Public Utilities Commission of Ohio
Attention Case Number 14-0841EL-SSO
180 East Broad Street
Columbus, Ohio 43215
December 19, 2014.

Public Utilities Commission,

Please deny the rate increase to lock consumers into buying power from Ohio's oldest, dirtiest, coal plants. I pay my bill to Duke Energy and I care about the issue because my family and I care about reducing toxic pollution and saving money on our electric bills. Costs are outrageous and to many unaffordable. A bailout of old, polluting technology only benefits utility shareholder and delays inevitable investment in efficiency and renewable energy.

Please deny the rate increase.

Thank You,

Scott Medley

Case # 14-0841-EL-SSO

Governor John Kasich
Riffe Center, 30th Floor
77 South High Street
Columbus, Ohio 43215-6117

Dear : Governor Kasich

I am writing you today because I am concerned with an issue that you will soon have a say on. This concern is a rate increase that will lock Ohio residents into buying power from old polluting coal plants. I am well aware that converting these old plants into more efficient and less polluting plants is costly and will require a rate increase, but the current increase only serves to bailout these polluting plants. There is no need to delay the inevitable investment in efficiency and renewable energy and in the process reduce the toxic pollution that is generated from these current power plants.

Please deny this current rate increase and begin to invest in Ohio's energy future.

Sincerely,

A handwritten signature in black ink, appearing to be 'K. Schuesler', written in a cursive style.

K. Scott Schuesler

I am writing as a concerned citizen and a Duke customer. I implore the committee to deny the rate increase to lock us consumers into buying power from Ohio's oldest, dirtiest coal plants. We need to move beyond coal and explore alternative energy sources. Not only is coal dangerous it is also hazardous to the poor souls who have to work in the mines and extract this carbon product to create power. We can and need to do better. Please do not let case # 14-0841EL-SSO pass. The citizens of this fine state will be healthier and more prosperous without the coal plants and with alternative energy to push us to greater heights.

Thanks

Troy Warnken

SSZ McAlpin Ave

Riffe Center, 30th Floor
77 South High Street
Columbus, OH 43215-6117

Dear Governor Kasich,

I am writing concerning Duke Energy's case number 14-0841EL-SSO .
I feel that enabling Duke Energy to increase rates in order to bail out its outdated, inefficient plants is not the right choice. This is throwing good money after bad, and it is time that they are forced to feel the consequences of not upgrading their energy plants with more efficient and environmentally friendly technology. I don't support Duke Energy continuing to profit from unsustainable and short-sighted business practices.

Sincerely,

Naveen Singh

Riffe Center, 30th Floor
77 South High Street
Columbus, OH 43215-6117

Dear Governor Kasich,

I am writing concerning Duke Energy's case number 14-0841EL-SSO

I am embarrassed to be buying power from Ohio's oldest and dirtiest coal plants. By bailing out power companies we are only appeasing their shareholders while delaying investment in efficiency and renewable energy. I feel strongly that we should not support Duke's unsustainable business plan by giving them money to run unprofitable outdated plants instead of adopting best practices. Their business strategy is a reaction to market pressures and its short-sightedness will harm their employees, their customers, and add to Ohio's environmental woes. Please hold the interests of Ohioans above those of corporations.

Sincerely,

Stephanie Trittschuh

To - The Public Utilities Commission of Ohio.
Please deny the rate increase to lock
consumers into buying power from Ohio's

Case # 14-0841EL-SSD

Dear Governor Kasich, PUCO

My family and I care about reducing
toxic pollution. Do not bail out
Duke Energy's outdated coal plants

Leo Thomas

413 McAlpin Ave
Cincinnati OH 45220

Dear Governor Kasich,

As a small business owner and student in this fine state, I do not support an energy rate increase from Duke Energy allowed by the Public Utilities Commission of Ohio.

