MISCELLANEOUS SERVICES, (CONT'D.)**Emergency Services (Enhanced 911)**

This service allows Customers to reach the appropriate emergency services including police, fire and medical services. Enhanced 911 has the ability to selectively route an emergency call to the primary E911 provider so that it reaches the correct emergency service located closest to the caller. In addition, the Customer's address and telephone information will be provided to the primary E911 provider for display at the Public Service Answering Point (PSAP). These services will be provided free of charge to all Customers.

The Company will collect 911 surcharges on a per line basis and remit all surcharge revenue to the appropriate government entity.

Telecommunications Relay Service (TRS)

Telecommunications relay service enables deaf, hard-of-hearing or speech-impaired persons who use a Text Telephone (TT) or similar devices, to communicate freely with the hearing population not using TT and visa versa. A Customer will be able to access the state provider to complete such calls.

Customers may be assessed a charge per line per month to fund Telecommunications Relay Services for the State of Ohio in accordance with Section 4905.84 of the Revised Code. This charge shall in no event exceed the per end-user line (or equivalent) assessment levied by the Public Utilities Commission of Ohio upon the Company.

Presubscription

Presubscription is a procedure whereby a Customer designates to the Company the carrier which the Customer wishes to be the carrier of choice for intraLATA and or interLATA toll calls. Such calls are automatically directed to the designated carrier, without the need to use carrier access codes or additional dialing to direct the call to the designated carrier. Presubscription does not prevent a Customer who has presubscribed to a toll carrier from using carrier access codes or additional dialing to direct calls to an alternative toll carrier on a per call basis.

A. Application of Charges

After a Customer's initial selection for a presubscribed intraLATA toll carrier, for any change thereafter, an IntraLATA Presubscription Change Charge will apply. Customers who request a change in intraLATA and interLATA carriers with the same order will be assessed a single charge per line.

The Presubscription Change Charge shall be applied as follows:

1. The charge shall be no greater than those set forth in below, unless modified by a company-specific Commission-approved tariff.
