

PUCO case number 14-2315-EL-REN
James Greenwood

Section G: part 4b

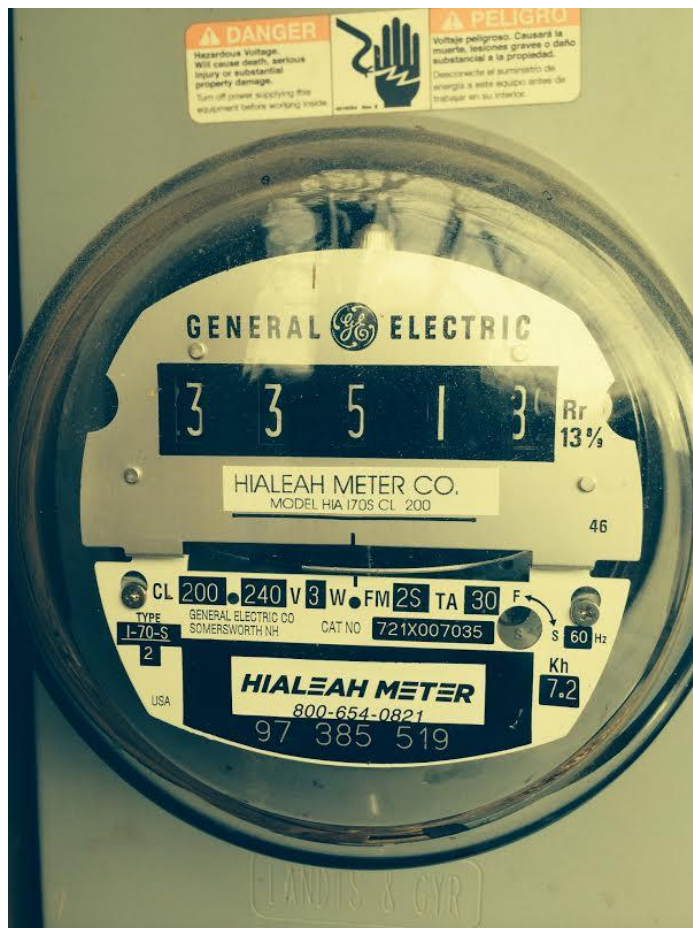

You have listed the total number of modules as 110, but I have counted and come up with 112. This affects the unit nameplate capacity and the capacity factor as well. Can you double check this information and file the right information in the docketing system?

Answer: two of the panels are aesthetic only. There are 110 panels.

Section N

You have listed that the utility grade meter type is I-70-S but in the picture of the meter, the full number is not visible. Can you re-take the picture of the meter so that the full meter type is visible and file the new picture in the docketing system?

Answer: new picture below, taken 01/19/2015

This foregoing document was electronically filed with the Public Utilities

Commission of Ohio Docketing Information System on
