Public Utilities Commission of Ohio
Attn: Case # 14-0841EL-SSO
180 East Broad Street
Columbus, OH 43215

To Whom It May Concern:

I'm writing to express my concern about a rate increase to support old, polluting coal plants. This seems to simply postpone and worsen a serious economic and environmental issue for Ohioans, while passing the cost onto taxpayers, rather than placing it with Duke and other utility providers.

Please deny the rate increase, which would lock Ohio consumers into buying power for the state's oldest, dirtiest coal plants. It isn't free market capitalism, and it isn't representative democracy, either. Fair economic pressure is one of the best tools we have at our disposal for improving our environment. Don't let them cheat us out of it.

Best,

Phoebe Reeves

Attention: Case number 14-00841EL-SSO

To Whom it may Concern:

Please deny the rate increase to the utility companies to lock customers into paying for power from Ohio's old and dirty coal plants. It should be utility company's responsibility to pay for the conversion to new efficient, cleaner energy solutions.

It is important that we reduce the toxic pollution in the state of Ohio.

Sincerely,

Debbie Strawser

Attention Case Number 14-0841EL-SSO

PUCO,

Please deny the rate increase to lock consumers into buying power from Ohio's oldest, dirtiest coal plants. A bailout of old, polluting technology only benefits utility shareholders and delays inevitable investment in efficiency and renewable energy.

Sincerely,
Jeff Kolberg

Ref: Case # 14-0841 EL-SSO

Dear PUCO:

I respectfully request that you deny the rate increase requested by Duke energy locking my household into buying power from old, outdated coal fired power plants. Ohio lags considerably behind in renewable energy efforts and this action is a delay to moving the state closer to sustainable energy platforms. Please incentive these power companies into investing in renewable energy by denying this request.

Sincerely,

Scott Collett
