**NOTICE OF FILING OF THE DEPOSITION TRANSCRIPT OF SHERIFF SCOTT KENT
IN LIEU OF LIVE TESTIMONY AT THE HEARING SCHEDULED FOR MARCH 3, 2015**

Now comes CSX Transportation, Inc. ("CSXT"), pursuant to Section 4901-1-21 of the Ohio Administrative Code and the Attorney Examiner's Entry dated February 2, 2015, and hereby notifies the Commission and the Hearing Examiner that it has filed the deposition transcript of Sheriff Scott Kent of Crawford County.

CSXT has obtained the agreement of the representatives of Crawford and Morrow Counties to file this deposition transcript in lieu of live testimony at the Evidentiary Hearing scheduled for March 3, 2015, including the use of any exhibits identified therein. (See Correspondence with Mr. Charles Howland and Mr. Robert Kidd of the Morrow County and Crawford County Prosecutors offices, respectively, confirming this agreement, contemporaneously filed with this deposition). No other¹ parties have moved to intervene pursuant to the Commission's February 9, 2015 deadline, and no parties object to the use of this transcript and any related exhibits in lieu of the live testimony from Sheriff Kent.

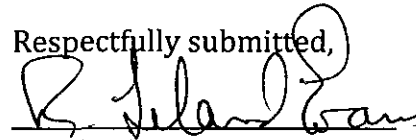

¹ Based upon a review of the PUCO docket, it also does not appear that Morrow and Crawford Counties have moved to intervene to the extent such intervention is required and is contemplated by the Attorney Examiner.

This is to certify that the images appearing are an
accurate and complete reproduction of a case file
document delivered in the regular course of business.
Technician IN Date Processed

FEB 25 2015

CSXT is filing the deposition transcript of Sheriff Scott Kent with the Docketing Division of the Public Utilities Commission of Ohio pursuant to Rule 4901-1-21(N) of the Ohio Administrative Code.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "R. Leland Evans", is written over a horizontal line.

1 SHERIFF SCOTT M. KENT,
2 a Witness herein, called by the Petitioner as if upon oral
3 examination, was by me first duly sworn, as hereinafter
4 certified, and deposed and said as follows:

5 EXAMINATION

6 BY MR. EVANS:

7 Q Sheriff, would you state your full name, please.

8 A Sheriff Scott M. Kent.

9 Q Sheriff Kent, my name is Lee Evans. We met a few
10 moments ago. This is Eric Thompson from my office. We are
11 representing CSX in connection with the petition filed with
12 the Public Utilities Commission of Ohio concerning the
13 potential closure of a grade crossing that's located on a
14 roadway that goes by more than one name, but certainly County
15 Road 8 is one of them. It's also known as the Blooming Grove
16 New Winchester Road or Crawford-Morrow County Line Road.
17 You're familiar with that roadway and this particular
18 crossing?

19 A Yes.

20 Q Okay. Have you ever given a deposition before? I
21 assume you probably have.

22 A Yes.

23 Q So you know the process. I'm just going to be
24 asking you questions briefly about the department and its
25 operations very briefly, and then primarily about issues

1 surrounding the use and potential closure of this crossing.
2 If I ask any question that's not clear or if for some reason
3 you do not hear some part of my question, will you let me
4 know that and we'll fix it? I'll either restate it or have
5 the court reporter read it back. Okay?

6 A Okay.

7 Q We'll attempt to be as brief as we can. For the
8 record, what is your professional address or your business
9 address?

10 A 3613 Stetzer Road, S-t-e-t-z-e-r. And that's in the
11 City of Bucyrus, Ohio.

12 Q And by whom are you employed?

13 A I'm employed by the voters.

14 Q Okay. What is your position here?

15 A I'm the Crawford County Sheriff.

16 Q And how long have you held that position?

17 A Little less than two years.

18 Q And prior to that were you employed -- also employed
19 by the sheriff's department in a different capacity?

20 A Yes, I was.

21 Q How long have you been employed by the sheriff's
22 department total?

23 A It will be 20 years in January.

24 Q And am I correct in understanding that before you
25 became sheriff that you worked as a deputy sheriff and would

1 have been doing that type of work throughout Crawford County?

2 A Yes.

3 Q Just to get a little bit of a sense of the
4 department and your job, first of all, in terms if I ask you
5 the territory or jurisdiction that your department covers, is
6 it as simple as saying it's Crawford County? Or is it
7 anything that would go out or beyond Crawford County?

8 A No, Crawford County would be a good starting point
9 for that. We cover over 400 square miles, primarily rural
10 roadway.

11 Q Okay. And how many employees total does the
12 sheriff's department have?

13 A Sixty-five.

14 Q And of those, how many - if this terminology isn't
15 right let me know - are deputy sheriffs that would be
16 involved in doing the actual police work, if you will, out in
17 the county?

