**North Medina-West Akron 138 kV Transmission Line
Tap to Laurel Substation
Project Supplemental Information
Case No. 14-1579-EL-BLN**

Dear Mr. O'Dell:

This letter provides supplemental information to the Board concerning the construction of the North Medina-West Akron 138 kV Transmission Line Tap to Laurel Substation Project, Case No. 14-1579-EL-BNR. Wetland impacts are proposed in order to install the switch structure (#9837). The total wetland impacts are less than 0.1-acre; therefore, will not require a Pre-Construction Notification with the US Army Corps of Engineers. Wetland locations are marked on the Construction Access plan that was produced to the OPSB on Friday, November 14, 2014, and is attached.

Should the Ohio Power Siting Board desire further information or discussion of this submittal, please contact me at (330) 384-5955.

Sincerely,

Jessica Thacker
Supervisor, Transmission Siting
Energy Delivery Transmission and Substation Design
FirstEnergy Service Company
