicion of the departure from any of these terms and conditions.
- 3.7.2** The Customer shall be responsible for making arrangements or obtaining permission for safe and reasonable access for Company employees or agents of the Company to enter the premises of the Customer or any joint user or Customer of the Customer at any reasonable hour for the purpose of inspecting, repairing, testing or removing any part of the Company's facilities.
- 3.7.3** Upon reasonable notice, the facilities or equipment provided by the Company shall be made available to the Company for such tests and adjustments as may be necessary for their maintenance in a condition satisfactory to the Company. No interruption allowance shall be granted for the time during which such tests and adjustments are made, unless such interruption exceeds twenty-four hours in length and is requested by the Customer.

Access Tariff

---

**SECTION 3 - RULES AND REGULATIONS (Cont'd)**

**3.8 SUSPENSION OR TERMINATION OF SERVICE**

**3.8.1 Suspension or Termination for Nonpayment**

In the event that any bill rendered or any deposit required is not paid, the Company may suspend service or terminate service until the bill or the required deposit has been paid. If service is suspended or terminated for nonpayment, the Customer must remit a Connection Charge as well as any payment due and any applicable deposits prior to re-connection.

Suspension or termination shall not be made until:

- A) At least thirty (30) days after written notification has been served personally on the Customer, or at least twenty (20) days after written notification has been mailed to the billing address of the Customer or;
- B) At least thirty (30) days after the Customer has either signed for or refused a registered letter containing written notification mailed to the billing address of the Customer.

Access service shall not be suspended or terminated for nonpayment on weekends, public holidays, other federal and state holidays proclaimed by the President or the Governor, or on days when the main business office of the Company is not open for business.

### **SECTION 3 - RULES AND REGULATIONS (Cont'd)**

#### **3.8.2 Exceptions to Suspension and Termination**

Access service shall not be suspended or terminated for:

- A) Nonpayment of bills rendered for charges other than access service or deposits requested in connection with access service;
- B) Nonpayment for service for which a bill has not been rendered;
- C) Nonpayment for service which have not been rendered;
- D) Nonpayment of any billed charge which is in dispute or for the nonpayment of a deposit which is in dispute during the period before a determination of the dispute is made by the Company in accordance with Company's complaint handling procedures.
- E) Access service may be suspended or terminated for nonpayment of the undisputed portion of a disputed bill or deposit if the Customer does not pay the undisputed portion after being asked to do so.

#### **3.8.3 Verification of Nonpayment**

Access service shall not be suspended or terminated for nonpayment of a bill rendered or a required deposit unless the Company has verified, in a manner approved by the Commission, that payment has not been received at any office of the Company or at any office of an authorized collection agent through the end of the period indicated in the notice.

**SECTION 3 - RULES AND REGULATIONS (Cont'd)**

**3.8 SUSPENSION OR TERMINATION OF SERVICE (Cont'd)**

**3.8.4 Termination For Cause Other Than Nonpayment**

**A) General**

The Company, after notice in writing to the Customer and after having given the Customer an appropriate opportunity to respond to such notice, may terminate service and sever the connection(s) from the Customer's premises under the following conditions:

1. in the event of prohibited, unlawful or improper use of the facilities or service, or any other violation by the Customer of the rules and regulations governing the facilities and service furnished, or
2. if, in the judgment of the Company, any use of the facilities or service by the Customer may adversely affect the Company's personnel, plant, property or service. The Company shall have the right to take immediate action, including termination of the service and severing of the connection, without notice to the Customer when injury or damage to telephone personnel, plant, property or service is occurring, or is likely to occur, or
3. in the event of unauthorized use, where the Customer fails to take reasonable steps to prevent the unauthorized use of the facilities or service received from the Company, or
4. in the event that service is connected for a Customer who is indebted to the Company for service or facilities previously furnished, that service may be terminated by the Company unless the Customer satisfies the indebtedness within twenty (20) days after written notification.