18 A 20 to 25.

19 Q Varies from -- or at various times, or is it just
20 that's your estimate as to what it is now?

21 A That's my estimate as to how many sworn peace
22 officers we have.

23 Q Now, at any given time how many shifts a day does
24 the sheriff's department run?

25 A We operate three shifts a day.

1 Q And how many deputy sheriffs would be assigned
2 typically per shift?

3 A It depends. Normally two -- two deputies a shift.
4 There's some hours there's a split shift in there that kind
5 of overlaps between afternoon and night shift. Day shift we
6 have more deputies on the road, but some of those are court
7 liaisons or detectives or sworn officers.

8 Q Got you. In terms of the number of deputy sheriffs
9 that would be out in sheriff's department cruisers
10 functioning in the capacity as a deputy sheriff as, I guess,
11 they're all deputy sheriffs as opposed to process servers,
12 whatever, as somebody that's out there doing more of the
13 typical police work that we think about, how many of those
14 are on -- typically at a given time on duty?

15 A Probably sometimes as many as five or six on day
16 shift, but that includes like the court liaison and
17 detectives. The afternoon shift would normally be two,
18 sometimes three a shift.

19 Q Do you have any way, and I realize they are probably
20 responding to incidents and events and calls that take them
21 to different parts of the county, but when they go out on
22 duty on a given shift, is there any kind of way you divide up
23 the county such that, you know, this officer, all things
24 being equal, is assigned this area, et cetera? Can you give
25 me some understanding of how that works?

1 A Yeah. I brought a county map in here just for
2 reference. State Route 62 (indicating) is our dividing line.
3 One deputy will cover the west side of the county, one deputy
4 will cover the east side of the county. If the deputy on
5 this (indicating) side gets tied up, this deputy from the
6 west side can come over to the east side and cover.

7 Q Okay.

8 A And vice versa.

9 Q So you seem in your -- in your description to be
10 talking about a division between two primary deputies on any
11 given shift. I know you talked earlier about there being as
12 many as five or six, but some of those folks are doing other
13 tasks within the county such as delivering service of process
14 or that type of thing?

15 A No. That would be -- the process servers are the
16 two deputies that are on the road, or three deputies, just
17 depending on the shifts or schedule.

18 Q So you would -- if I understand right, then the
19 deputies that are on any given shift typically would be two
20 or three deputies, and that county road is 62 you said?

21 A State Route 62.

22 Q State Route 62 is the rough -- is the dividing line
23 where you, again all things being equal, assign somebody to
24 the east side of that and another deputy to the west side of
25 that; is that correct?

1 A That's correct.

2 Q If it is a situation where you have three working,
3 does that change that in any way or is that the third one?

4 A Yes. So when we have three working or three or more
5 working, what will happen is we still have one on the west
6 side of the county and one on the east side of the county,
7 and then the third one would be a rover. He would go where
8 he is needed.

9 Q We sent a subpoena over I think in conjunction with
10 the deposition just so we could try to get a sense from your
11 records as, you know, this particular crossing, I guess we
12 could agree that it would be located on the southernmost
13 portion of your territory, correct?

14 A Southeast, yes.

15 Q Southeast. Okay. Southeast. I had Morrow County
16 in my mind for a minute. But for you it would be the
17 southeast portion of the territory?

18 A Yes.

19 Q And County Line Road, as I understand it, the north
20 side address is residents and structures that are located on
21 the north side of County Line Road as it passes between
22 Crawford County and Morrow County. The north side of that
23 would be Crawford County, correct?

24 A That's correct.

25 Q And your department would be responsible for

1 reporting to or going to addresses that are on that north
2 side of the road, correct?

3 A Yes.

4 Q Anything on the south side of that road would be
5 Morrow County and that would fall to your counterparts, and
6 typically the Morrow County Sheriff's Department or other
7 emergency response providers, correct?

8 A Morrow County Sheriff's Office or Galion Police
9 Department. There's some of Galion city limits that falls
10 within Morrow County.

11 Q And when you say that, I think from what I've
12 learned from talking to some other folks is that there's a
13 reservoir, or maybe it's actually two reservoirs down there
14 that are actually within Morrow County that are owned by the
15 City of Galion?

16 A Yes.

17 Q Does your department have any responsibility or any
18 involvement in responding in any respect to those two
19 reservoirs or incidents that occur at or around those
20 reservoirs?

21 A Not normally. Galion Police Department if they
22 would need assistance typically they would call upon the
23 Morrow County Sheriff's Office.

24 Q Okay.

25 A Would they not be available for a call, then we

1 would go down to the reservoirs and assist them.

2 Q Was there -- when you talked about potential
3 locations of response outside of Crawford County, was there
4 anything else you had in mind other than occasionally or
5 potentially those reservoirs?

6 A Morrow County was running pretty-shorthanded there
7 for a while and it was not uncommon for us to be called down
8 to assist the Morrow County Sheriff's Office in the northern
9 part of the county.

10 Q Is that something that is still occurring today with
11 any kind of regularity, or is that something that was more at
12 a period of time in the past?

