THE PUBLIC UTILITIES COMMISSION OF OHIO

In the Matter of the Application of Vectren )  
Energy Delivery of Ohio, Inc., for Approval )  
of a General Exemption of Certain Natural ) Case No. 07-1285-GA-EXM  
Gas Commodity Sales Services or Ancillary )  
Services. )

FINDING AND ORDER

The Commission finds:

- (1) Vectren Energy Delivery of Ohio, Inc. (VEDO) is a public utility as defined in R.C. 4905.02 and, as such, is subject to the jurisdiction of this Commission.
- (2) On April 30, 2008, the Commission issued an Opinion and Order in this proceeding approving the terms of a February 4, 2008 stipulation entered into by the various parties to this proceeding. The stipulation provided that VEDO would hold a series of auctions to secure natural gas supplies for standard service offer (SSO) and standard choice offer (SCO) customers. By separate Finding and Orders issued on July 23, 2008, and November 4, 2009, the Commission approved two amendments to the February 4, 2008 stipulation. The stipulation, as amended, provided that VEDO would hold an auction to secure natural gas supplies, initially through an SSO structure, and subsequently through an SCO structure. The initial SSO was to be in effect for the period October 1, 2008, through March 30, 2010. The initial SCO period was to be for the 12-month period beginning April 1, 2010. Under the SSO mechanism, the winning auction bidders were awarded the right to provide natural gas to VEDO on a wholesale basis for redelivery by VEDO to end-use customers. Under the SCO mechanism auction, participants bid on the right to serve specific end-use customers; thus, winning bidders would have a direct retail relationship with SCO customers.
- (3) Since only Choice-eligible customers are included in the SCO pools, a separate default sales service (DSS) is also proposed to serve percentage of income payment plan (PIPP) customers and customers otherwise ineligible for Choice. Each winning SCO bidder will be allocated a proportional share of the DSS

pool's requirements. This load will be provided to VEDO on a wholesale basis for redelivery to the end-use DSS customers. Unlike SCO customers, DSS customers will not be directly served by the SCO providers. The rate charged to DSS customers will be identical to the SCO rate determined through the auction, although they will continue to have their gas supplied by VEDO.

- (4) On January 13, 2015, an auction was conducted to establish rates for the April 1, 2015 through March 31, 2016 SCO period. The auction participants bid a retail price adjustment (RPA) in the form of an adder to the monthly New York Mercantile Exchange (NYMEX) settlement price for natural gas futures. The RPA is a fixed dollar amount over the term of the SCO phase and reflects the bidders' estimate of their incremental cost to deliver the required amount of gas from the Henry Hub, which is priced at NYMEX, to VEDO's city gate. VEDO contracted for the services of World Energy Solutions, Inc., as the auction manager. The auction was jointly monitored by VEDO, the Office of the Ohio Consumers' Counsel, and the Commission's Staff. The auction was conducted as a descending clock auction in which nine tranches of customers were bid, with each bidder limited to a maximum of three tranches. During each round, the bid was in the form of the number of tranches each bidder would be willing to supply at an announced RPA rate. Five bidders were awarded tranches. If approved, the SCO rate would be the sum of the NYMEX prompt month settlement price (converted from dekatherms [Dth] to thousand cubic feet [Mcf]),<sup>1</sup> plus the RPA as determined by the auction. That RPA would be fixed for the 12-month term of the SCO period, while the NYMEX would change monthly.
- (5) On January 13, 2015, Staff filed a post-auction report (Staff Report), detailing the results of the auction. That report contained a round-by-round description of the auction and a conclusion by Staff that, based on its observations, the auction was fair and devoid of any indications of collusion or other anomalies and was an accurate reflection of the natural gas market at the time of the auction. The result of the auction was

---

<sup>1</sup> Since NYMEX is priced in Dth, the NYMEX price must be converted to Mcf before calculating the final retail rate.

an RPA of \$1.15 per Mcf. The Staff Report recommended that the Commission approve the auction result and authorize VEDO to revise its current SCO and DSS rates to incorporate the RPA of \$1.15 per Mcf beginning April 1, 2015.

- (6) The Commission has reviewed the Staff Report and the auction results and agrees with Staff's conclusion that the auction results are reasonable and should be approved. VEDO is authorized to implement its SCO and DSS rates based on the \$1.15 per Mcf RPA and to enter into the necessary arrangements with the winning bidders. The monthly SCO and DSS prices will be calculated as the sum of the NYMEX settlement price for the prompt month (converted from Dth to Mcf), plus an RPA of \$1.15 per Mcf. VEDO is further authorized to file the final tariffs necessary to implement the terms of this Finding and Order, as well as the relevant terms of the Commission's April 30, 2008 Opinion and Order, as amended.
- (7) Unless otherwise ordered by the Commission, the SCO and DSS are approved for the period April 1, 2015, through March 31, 2016. During that time, the Commission reserves all authority to exercise its oversight and specifically reserves the right to terminate the SCO and DSS mechanisms and to implement an alternative pricing methodology at any time, if circumstances warrant.
- (8) On January 14, 2015, Staff filed a motion for protective order, pursuant to Ohio Adm.Code 4901-1-24, requesting that the names of the participating or winning bidders be kept confidential for a period of 15 days from the date of this Finding and Order. In support of its motion, Staff stated that this should be done in order to protect the bidders' positions in negotiations with pipelines for the incremental capacity necessary to meet their obligations as SCO/DSS suppliers. The Commission finds that Staff's motion for protective order should be granted.

It is, therefore,

ORDERED, That VEDO is authorized to replace its existing SCO rate consistent with findings (6) and (7) above for a 12-month period beginning April 1, 2015. It is, further,

ORDERED, That VEDO is authorized to file tariffs, in final form, consistent with this Finding and Order. VEDO shall file one copy in this case docket and one copy in its TRF docket. It is, further,

ORDERED, That the effective date of the new tariffs shall be a date not earlier than April 1, 2015. It is, further,

ORDERED, That VEDO shall notify all affected customers of the change to the SCO pricing methodology via a bill message or via a bill insert, within 30 days of the effective date of the tariffs. A copy of the customer notice shall be submitted to the Commission's Service Monitoring and Enforcement Department, Reliability and Service Analysis Division, at least 10 days prior to its distribution to customers. It is, further,

ORDERED, That, in accordance with finding (8), Staff's motion for protective order be granted and the identities of the participating bidders be treated as confidential for a period of 15 days from the date of this Finding and Order. It is, further,

ORDERED, That a copy of this Finding and Order be served upon all parties and interested persons of record in this proceeding.