**SECTION 3 - RULES AND REGULATIONS (Cont'd)**

B) Prohibited, Unlawful or Improper Use of the Facilities or Service

Prohibited, unlawful or improper use of the facilities or service includes, but is not limited to:

1. The use of facilities or service of the Company without payment of Tariff charges;
2. Permitting fraudulent use.

C) Abandonment or Unauthorized Use of Facilities

1. If it is determined that facilities have been abandoned, or are being used by unauthorized persons, or that the Customer has failed to take reasonable steps to prevent unauthorized use, the Company may terminate access service.
2. In the event that access service is terminated for abandonment of facilities or unauthorized use and service is subsequently restored to the same Customer at the same location:

a. No charge shall apply for the period during which service had been terminated, and

b. Reconnection charges will apply when service is restored. However, no charge shall be made for reconnection if the service was terminated due to an error on the part of the Company.

**SECTION 3 - RULES AND REGULATIONS (Cont'd)**

**3.8 SUSPENSION OR TERMINATION OF SERVICE (Cont'd)**

**D) Change in the Company's Ability to Secure Access**

Any change in the Company's ability (a) to secure and retain suitable facilities and rights for the construction and maintenance of the necessary circuits and equipment or (b) to secure and retain suitable space for its plant and facilities in the building where service is provided to the Customer may require termination of a Customer's service until such time as new arrangements can be made. No charges will be assessed the Customer while service is terminated, and no connection charges will apply when the service is restored.

**3.8.5 Emergency Termination of Service**

The Company will immediately terminate the service of any Customer, on request, when the Customer has reasonable belief that the service is being used by an unauthorized person or persons. The Company may require that the request be submitted in writing as a follow-up to a request made by telephone.

### **SECTION 3 - RULES AND REGULATIONS (Cont'd)**

#### **3.9 OBLIGATIONS OF THE CUSTOMER**

##### **3.9.1 Damages**

The Customer shall reimburse the Company for damages to Company facilities utilized to provide services under this Tariff caused by the negligence or willful act of the Customer, or resulting from improper use of the Company's facilities, or due to malfunction of any facilities or equipment provided by other than the Company, except that no Customer shall be liable for another Customer's actions.

##### **3.9.2 Ownership of Facilities**

Facilities utilized by the Company to provide service under the provisions of this Tariff shall remain the property of the Company. Such facilities shall be returned to the Company by the Customer, whenever requested, within a reasonable period following the request in as good condition as reasonable wear permits.

### **SECTION 3 - RULES AND REGULATIONS (Cont'd)**

#### **3.9 OBLIGATIONS OF THE CUSTOMER (Cont'd)**

##### **3.9.3 Equipment Space and Power**

The Customer shall furnish to the Company, at no charge, equipment space and electrical power required by the Company to provide services under this Tariff at the points of termination of such services. The selection of AC or DC power shall be mutually agreed to by the Customer and the Company. The Customer shall make necessary arrangements in order that the Company will have access to such spaces at reasonable times for installation, testing, repair, maintenance or removal of Company service.

##### **3.9.4 Testing**

The services provided under this Tariff shall be made available to the Company at mutually agreed upon times in order to permit the Company to test, adjust and maintain the services in satisfactory operating condition. No credit will be allowed for any interruption during such tests and adjustments.

##### **3.9.5 Design of Customer Services**

The Customer shall be responsible for its own expense for the overall design of its services and for any redesigning or rearrangements of its services which may be required because of changes in facilities, operations or procedures of the Company, minimum protection criteria or operating or maintenance characteristics of the facilities.

### **SECTION 3 - RULES AND REGULATIONS (Cont'd)**

#### **3.9.6 Network Contingency Coordination**

The Customer shall, in cooperation with the Company, coordinate in planning the actions to be taken to maintain maximum network capability following natural or man-made disasters which affect telecommunications service.

#### **3.9.7 Jurisdictional Reports**

(A) For Feature Group D Switched Access Service(s), the Company, where jurisdiction can be determined from the call detail, will determine the projected interstate percentage as follows. For originating access minutes, the projected interstate percentage will be developed on a monthly basis by end office trunk group when the Feature Group D Switched Access Service access minutes are measured by dividing the measured interstate originating access minutes (the access minutes where the calling number is in one state and the called number is in another state) by the total originating access minutes when the call detail is adequate to determine the appropriate jurisdiction. For terminating access minutes, the Customer has the option to provide the Company with a projected PIU factor. Customers who provide a PIU factor shall supply the Company with an interstate percentage of the Feature Group D terminating access minutes for each account to which the Customer may terminate traffic.