13 A It was at a period of time in the past. I think
14 their finances are -- the economy is a little better than
15 what it used to be, and we don't see as many of those as we
16 used to.

17 Q As you understood it, I guess Morrow County can
18 speak to this better, but was there a period of time when
19 they were shorthanded in terms of sheriff's department
20 employees or that would be on duty at any given time?

21 A Yes.

22 Q And when was the last time that they were asking you
23 for that kind of assistance?

24 A I don't know that.

25 Q Okay. Within the last year or two or beyond that,

1 if you know?

2 A I could -- I could only tell you what I recall and
3 that was two years ago when I was still on the road and
4 handling patrol.

5 Q Okay. Since you've been sheriff you don't -- sounds
6 like it's your recollection that that's not been something
7 that your department's been called on to do, at least not
8 with any regularity?

9 A I didn't look those statistics up. I don't know
10 that we've been doing it on a regular basis, but there's
11 still times we're called to help them out.

12 Q Okay. If I understand correctly in terms of the
13 reservoirs themselves, am I understanding that the primary
14 responding police presence would be the Galion City Police
15 Department? You guys, your department would be more a backup
16 as necessary?

17 A Yes.

18 Q Okay. So I started talking about this, the subpoena
19 and we asked if it was possible for you to locate records
20 that would reflect runs or calls to which the Crawford County
21 Sheriff's Department has had to respond within a certain
22 radius of this particular crossing that we're here to talk
23 about; is that your understanding?

24 A Yes.

25 Q And it looks like you brought with you some records.

1 And why don't you go ahead and tell me what those are, if you
2 would?

3 A I have 82 pages of records that we've -- calls we've
4 handled in Polk Township from January 1st, 2010 until current
5 date. However, the request that was made on the subpoena was
6 for me to narrow that down within a mile radius around that
7 crossing.

8 Q Okay.

9 A We don't have that capability in our records
10 management system of breaking it down within a mile radius,
11 but what I did this morning was kind of reviewed through
12 here, and any of these addresses I felt were close to a mile
13 radius or somewhere in proximity, I've highlighted those
14 calls. Now, I have not counted up the amount of calls that
15 we've had in the almost five years, but these records are
16 certainly yours for review.

17 Q Let's go ahead then just for the record and mark
18 these records as well. The title of these is Crawford County
19 Sheriff's Office Dispatch Activity Blotter; is that correct?

20 A Yes. And I can explain that further if you'd like.

21 Q Let's let the court reporter mark these and I'll ask
22 you a few more questions.

23 MR. EVANS: As Kent Exhibit A, if you
24 would.

25 (Whereupon, a document entitled Crawford

1 County Sheriff's Office Dispatch Activity Blotter
2 was marked as Kent Exhibit A for purposes of
3 identification.)

4 Q For the record, we've marked as Kent Deposition
5 Exhibit A the first page of what I think you indicated was 82
6 pages of a printout?

7 A Yeah. I believe it's listed down there on the
8 bottom how many pages there are. I think it was 82.

9 Q Right. Okay. For the record, the last page here is
10 Page 82 of 82. And these are the records you've just briefly
11 explained before we had that marked, correct?

12 A Yes.

13 Q And I think you were going to tell me or explain to
14 me -- I read into the record the title at the top of that
15 sheet. I think you were going to explain to us what that is
16 essentially?

17 A The reason this is marked Dispatch Activity Blotter,
18 as I felt that the best way to get a more accurate idea of
19 what's going on in Polk Township, with our records management
20 system, the deputies would be an enforcer side, and then the
21 dispatchers, their activity would actually include any type
22 of, potentially fire call or ambulance call that also goes
23 down in here that we would -- that we would transfer to a
24 different agency. We dispatch for eleven township fire
25 departments. We dispatch for another police department. We

1 dispatch for a city fire department, and we dispatch for the
2 Crawford County Joint Central Ambulance District. So for me
3 to just take the enforcer records, I don't think that would
4 be an accurate number of how many calls that we're
5 responsible for down in Polk Township. I think it would be
6 more accurate to use the dispatcher's responder activity.

7 Q Okay. And so that's what we have on Exhibit A. And
8 so if I understand it, this 82 pages, in addition to covering
9 whatever period of time that is, roughly a five-year period,
10 it's covering dispatches that occurred involving any of those
11 entities for which you dispatch?

12 A Yes.

13 Q And you have a number of those that include
14 volunteer fire departments; is that correct?

15 A Polk Township's actually covered by the City of
16 Galion, Galion Fire Department and their ambulance as well.
17 But we would -- we would receive 9-1-1 calls or calls for
18 ambulance, or we would have to transfer those calls to the
19 City of Bucyrus to get first responder help out there. I
20 believe the Joint Central Ambulance District is also a backup
21 for Polk Township. So if Galion fire and EMS would not be
22 available, we would dispatch Life Star to that township for
23 coverage.

