Subject: gas pipeline

I am writing in regards to the 14-1754-GA-BLN: North Coast Oregon Lateral Pipeline project. I understand that it is being accelerated through, but last week is the first that I have heard of it. I am a property owner that will be affected by this pipeline, and I must unequivocally say that is should NOT be allowed to proceed. My neighborhood already has one high pressure gas pipeline going through it (Hull Prairie Farms), and it's unacceptable to add another. The risks are too great, as is the damage to the property value. While the power plant project is laudable, it is totally unproven, and the idea of using a fossil fuel in this day and age is ludicrous.

DO NOT allow this pipeline to be constructed!

Chris Gail
