PUCO

I am writing in regards to the proposed gas pipeline that is going to majorly affect my property and my resale/property value. We just built a \$308,000 house on a lot that we had no idea was going to have a gas line running through it. Had we known this there is no way we would have EVER bought this property!! The fact that it was sprung on us a few months ago is so unfair. We have seen the alternate route further south through all farm land and want to know why that route isn't first choice? Our back yard is going to be useless to us for almost 4 years!! We had plans to put in a in ground pool that we were informed that we are no longer allowed to do, or do at our own "risk" because if it interferes with the construction it will be ripped out at our cost, not theirs. The temporary easement they are asking for will come within 10' of our bedroom window!! We have a fenced in backyard because we have 4 rescue dogs. We were informed that they would put up a temporary snow fence for us. That is UNACCEPTABLE since our backyard butts up against 475/23N. There is no way I want to own a home anywhere near a gas line like this. The value of our home will be GREATLY affected!!

I want to know what I can do or what recourse I have to stop this from going through my property?

Thank you,

Kimberley Woodling Cloyne