24 Q One of the individuals we deposed, at this point now
25 probably ten days or two weeks ago, was Chief Jackson, who I

1 understand to be the chief of the fire and EMS departments in
2 the City of Galion.

3 A Yes.

4 Q And it would be my understanding that his department
5 would typically respond to matters outside of Galion proper
6 but in Polk Township, including this area of Polk Township
7 that would be down closest to where this crossing is located.

8 A Yes.

9 Q And I think they would be, if you know, and as you
10 understand in terms of fire and EMS, they would be the
11 primary responders to that area?

12 A Yes.

13 Q Any other responders in the fire EMS category that
14 would go to that area might be from that joint, what you
15 refer to as a joint --

16 A Any backup fire EMS would be requested by the City
17 of Galion when they got into Polk Township, or for one of
18 these addresses out there. If they weren't able to provide
19 coverage, they would request backup.

20 Q Okay. Calls that come in for fire, EMS in Polk
21 Township that result in sort of the normal situation where
22 the Galion fire or EMS squad goes out to Polk Township, are
23 they going to be reflected in Exhibit A?

24 A Not necessarily.

25 Q Okay.

1 A If the call would come into us and we transferred it
2 to Galion, there will be a record of it here in this report,
3 however, many of the residents in Polk Township know that
4 they have to contact Galion Fire Department, Galion EMS. So
5 it's possible and very probable that they would contact the
6 Galion Police Department who dispatches for them.

7 Q So we have through -- or from Chief Jackson in
8 response to a similar subpoena, records showing that he was
9 able to put together, showing runs that his department did to
10 this area. From what I understand you're saying, there may
11 be some overlap depending on how the call came in and the
12 dispatcher reported it, between what he has and what you
13 have, but his would be the more complete, mostly likely the
14 more complete record of fire, EMS responses to that Polk
15 Township?

16 A Fire and EMS, yes, he would be able to give a more
17 accurate number.

18 Q Now in terms of police activity in Polk Township,
19 other than the reservoir area that we talked about briefly
20 earlier, is there anywhere out in the vicinity of this
21 crossing where the Galion -- I take it there is a separate
22 Galion Police Department?

23 A Yes.

24 Q Is there anywhere out in Polk Township separate, you
25 know, outside the confines of Galion where they would be the

1 first responders?

2 A They respond only to areas within the city limits --

3 Q Okay.

4 A -- Polk Township.

5 Q Plus the reservoirs which are actually in Morrow
6 County --

7 A Yes.

8 Q -- correct?

9 A But still within the city limits of Galion.
10 Galion's located in Polk Township, but anywhere not
11 incorporated by the City of Galion is my area of
12 responsibility.

13 Q Is this map that you brought by any chance one we
14 could mark and include?

15 A Sure.

16 Q That would mean we would probably take it with us if
17 that's not a problem?

18 A Yeah.

19 MR. EVANS: Let's go ahead and mark
20 this Kent Exhibit B.

21 (Whereupon, a map of Crawford County,
22 Ohio was marked as Kent Exhibit B, for purposes
23 of identification.)

24 Q And, Sheriff, I've marked as Exhibit B, just for
25 identification, the map that you were kind enough to bring

1 with you of Crawford County. I should, I guess, note for the
2 record that the front page that we've marked is the map of
3 Crawford County. On the back I think there's some maps of
4 some of the --

5 A Cities.

6 Q -- cities within it, correct? And then your office
7 that we're at today and that you gave the address for I
8 believe as we started the deposition, is located over on the
9 outskirts of Bucyrus, correct?

10 A Yes.

11 Q And are we kind of on the eastern edge of Bucyrus
12 basically?

13 A Yeah. We're right in here (indicating) on the east
14 side of Bucyrus.

15 Q If you don't mind, just go ahead and put a circle
16 just generally to indicate so I can remember where you just
17 pointed to.

18 A (Witness complies.)

19 Q So for the record, you've put a circle on the map
20 indicating the general location of the sheriff's department's
21 headquarters?

22 A Yes.

23 Q The county or the township that is closest to where
24 this grade crossing is located, as you look at the map, would
25 be the bottom right corner where the township is in green,

1 and within sort of the center of there, there's a, I don't
2 know what that is, orange or yellow outline for the City of
3 Galion, correct? I guess it's orange.

4 A Yes.

5 Q If I understand what you were indicating in terms of
6 police response in Polk Township, if it's a matter that falls
7 in that orange area that is the City of Galion proper, that
8 would typically be a police response that would be handled by
9 the Galion Police Department?

10 A Yes and no. Galion would primarily cover the city
11 limits; however, I have jurisdiction within that city limits,
12 and we are in and out of Galion on a daily basis for process
13 service and for assisting Galion Police Department on calls.

14 Q Okay. And then the green area representing the
15 entire, more of the entirety of Polk Township, that would be
16 the area where your department would, in terms of police
17 response, would be the primary responder?

18 A Yes.

19 Q All right. And we can see on this map that there is
20 at the very bottom of the township and the bottom of the
21 county on the southeast corner, a line that's intended to
22 represent Crawford-Morrow Line Road, correct?