Should the Customer not supply a terminating PIU Factor, the data used by the Company to develop the projected interstate percentage for originating access minutes will be used to develop projected interstate percentage for such terminating access minutes. When a Customer orders Feature Group D Switched Access Service, the Customer shall supply a projected interstate percentage of use for each end office trunk group involved to be used in the event that originating call details are insufficient to determine the jurisdiction for the call. This percentage shall be used by the Company as the projected interstate percentage for such call detail. For purposes of developing the projected interstate percentage, the Customer shall utilize the same considerations as those set forth in Section 2.3.3(B) following.

### **SECTION 3 - RULES AND REGULATIONS (Cont'd)**

#### **3.9 OBLIGATIONS OF THE CUSTOMER (Cont'd)**

##### **3.9.7 Jurisdictional Reports (Cont'd)**

Should the Customer not supply a terminating PIU Factor, the data used by the Company to develop the projected interstate percentage for originating access minutes will be used to develop projected interstate percentage for such terminating access minutes. When a Customer orders Feature Group D Switched Access Service, the Customer shall supply a projected interstate percentage of use for each end office trunk group involved to be used in the event that originating call details are insufficient to determine the jurisdiction for the call. This percentage shall be used by the Company as the projected interstate percentage for such call detail. For purposes of developing the projected interstate percentage, the Customer shall utilize the same considerations as those set forth in Section 2.3.3(B) following.

The Company will designate the number obtained by subtracting the projected interstate percentage for originating and terminating access minutes from 100 ( $100 - \text{projected interstate percentage} = \text{intrastate percentage}$ ) as the projected intrastate percentage of use.

(B) For purposes of developing the projected interstate percentage, the Customer shall consider every call that enters the Customer's network at a point within the same state as the state where the called station is located to be intrastate and every call that enters the Customer's network at a point in a state different from the state in which the called station is located to be interstate.

(C) These whole number percentages will be used by the Company to apportion the use, rates, and/or nonrecurring charges between interstate and intrastate until a revised report is received.

### **SECTION 3 - RULES AND REGULATIONS (Cont'd)**

#### **3.9 OBLIGATIONS OF THE CUSTOMER (Cont'd)**

##### **3.9.7 Jurisdictional Reports (Cont'd)**

(D) The projected interstate percentage of use will be used to determine the charges as follows: The number of access minutes for a trunk group will be multiplied by the projected interstate percentage of use to determine the interstate access minutes. (i.e., number of access minutes x projected interstate percentage of use = interstate access minutes). The number of interstate access minutes so determined will be subtracted from the total number of access minutes (i.e., number of access minutes – interstate access minutes = intrastate access minutes). The intrastate access minutes for the group will be billed as set forth in Section 5 following.

(E) Effective on the first of January, May, July and October of each year, the Customer may update the jurisdictional reports that require a projected interstate percentage. The Customer shall forward to the Company, to be received no later than 20 calendar days after the first of each such month, a revised report showing the interstate percentage of use for the past three months ending the last day of December, March, June and September, respectively, for each service arranged for interstate and intrastate use.

(F) Except as set forth in Section 2.3.3(A) preceding where jurisdiction can be determined from the recorded message detail, the revised report will serve as the basis for the next three months billing and will be effective on the bill date in the following month (i.e., February, May, August, and November) for that service. No prorating or back billing will be done based on the report. If the Customer does not supply the report, the Company will assume the percentage to be the same as that provided in the last quarterly report. For those cases in which a quarterly report has never been received from the Customer, the Company will assume the percentage to be the same as that provided in the order for service as set forth in Section 2.3.3(A) preceding.

**SECTION 3 - RULES AND REGULATIONS (Cont'd)**

**3.9 OBLIGATIONS OF THE CUSTOMER (Cont'd)**

**3.9.7 Jurisdictional Reports (Cont'd)**

(G) The Customer reported projected interstate percentage of use as set forth in Section 2.3.3(A) preceding will be used for the apportionment of any monthly rates or nonrecurring charges associated with Feature Groups B or D Switched Access Service until the end of the quarter during which the service was activated. Thereafter, a projected interstate percentage for such apportionment will be developed quarterly by the Company based on the data used to develop the projected interstate percentage of use as set forth in Section 2.3.3(A) preceding. Where call detail is insufficient to make such a determination, the Customer will be requested to project an interstate percentage of use to be used by the Company for such apportionment.