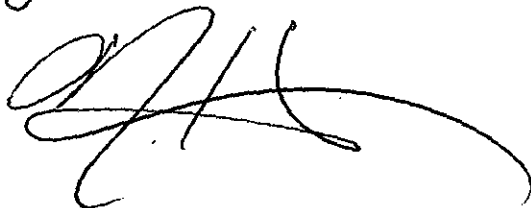

Duke Energy being allowed to shift cost to the consumers in response to their inability, or unwilling attitude, to invest and innovate their power plants is not in keeping with Ohio values. Worse, it would reduce the household purchasing power, hurting families and business alike.

Please deny the rate increase. Show your support for families who are already struggling to bounce back. Promote investment and job creation by forcing energy companies to upgrade their plants, or even better, build new ones.

In regards to case # 14-0841EL-SSO,
Please deny Duke Energy's request.

Respectfully,

Byron N. Hutchins

858 LUDLOW AVE
Cincinnati, OH 45220

February 7, 2015

Dear Governor Kasich,

A bailout of old, polluting technology only benefits utility shareholders and delays inevitable investment in efficiency and renewable energy.

As a mother, it is my responsibility to make sure the air is clean and safe for my son and the next seven generations. Allowing old technology to be kept in use makes the air we breathe that much dirtier. Instead let's focus our efforts on non-polluting renewable energy sources.

Thank you,
CJ DDM

Emily J Diefendorf

Case #: 14-0841EL-SSO

Governor Kasich,

My name is Ali Truax, and I am a student at Clark Montessori High School in Cincinnati, Ohio. I am a newly registered voter, and a highly concerned citizen of Cincinnati. I'd first like to let you know that I appreciate the job you do as Governor, and understand that what you do is a very difficult job. However, after being approached today by another concerned citizen, I have been called to act - to write a letter to you on a key issue in our world today: air pollution.

My family and I care about the environment, and are active consumers in a market - environment - that does not treat our air the way it should be treated. My family cares about reducing toxic pollution and saving money on our electric bills. We care about the earth, and how the earth will be when my kids are grown-up some 30 years from now. I'm asking you to start caring. I'm asking you to think about the world - where we are now, and where we're going, and how Ohio can start

helping out more with environmental
issues

Thank you so much for taking
the time to read my letter. If you would
like to contact me, my email
address is trmaxart@gmail.com.

Thanks again
Sincerely,

Dear Governor Kasich:

Re: case number 14-0841EL-SSO

I am a Duke Energy ratepayer. I live in Cincinnati, OH near Moscow, OH and the W.H. Zimmer power plant. I have a 13 year old son and I work hard to support my family. I am writing to voice my opposition to a consumer bailout of old, polluting technology in my community. This rate increase will place a burden on my family and continue to pollute the Ohio River valley with dirty and outdated coal plants. Millions of Ohio consumers paid billions of dollars to Duke Energy, AEP and First Energy to transition toward old power plant deregulation. Don't put this burden on us again.

Sincerely,

Nicole Gunderman

Governor John Kasich
Lefke Center, 30th floor

Columbus, OH 43215-6117

February 4, 2015

Governor Kasich,

My name is Jim Springfield and I am a citizen of Ohio. I'm writing you to respectfully ask you not to support the proposed rate increase (Purchase Power Agreement) requested by Duke Energy AEP and First Energy. Being one of the people who will be affected by this increase, I have to object to it for several reasons.

First, it is the responsibility of a publicly owned utility corporation to provide their services as efficiently as possible and to maintain and upgrade their facilities. To accomplish this, the energy providers should be using funds from the profits they have made over the years using these facilities. This is simply the cost of doing business.

Second, being one of the people who will be affected by this increase, I don't think it is my responsibility to have pay for increasingly inefficient and outdated power plants so the shareholders can profit from our sacrifices. Especially, when we don't have a choice of where our electricity is generated.

Again Mr. Kasich, please deny this proposed rate increase. Thank you.

Sincerely,

Gov. John Kasich,

While I understand funding for re-election campaigns and Big Business' contributions, investing in technologies making the production of energy more cost efficient and better for the environment should be part of legislation you vote for. Climate change is real. Everything we can do should be done in an effort to help make a difference.

Our votes matter to you, so does the legislation you pass.