23 A Yes.

24 Q And you can also see towards the -- towards the
25 western portion of Polk Township a symbol that's to indicate

1 the tracks that come through at somewhat of an angle from
2 Morrow County crossing over the County Line Road and into
3 Polk Township, correct?

4 A Yes.

5 Q And I don't know to the extent to which this is to
6 scale, but you would agree that the intersection of those
7 railroad tracks and County Line Road is intended or is the
8 crossing in question that we're here to talk about today, as
9 you understand it?

10 A Yes.

11 Q All right. And then earlier in the deposition you
12 indicated that State Route 62, which runs generally
13 north/south through the majority of the county, is kind of
14 the rough dividing line as you assign your officers on a
15 given shift as to where they would typically do their work?

16 A Yes.

17 Q It looks like 62 actually ends at 19?

18 A State Route 19.

19 Q State Route 19. But if we -- in terms of that
20 dividing line, would I be correct in kind of just extending
21 an imaginary line down from 62 in terms of that
22 differentiation between the two areas?

23 A Yeah. The line between Whetstone Township and Polk
24 Township runs directly south from where State Route 62 ends
25 into State Route 19.

1 Q So that would kind of be the extender for that
2 division between the two officers, if it's two that you have
3 on duty at that time?

4 A Yes.

5 Q All right. And I notice -- I mean, as you look at
6 the county, sort of the eastern edge or the portion of it
7 that is east of 62 would appear to me to be a little bit
8 smaller, if you will, narrower than the western edge, west of
9 62. Is there any particular reason that's the divider, based
10 upon volume of calls or anything like that?

11 A Population.

12 Q Population. So it's greater population within your
13 county to the west of 62?

14 A No. It's --

15 Q Oh, greater to the east?

16 A No, it's divided pretty much equally. It's just
17 about equal population-wise if you use State Route 62 as your
18 dividing point.

19 Q Okay. So there's more people east of 62 in a
20 smaller area than there is west of 62?

21 A Well, you have the City of Galion and the Village of
22 Crestline, and that's the largest portion of population there
23 on the east side of the county. On the west side of the
24 county you have Bucyrus, which is the largest portion of the
25 population on the west side.

1 Q Gotch you. So in terms of Exhibit A that you've
2 explained what -- what it is, how it was created, I guess it
3 sounds like -- as I look at the front page of Exhibit A,
4 there is some yellow highlighting, correct?

5 A Yes.

6 Q And I think you've indicated that earlier today
7 before the deposition you went through, I guess, all 82 pages
8 of that, and as best you could based on familiarity with the
9 area and in particular the area of this crossing, you
10 highlighted properties or locations that, based on your
11 knowledge, would be roughly within a one-mile radius of this
12 crossing; is that right?

13 A It probably extends a little greater than a one-mile
14 radius, but it's in that general location of that crossing.

15 Q Okay. Unlike the fire department or EMS squad
16 which, I guess not universally but more often than not, when
17 they get a call as responding from a fixed point, you know,
18 their fire station or EMS station, when your officers get a
19 call to, in particular, Polk Township, they are responding
20 from wherever they are within the county at that point,
21 correct?

22 A That's correct.

23 Q Now, I assume the idea in dividing the territory
24 generally between officers that are on duty is that unless
25 the officer that is east of 62 is tied up with another matter

1 or perhaps is so far north in the county that he's actually
2 further away than the officer on the west would be, there's
3 obviously these permutations that are involved, but as a
4 general rule the idea is that the officer east of 62 keeping
5 him over there so he's closer and more able to quickly
6 respond, for example, to Polk Township if there is a call.
7 Does that make sense or accurate?

8 A Yes. 62 would divide their area of responsibility
9 for routine patrol, paper service, process service. However,
10 if I did have a deputy in the north part on the east of the
11 county and a deputy down in Whetstone Township, which
12 neighbors Polk, I would expect the deputy that's assigned to
13 the west side to go into Polk Township.

14 Q Unless, of course, by chance that particular deputy
15 is tied up with another matter in which case you may have to
16 have this officer respond?

17 A Then they would have to prioritize calls and handle
18 the most severe first.

19 Q In terms of responding to Polk Township, if the
20 officer is located east of 62 and is responding to somewhere
21 within Polk Township, it's fair to say that this particular
22 crossing is not likely to be part of the route, he would be
23 traveling to go from somewhere north of Galion down to Polk
24 Township in the environs of Galion?

25 A That's going to be one of those questions that I

1 can't answer accurately. Each deputy is going to know a
2 route that they prefer to get to the southern portion of the
3 county. One deputy may come down State Route 598 and go
4 right through Galion. Another deputy may decide that they're
5 going to avoid city traffic and go out on one of the outskirt
6 roads here on one of the township roads and respond south.
7 That would be up -- be up to each individual deputy. It also
8 depends on where they were patrolling in the county when the
9 call comes in.