(H)The Customer shall keep sufficient detail from which the percentage of interstate use can be ascertained and upon request of the Company make the records available for inspection. Such a request will be initiated by the Company no more than once per year. The Customer shall supply the data within thirty (30) calendar days of the Company request.

(I) The Customer may provide an additional percentage of interstate use for Entrance Facility and Direct Trunked Transport subject to the reporting requirements previously listed in this section. The percentage of interstate use may be provided per individual facility or at the billing account level. Should the Customer not provide a percentage of interstate use, the Company will use the reported Feature Group B or Feature Group D aggregated percentage of interstate use.

(J) In the absence of both a customer provided PIU, and the necessary jurisdictional information in the call detail to determine jurisdiction, the default PIU will be zero.

**SECTION 3 - RULES AND REGULATIONS (Cont'd)**

**3.9 OBLIGATIONS OF THE CUSTOMER (Cont'd)**

**3.9.8 Mixed Interstate and Intrastate Access Service**

When mixed interstate and intrastate Access Service is provided, all charges, including nonrecurring charges, usage charges, and optional features, will be prorated between interstate and intrastate.

**3.10 DETERMINATION OF MILEAGE**

Service for which rates are mileage sensitive are rated on the airline distance between the Company's switch location and Customer-designated premises or the end office of the Customer- designated premises.

### **SECTION 3 - RULES AND REGULATIONS (Cont'd)**

#### **3.11 CALCULATION OF MILEAGE**

Airline mileage, where mileage is the basis for rating calls, is obtained by using the "V" and "H" coordinates assigned to each rate center and contained in NECA FCC Tariff No. 4 or successor Tariffs. To determine the airline distance between any two locations, proceed as follows:

- a. Obtain the "V" and "H" coordinates for each location. The "V" coordinate is the first four digits in the "VH" column. The "H" coordinate is the next four digits.
- b. Obtain the difference between the "V" coordinates of each of the locations. Obtain the difference between the "H" coordinates.
- c. Square each difference obtained in step b.
- d. Add the square of the "V" difference and the "H" difference obtained in step c.
- e. Divide the sum of the square by 10. Round to the next higher whole number if any fraction is obtained.
- f. Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.

Formula:

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

**SECTION 3 - RULES AND REGULATIONS (Cont'd)**

**3.12 LIMITATIONS OF LIABILITY**

**3.12.1 LIABILITY**

- A) The Company's liability, if any, for its willful misconduct is not limited by this Tariff. With respect to any other claim or suit by a Customer or by any others, for damages associated with the installation, provision, termination, maintenance, repair or restoration of service, and subject to the provisions following, the Company's liability, if any, shall not exceed an amount equal to the proportionate charge for the service for the period during which the service was affected. This liability for damages shall be in addition to any amounts that may otherwise be due the Customer under this Tariff.
- B) The Company is not liable for any act or omission of any other communications utility which furnishes a portion of a tariffed service.
- C) The Company is not liable for damages associated with service which it does not furnish.
- D) The Company shall be indemnified, defended and held harmless against any claim, loss or damage arising from the use of service offered under this Tariff, involving:
  - 1. Claims for libel, slander, invasion of privacy, or infringement of copyright arising from any communication;
  - 2. Claims for patent infringement arising from combining or using the service furnished by the Company in connection with facilities or equipment furnished by others or;
  - 3. All other claims arising out of any act or omission of others in the course of using services provided pursuant to this Tariff.

**SECTION 3 - RULES AND REGULATIONS (Cont'd)**

4. The Company does not guarantee or make any warranty with respect to its services when used in an explosive atmosphere. The Company shall be indemnified, defended and held harmless by the Customer and authorized user from any and all claims by any person relating to the services provided.
5. No license under patents (other than the limited license to use) is granted by the Company or shall be implied or arise by estoppels, with respect to any service offered under this Tariff. The Company will defend the Customer and authorized user against claims of patent infringement arising solely from the use by the Customer or authorized user of services offered under this Tariff and will indemnify such Customer or authorized user for any damages awarded based solely on such claims.
6. The Company's failure to provide or maintain services under this Tariff shall be excused by labor difficulties, governmental orders, civil commotions, preemption of existing services to restore services in compliance with Part 64, Subpart D, Appendix A, of the FCC's Rules and Regulations, acts of God and other circumstances beyond the Company's reasonable control.

