COMMENT DESCRIPTION:

On behalf of Owens Community College, I respectfully submit the following comment regarding the proposed gas pipeline by North Coast Gas Transmission LLC. (NCGT), Case # 14-1754 The College is very concerned with proposed plan for the NCGT gas pipeline project which would cross six parcels of land owned by the College on it's Toledo Campus. Five of the parcels are located in an 88 acre plot of land at the corner of Walbridge and Tracy Road in Walbridge Ohio.

This land is considered to be part of our Toledo Campus. We have recently placed the property on the market and have received estimates of value ranging from \$7000.00 - \$10,000 an acre. The proposed pipeline would cross our property from the southwest corner to the northeast corner (diagonally). The value of the property would be significantly reduce if this proposed easement is granted. The loss to the College could be in the hundreds of thousands of dollars. We are asking that the proposed route be relocated to avoid crossing this property and either consider the alternate routes or at minimum place the easement along the border of the property and avoid crossing the property.

Michael S. McDonald Executive Director, Operations Owens Community College Oregon Road