10 Q There are in terms of east/west routes -- well,
11 first of all, if we assume hypothetically that this grade
12 crossing at Crawford-Morrow County Line Road were closed, if
13 someone was coming from the west or northwest down to that
14 area, you would agree that there are portions of the County
15 Line Road from west to east up to the crossing that they
16 would be able to access even if that crossing was closed,
17 correct?

18 A Yes.

19 Q And there are other roads that go east/west through
20 Polk Township into -- or in the vicinity of Galion, including
21 Monnett New Winchester Road and Galion New Winchester Road?

22 A I'm sorry.

23 Q Both those roads run east and west that would kind
24 of parallel the County Line Road a little bit north of the
25 county line?

1 A Yes.

2 Q And there really isn't any way, despite your efforts
3 which we appreciate, to look through Exhibit A and to
4 identify addresses? There's no records that tells you from
5 where the responding officer came from in order to respond to
6 that location?

7 A No.

8 Q Okay.

9 A And that's normally something that wouldn't be
10 documented in a report either.

11 Q Sure. And just so I understand, the records are --
12 all of the highlighting are those actual -- those aren't just
13 dispatches. Those are instances where your department
14 actually responded?

15 A This is a record of any call that we received in
16 this general area of this crossing (indicating). For
17 instance, on Page 1 of 82 there's a suspicious other call.
18 That could be a person walking down the roadway, that could
19 be a vehicle, whatever that person who called felt was
20 suspicious at the time. There's a non-injury accident
21 listed. There's a train crossing equipment malfunction
22 listed. There's assist, other assist. Other could be
23 assisting another agency, someone requesting us to go in the
24 township and/or the Polk Township and make contact with
25 someone for them, or it could be maybe a motorist with a flat

1 tire that we helped out. And then the bottom one that I had
2 highlighted here was non-injury, hit/skip crash.

3 Q So I guess just from your description, all of them
4 are situations that where someone is called in, not all of
5 them would necessarily rise to the level of an emergency
6 response. I guess I'm thinking of the flat tire. If you
7 assisted somebody with a flat tire, is that an emergency
8 response where somebody would respond?

9 A That would be -- it wouldn't be a priority call as
10 far as an emergency status, but if that deputy was not doing
11 anything else at that time, I would expect them to promptly
12 respond down there and handle the call.

13 Q Probably wouldn't -- it's not one of those
14 situations with lights flashing?

15 A No. When I say promptly, that would not be a
16 typical call where we would run lights and sirens.

17 Q And not to beat a dead horse here, but just to make
18 sure I understand. If it's highlighted, that would mean that
19 you had an officer that actually went to that location, or is
20 it possible that it's -- that the highlighting would involve
21 more situations than you had an officer actually responding?

22 A If it's highlighted it means that that call
23 surrounded the crossing --

24 Q Right.

25 A -- in that general area. Does it mean that

1 everyone -- a deputy responded? No. For instance, the train
2 crossing equipment malfunction, would a deputy respond to
3 that area? It's possible if he's not tied up in a call that
4 he would probably go down and assess the situation, but it's
5 also possible that the dispatcher just contacted the railroad
6 and said, hey, you got a gate that's down or a flasher that's
7 not working, or something -- something of that nature.

8 Q Because I don't want to create work unnecessarily,
9 but if you were asked to go through those 82 pages and put a
10 checkmark next to actual responses where you actually have an
11 officer going there, you may or may not, because it sounds
12 like there are going to be some where even looking at the
13 record you're not necessarily going to be able to do that?

14 A That's not going to happen today.

15 Q That's fine.

16 A That would be a very lengthy process. I would have
17 to pull up each individual call. Some of these you'll see
18 have several highlighted calls on a page. I'd have to look
19 up and see if there was an officer response. I can tell you
20 for the most part, or for the largest majority of the
21 highlighted calls here that there was an officer response to
22 them just because of the nature of the call, theft, burglary
23 well-being checked, dispute, domestic violence, those all
24 require an officer response.

25 Q Okay. That's all right. I just wanted to make sure

1 the record is clear and that I'm clear that while the
2 majority of them involve officer response to Polk Township,
3 and specifically this general area, it is possible that some
4 of the highlighted ones would not have involved -- some small
5 percentage probably of the highlighted items would not
6 involve an actual response?

7 A That's possible. We respond to ambulance calls as
8 well with the Galion City EMS. So anything highlighted here
9 we're gonna -- we're gonna more than likely be at that call,
10 just a small percentage there may not have an officer
11 response to it.

12 Q Okay. Since you referenced it, just because it's on
13 the record, the railroad equipment malfunction, can you tell
14 from that record what crossing that was?

15 A I can tell you it was on Biddle Road in Polk
16 Township, which would be north of the county line, north of
17 the Crawford County-Morrow County line.