E) Defacement of Premises

The Company is not liable for damages to the Customer's premises resulting from the furnishing of a service, including the installation and removal of facilities, unless the damage is caused by the Company's negligence.

Approval of Limitation of Liability language by the PUCO does not constitute a determination by the Commission that the limitation of liability imposed by the Company should be upheld in a court of law. Approval by the Commission merely recognizes that since it is a court's responsibility to adjudicate negligence and consequent damage claims.

## **SECTION 4 - SWITCHED ACCESS SERVICE**

### **4.1 GENERAL**

Switched Access Service, which is available to Customers for their use in furnishing their services to End Users, provides a two-point electrical communications path between a Customer's premises and an End User's premises. It provides for the use of common terminating, switching and trunking facilities, and for the use of common subscriber plant of the Company. Switched Access Service provides for the ability to originate calls from an End User's premises to a Customer's premises in the LATA where it is provided.

The following provision applies to the treatment of Toll VoIP-PSTN Traffic pursuant to the Federal Communications Commission's Part 51 Interconnection Rules and in compliance with the Federal Communications Commission's Report and Order and Further Notice of Proposed Rulemaking in CC Docket Nos. 96-45 and 01-92; GN Docket No. 09-51; WC Docket Nos. 03-109, 05-337, 07-135 and 10-90; and WT Docket No. 10-208, adopted October 27, 2011 and released November 18, 2011 (FCC 11-161). In the absence of an interconnection agreement between the Company and the customer specifying the treatment of Toll VoIP-PSTN Traffic, the Company will bill the customer the applicable switched access rates and charges specified in Section 4.2.3, following, on all jurisdictionally intrastate voice traffic identified as Toll VoIP-PSTN Traffic.

### **4.2 RATE CATEGORIES**

The rate categories that apply to Switched Access Service, as provided by Company, are:

- Tandem Switching
- Tandem Switched Transport  
Tandem Switched Facility  
Tandem Switched Termination

Access Tariff

---

**SECTION 4 - SWITCHED ACCESS SERVICE (cont'd)**

**4.2 RATE CATEGORIES (Cont'd)**

**4.2.1 Service Definition**

Switched Access Service, which is available to Customers for their use in furnishing services to End Users, provides a two-point communications path between a Customer's premises (or a collocated interconnection location) and an End User's premises, with or without another carrier providing service directly to the End User. It provides for the use of common terminating and switching facilities. Switched Access Service provides for the ability to originate calls from an End User's premises to a Customer's premises (or a collocated interconnection location), and to terminate calls from a Customer's premises (or a collocated interconnection location) to an End User's premises in the LATA where it is provided. Switched Access Service must be ordered separately for each LATA in which the Customer desires to originate or terminate calls. Company and affected carriers may mutually agree to the application of rates different from the rates contained in this Tariff.

Switched Access Service is provided in the following service categories, which are differentiated by their technical characteristics and the manner in which the End User or Customer accesses them when originating or terminating calls.

**4.2.1.A**

FGD Access, which is available to all Customers, provides trunk side access to Company local switches with an associated uniform 10XXX or 101XXXX access code for the Customer's use in originating and terminating communications. End Users may also originate calls to a selected FGD Access Customer by dialing 1 + NPA-NXX-XXXX when using the Company's presubscription service, or by dialing a local or ten-digit number when originating a call using another Exchange Telephone Company's service. When FGD is ordered by specifying the number of trunks and local switch routing via an access tandem operated by another Exchange Telephone Company is desired, the Customer shall specify the access tandem, the Local Transport and Local Switching options desired, and an estimate of the amount of traffic to be generated to and/or from each Company local switch subtending another Exchange Telephone Company's access tandem.

A tandem switch is a high-capacity switch positioned in the physical core, or backbone, of a Public Switched Telephone Network (PSTN), where it serves to interconnect edge switches, or Central Office (CO) switches.

Access Tariff

---

**SECTION 4 - SWITCHED ACCESS SERVICE (cont'd)**

**4.2 RATE CATEGORIES (Cont'd)**

**4.2.1 Service Definition (Cont'd)**

**4.2.1.B**

Toll Free Data Base Access Service, which is available to all Customers, provides trunk side access to Company local switches in the originating direction only, for the Customer's use in originating calls dialed by an End User to telephone numbers beginning with prefixes associated with toll free calls, such as "800" or "888".

