**Re: Letter of Notification of Compliance for a Second Stage of
Construction by Trishe Wind Ohio, LLC,
Case No. 13-197-EL-BGN**

Dear Ms. McNeal:

The December 16, 2013 Opinion, Order, and Certificate approving Northwest Ohio Wind Energy, LLC's [now known as Trishe Wind Ohio, LLC ("Trishe")] Certificate of Environmental Compatibility and Public Need ("Certificate") and the October 1, 2013 Supplement to Amended Application ("Supplement") established a set of conditions and supplemental commitments as part of the Certificate.

Within this set of conditions and commitments, "**Certificate Condition No. 27**" requires the following:

At least seven days prior to the preconstruction conference, the Applicant shall submit to Staff, for review and acceptance, a copy of all NPDES permits including its approved SWPPP, approved SPCC procedures, and its erosion and sediment control plan. Any soil issues must be addressed through proper design and adherence to the Ohio EPA BMPs related to erosion and sedimentation control.

A copy of the **approved** NPDES Notice of Intent (NOI) is attached. An earlier filing indicated that it had been filed with the Ohio EPA on December 9, 2014, and that the Applicant expected approval by December 16, 2014. Thus, this letter is to inform the OPSB Staff that Trishe is in compliance with the above-mentioned Certificate Condition No. 27.

If you have any questions please call at the number listed above.

Sincerely,

Sally W. Bloomfield

Re: Approval Under Ohio EPA National Pollutant Discharge Elimination System (NPDES) Construction Site
Storm Water General Permit OH000004 (the permit)

Dear Applicant:

Your NPDES Notice of Intent (NOI) application is approved for the following facility/site. Please use your Ohio EPA Facility Permit Number in all future correspondence.

Facility Name: NORTHWEST OHIO WIND PROJECT
Facility Location: NE OF US 127 & SR 114
City: HAVILAND **Township:** BLUE CREEK, LATTY
County: Paulding
Ohio EPA Facility Permit Number 2GC03989*AG

Please read and review the permit carefully. The permit contains requirements and prohibitions with which you must comply. Coverage under this permit will remain in effect until a renewal of the permit is issued by the Ohio EPA. If more than one operator (defined in the permit) will be engaged at the site, each operator shall seek coverage under the general permit. Additional operator(s) shall submit a Co-Permittee NOI to be covered under this facility permit number. There is no fee associated with the Co-Permittee NOI form.

Please be aware that this letter only authorizes discharges in accordance with the above referenced NPDES CGP. The placement of fill into regulated waters of the state may require a 401 Water Quality Certification and/or Isolated Wetlands Permit from Ohio EPA. Also, a Permit-To-Install (PTI) is required for the construction of sanitary or industrial wastewater collection, conveyance, storage, treatment, or disposal facility; unless a specific exemption by rule exists. Failure to obtain the required permits in advance is a violation of Ohio Revised Code 6111 and potentially subjects you to enforcement and civil penalties.

You may obtain additional information, copies of the general permit and current forms/instructions from our website at: <http://epa.ohio.gov/dsw/storm/index.aspx>

If you have questions, please call 614-644-2001.

Ohio EPA has developed a customer service survey to get feedback from regulated entities that have contacted Ohio EPA for regulatory assistance, or worked with the Agency to obtain a permit, license or other authorization. Ohio EPA's goal is to provide our customers with the best possible customer service, and your feedback is important to us in meeting this goal. Please take a few minutes to complete this survey and share your experience with us at <http://www.surveymonkey.com/s/ohioepacustomersurvey>

Sincerely,

Craig W. Butler