18 Q And that grade crossing -- if you recall, does that
19 grade crossing has flashers and gates?

20 A I don't recall offhand.

21 Q Do you recall if the Route 309/61 crossing has
22 flashers and gates?

23 A Yes.

24 Q And you've been to this particular -- the crossing
25 on County Route 8 that's the subject of the petition for

1 closure, you've been there before in your professional
2 capacity?

3 A Yes.

4 Q Probably not since you were working as a deputy, or
5 have you been there as a sheriff, if you recall?

6 A I've traveled through that area as the sheriff.
7 However, if you asked me today if I remember if there's a
8 crossbucks and gates there, I'm going to tell you that
9 there's crossbucks there, however, I'm not going to be able
10 to tell you whether there's lights.

11 Q Do you have a mental -- aside from whether there's
12 flashers and gates, do you have a mental picture of driving
13 through that crossing?

14 A Yes.

15 Q And have you done that going from west to east and
16 east to west?

17 A Yes.

18 Q And do you recall that going from east to west that
19 as you approach that, and we can use aerial photos if we need
20 to, but as you're approaching that crossing from east to west
21 on the right side, there is a bit of a mound or a hill that
22 until you get closer to the crossing kind of separates your
23 view from the tracks; do you recall that?

24 A No.

25 Q Okay. Let me just show you what was marked so we

1 make sure we're talking about the same thing. But this was
2 marked as Duffner Exhibit 2.

3 A Okay.

4 Q It's obviously an aerial photograph. Are you able
5 to look at that and recognize that as being County Line Road
6 where it goes over the two sets of tracks at that location?

7 A Yes.

8 Q All right. And, of course, this is aerial and this
9 is a flat photograph, but the area I was talking about that
10 there's a bit of a rise in the ground I'm pointing to here
11 (indicating). Does anything about looking at that picture
12 refresh your memory in any way? If it doesn't, it doesn't.

13 A I do know that there is a mound of dirt here
14 (indicating). Not a mound, but a raised portion of ditch
15 line or right-of-way, however, I don't recall it blocking the
16 line of sight at this crossing.

17 Q And as you -- as we're going from west to east
18 you're coming in at a bit of an angle, but a train coming in
19 either direction, and depending on which direction you're
20 coming from, could be coming over the driver -- motor vehicle
21 driver's shoulder to some degree and making it harder to see
22 it coming from behind you in whichever direction you were
23 coming from; is that correct?

24 A I can't answer for other drivers. I can answer for
25 myself.

1 Q Yeah.

2 A I grew up on a roadway that has a crossing that went
3 across the tracks at an angle, and I was always used to
4 having to look over my shoulder before I crossed, so I
5 probably went through here a thousand times over the last 20
6 years, it's just --

7 Q Second nature to look?

8 A It's just second nature for me to look over my
9 shoulder because of the area I grew up in.

10 Q Okay. This crossing, the roadway does go through
11 this crossing at an angle, correct?

12 A Yes.

13 Q And I think you're indicating that from your
14 experience, as an experienced and safety-conscious driver,
15 that you feel you've been able to safely negotiate this
16 crossing on the times you've used it; is that correct?

17 A Yes.

18 Q There is -- I don't know if you recall this or can
19 tell from the photograph, but there is, I guess, what I would
20 represent as a wider gap between one set of tracks and the
21 other set of tracks than you see at some crossings. I'll
22 represent it's about 52, 53 feet between the two as opposed
23 to being more parallel side by side. Do you recall that?

24 A Yes. Uh-hum; yes.

25 Q And so would you agree that even though -- certainly

1 you have already indicated that you believe this crossing can
2 be crossed by a motor vehicle driver safely if they exercise
3 care, that this particular crossing as compared to, you know,
4 I guess what I would refer to as the 90-degree type crossing,
5 presents greater challenge to the driver to be sure they're
6 doing it safely?

7 A That's possible.

8 Q You've never -- your department, to your knowledge,
9 has never responded to any type of train/motor vehicle
10 accident at this crossing; is that correct?

11 A Not that I'm aware of.

12 Q And you personally in your 20 years or so with the
13 department don't recall ever responding to a train/motor
14 vehicle accident here?

15 A I don't recall. I don't recall responding to an
16 accident down there.

17 Q As you went through Exhibit A, I knew you
18 highlighted -- we can certainly go through it and count
19 things up, but you don't have a total in mind, do you, of the
20 number of locations that you highlighted, do you?

21 A No, I don't. I was actually in the process of
22 starting to count that when you folks come in, so I didn't
23 get through it.

24 Q And I do note, just as I have further flipped
25 through Exhibit A, that there is first yellow highlighting,

1 it changes to orange. I just assume that's a function of one
2 running out of ink, or is there any significance to orange
3 versus yellow?

4 A That was because I had a dispatcher helping me go
5 through these this morning.

6 Q So two people were doing it?

7 A Two people, yes.

8 Q Got it, okay. Given the fact that there -- that
9 your officers are responding from different locations and
10 responding to different locations within, in particular, Polk
11 Township, am I correct that you haven't done any -- you or
12 your department haven't done any particular studies or
13 attempted to determine the impact on response times under any
14 scenario if this particular crossing was closed?

