COMMENTS: I have a problem with this matter being "fast tracked" and up for approval on January 7th. We will be directly affected by this as it will go thru our backyard. We did not receive our letter until December 31st. Our back yard backs right up to US rte 475. We have landscaped a hill and trees to block the highway noise and sight. The easement will destroy all of this. I do not understand why the pipeline cannot go on the other side of our property line in the land between the line and the highway. If they insist on putting the pipeline in our back yard then they should also give us a sound/sight barrier fence to block the highway.