**4.2.2 Billing Components**

Tandem Switched Transport service is billed in two parts as applicable: (1) A usage-based, distance sensitive Tandem Switched Facility charge applied to the shared interoffice transmission between the end office and the tandem. In addition, a usage-based Tandem Switched Termination charge is applied at each end of each measured Tandem Switched Facility segment. Distance is measured in airline miles between the end office and the tandem. Additionally, if the mileage is zero, no Facility or Termination charges apply; (2) A usage-based Tandem Switching charge is applied at each tandem that performs a tandem switching function.

**4.2.3 Access Rate Element Description**

Common Transport Multiplexing provides for multiplexing, on a per access minute basis, in conjunction with Tandem Switched Transport. Switched access facilities are connected to tandem and end office switches at the DS1 level. Multiplexing is required to convert common switched facilities from a typical operating speed of 44.736 Mbps to an operating speed of 1.544 Mbps.

**SECTION 4 - SWITCHED ACCESS SERVICE (cont'd)**

**4.3 OBLIGATIONS OF THE COMPANY**

The Company has certain obligations pertaining only to the provision of Switched Access Service. These obligations are as follows:

**4.3.1 Network Management**

The Company will administer its network to provide acceptable service levels to all telecommunications users of the Company's network services. Generally, service levels are considered acceptable only when both End Users and Customers are able to establish connections with little or no delay encountered within the Company's network. The Company maintains the right to apply protective controls, i.e., those actions, such as call gapping, which selectively cancel the completion of any traffic carried over its network, including that associated with a Customer's Switched Access Service. Generally, such protective measures would only be taken as a result of occurrences such as a failure or overload of Company or Customer facilities, natural disasters, mass calling or national security demands.

**SECTION 4 - SWITCHED ACCESS SERVICE (cont'd)**

**4.3 OBLIGATIONS OF THE COMPANY (Cont'd)**

**4.3.2 Design and Traffic Routing of Switched Access Service**

The Company shall design and determine the routing of Switched Access Service, including the selection of the first point of switching and the selection of facilities from the interface to any switching point and to the end offices where busy hour minutes of capacity are ordered. The Company shall also decide if capacity is to be provided by originating only, terminating only, or two-way trunk groups. Finally, the Company will decide whether trunk side access will be provided through the use of two-wire or four-wire trunk terminating equipment. Selection of facilities and equipment and traffic routing of the service are based on standard engineering methods, available facilities and equipment and the Company's traffic routing plans.

## **SECTION 4 - SWITCHED ACCESS SERVICE (cont'd)**

### **4.3 OBLIGATIONS OF THE COMPANY (Cont'd)**

#### **4.3.3 Provision of Service Performance Data**

Subject to availability, end-to-end service performance data available to the Company through its own service evaluation routines may also be made available to the Customer based on previously arranged intervals and format. The data provides information on overall end-to-end call completion and non-completion performance e.g., Customer equipment blockage, failure results and transmission performance. The data does not include service performance data provided under other Tariff sections, e.g., testing service results. If data is to be provided in other than paper format, the charges for such exchange will be determined on an individual case basis.

#### **4.3.4 Trunk Group Measurements Reports**

Subject to availability, the Company will make available trunk group data in the form of usage in CCS, peg count and overflow to the Customer based on previously agreed to intervals.

**SECTION 4 - SWITCHED ACCESS SERVICE (cont'd)**

**4.4 OBLIGATIONS OF THE CUSTOMER**

The Customer has certain specific obligations pertaining to the use of Switched Access Service.

**4.4.1 Report Requirements**

Customers are responsible for providing the following reports to the Company, when applicable.

**(A) Jurisdictional Reports**

When a Customer orders Switched Access Service for both interstate and intrastate use, the Customer is responsible for providing reports as set forth in Section 2 preceding. Charges will be apportioned in accordance with those reports.

**(B) Code Screening Reports**

When a Customer orders service call routing, trunk access limitation or call gapping arrangements, it must report the number of trunks and/or the appropriate codes to be instituted in each end office or access tandem switch, for each of the arrangements ordered.

The Company will administer its network in such a manner that the impact of traffic surges due to peaked 900 Access Service traffic on other access service traffic is minimized. Network management controls as defined in Section 3.3.1 may be implemented at the Company option to ensure acceptable service levels.

