①

I pay my bill to Duke Energy and I care about this issue because I believe that if we had better Coal plants, there would be alot of money saved ~~to~~ on my electric bill. My family and I care about reducing toxic pollution and if that takes newer coal plants to be made, that's what will be needed! A bailment of old, polluting technology only benefits utility shareholders and delays inevitable investments in efficiency and renewable energy. Please deny the rate increase to lock consumers into buying power from Ohio's oldest, dirtiest coal plants.

Thank you,
Kevin Helton