#### **SECTION 4 - SWITCHED ACCESS SERVICE (cont'd)**

##### **4.4.2 On and Off-Hook Supervision**

The Customer facilities shall provide the necessary on and off-hook supervision for accurate timing of calls.

##### **4.4.3 Trunk Group Measurements Reports**

With the agreement of the Customer, trunk group data in the form of usage in CCS, peg count and overflow for its end of all access trunk groups, where technologically feasible, will be made available to the Company. The data will be used to monitor trunk group utilization and service performance and will be based on previously arranged intervals and format.

#### **4.5 RATE REGULATIONS**

This Section contains the specific regulations governing the rates and charges that apply for Switched Access Service.

Access Charges are applied on a per access minute basis. Access minute charges are accumulated over a monthly period.

##### **4.5.1 Minimum Periods**

Switched Access Service is provided for a minimum period of one month.

## **SECTION 4 - SWITCHED ACCESS SERVICE**

### **4.5 RATE REGULATIONS (Cont'd)**

#### **4.5.2 Cancellation of Access Service Order**

A Customer may cancel an Access Order for the installation of service on any date prior to notification by the Company that service is available for the Customer's Use or prior to the service date, whichever is later. The cancellation date is the date the Company receives written or verbal notice from the Customer that the order is to be canceled. The verbal notice must be followed by written confirmation within 10 days. If a Customer or End User is unable to accept Access Service within 30 calendar days of the original service date, the Access Order will be canceled and applicable charges will apply.

Prior to Firm Order Confirmation Date:

If an Access Order is canceled prior to the Firm Order Confirmation date, no charges will apply.

On or After Firm Order Confirmation Date:

If an Access Order is canceled on or after the Firm Order Confirmation date, the Customer will be billed a charge equal to the cost incurred in such installation less net salvage, or the charge for the minimum period.

## **SECTION 5 - SPECIAL ARRANGEMENTS**

### **5.1 SPECIAL CONSTRUCTION**

#### **5.1.1 Basis for Charges**

Basis for Charges where the Company furnishes a facility or service for which a rate or charge is not specified in the Company's Tariffs, charges will be based on the costs incurred by the Company (including return) and may include:

- nonrecurring charges;
- recurring charges;
- termination liabilities; or
- combinations of (a), (b), and (c).

#### **5.1.2 Termination Liability**

To the extent that there is no other requirement for use by the Company, a termination liability may apply for facilities specially constructed at the request of a Customer.

- A) The period on which the termination liability is based is the estimated service life of the facilities provided.
- B) The amount of the maximum termination liability is equal to the estimated amounts (including return) for:
  - 1. Costs to install the facilities to be provided including estimated costs for the rearrangements of existing facilities. These costs include:
    - a) equipment and materials provided or used;
    - b) engineering, labor, and supervision;
    - c) transportation; and
    - d) rights of way and/or any required easements;

**SECTION 5 - SPECIAL ARRANGEMENTS (cont'd)**

2. License preparation, processing, and related fees
3. Tariff preparation, processing and related fees;
4. Cost of removal and restoration, where appropriate; and
5. Any other identifiable costs related to the specially constructed or rearranged facilities.

## **SECTION 5 - SPECIAL ARRANGEMENTS (cont'd)**

### **5.2 NON-ROUTINE INSTALLATION AND/OR MAINTENANCE**

At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours, or (in the Company's sole discretion and subject to any conditions it may impose) in hazardous locations. In such cases, charges based on the cost of labor, material, and other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply.

### **5.3 INDIVIDUAL CONTRACT BASIS (ICB) ARRANGEMENTS**

ICB rates will be structured to recover the Company's cost of providing the service and will be made available to the Public Utilities Commission of Ohio Staff on a proprietary basis. Rates may be negotiated and adjusted on an Individual Contract Basis (ICB). ICB rates will be offered to Customers in writing and will be made available to similarly situated Customers. Such ICB arrangements may specify, among other things, length of service, minimum volume of service required, and the rates and charges for the proposed service. Terms of ICB provided to Customers will be provided on a proprietary basis to Commission Staff.

## **SECTION 6 - RATES AND CHARGES**

### **6.1 Switched Access Service**

#### Tandem Switched Transport

##### 6.1.1 Tandem Switched Facility, Per Minute/Per Mile

AT&T areas\*