15 A The problem is I can't accurately do a study for
16 that crossing primarily because, unlike a fire department or
17 an ambulance service, we don't just sit on station to wait
18 for the next call to come in. We're out patrolling the
19 county 24 hours a day. So it would be -- it would be hard
20 for me to know how that crossing is going to impact us,
21 because I don't know where that deputy is going to be within
22 the county when that call comes in for this area down here
23 (indicating). The records that are in Exhibit A will show
24 that there may be times where we go for a couple weeks where
25 we don't respond to a call down in this area of the county,

1 and then you'll turn right around and you'll have two or
2 three calls in the same day in that area of the county. It's
3 all dependent on how the calls come in and where that deputy
4 is located at the time.

5 Q Would you agree that in terms of closure of this
6 County Line Road crossing that the primary impact would be if
7 you happen to have an officer who was located in the
8 southernmost portion of your county, either east or west of
9 62, the dividing line, and was -- because of a call that came
10 in was trying to travel along the most southern portion of
11 your county to get either east of that grade crossing or west
12 of that grade crossing; in other words, if they're -- it's a
13 pretty convoluted question. If they're coming -- if the
14 officer is responding more from the north anywhere other than
15 down right along the county line itself on the southern
16 border of the county, the impact is going to be less if
17 they're responding more to the north than if they're right
18 down along the county line when the call comes in?

19 A I could see this crossing causing an impact even if
20 deputies were responding from the north. The reason I say
21 this is because we have an area that we cover on the south
22 side of Galion but it's east of 309. My personal preference
23 would be to avoid the city by coming in on a state route to
24 get to this (indicating) portion. My personal preference
25 would be to respond over here (indicating) and then come

1 south and across and avoid the city limits altogether where
2 you're going to have a lot more traffic slowing you down to
3 get there.

4 Q Just for the record, you were pointing to, is that
5 county road --

6 A I would use State Route 19 or State Route 100 as an
7 example, because, if I may, for the last 12 years prior to me
8 taking office I was a lieutenant so I was usually one of
9 those roving units that covered both sides of the county, and
10 I would respond sometimes using State Route 19 or State Route
11 100 to get to this (indicating) portion of the county. And
12 what I would do was avoid Galion completely and come across
13 the southern portion of the county. Now, a deputy that's
14 assigned to the east side, you know, depending on where
15 they're at at the time of the call, I could see them coming
16 down and coming across this (indicating) way to avoid Galion
17 altogether.

18 Q Coming in 19? Is that 19?

19 A Yes. This (indicating) would be a state route.

20 Q State Route 19 would take you into Galion, but then
21 there are direct shots down to that little nook and cranny
22 you're referencing just south of Galion, correct?

23 A That's correct. But as an emergency responder or a
24 first responder I would think about what direction or where I
25 wanted to be within the county, and you're always thinking of

1 traffic lights, increased traffic and that just coming
2 through Galion, I would choose a different route. I wouldn't
3 want to go through Galion unless I had to.

4 Q If an officer is at the eastern edges of the county,
5 there are routes that would take, potentially take that
6 officer south to that location, again similar theory,
7 avoiding Galion, but this time going down on the east side of
8 the county?

9 A Yes.

10 Q As a responding officer would you and would you
11 expect your officers that report to you -- you also talked
12 about traffic and traffic concerns. Do you also consider
13 railroad grade crossings and the potential for a crossing to
14 be blocked at a given moment with either, you know, a moving
15 or stationary train?

16 A Well, with a number of crossings located in Crawford
17 County it's hard for us to know when those crossings are
18 going to be blocked or when a train's coming through. I
19 mean, those lines are all actively working all the time. So
20 it's not uncommon for us to come across a crossing that
21 either has a train moving through that intersection or one
22 that's blocked.

23 Q And when that happens, obviously the call you're
24 responding to doesn't go away, that officer has to somehow --
25 well, he has to assess the situation, determine how quickly

1 that crossing's going to clear, I guess, but he would
2 potentially need to reassess his route and go a different
3 way?

4 A Depending on the severity of the call.

5 Q Yeah.

6 A If it was a call where I was going to change
7 someone's tire --

8 Q You would wait for a train if it was a moving train?

9 A I would probably sit there, and once the violation
10 occurred that that crossing was blocked too long --

11 Q Issue a citation?

12 A -- the company would get a citation on it.

13 Q Fair enough. If it was what seemed to be a true
14 emergency, though, you or you would expect an officer
15 reporting to you to probably re-route and go a different way
16 if it looked like that was going to be too large of a hangup?

17 A That's correct.

18 Q And I guess at the time it would be fair to say,
19 that if somebody in this matter ultimately decides that this
20 crossing, when I say somebody, I guess it would be the Public
21 Utilities Commission, ultimately decided that this crossing
22 was one that pursuant to Ohio Revised Code statute could and
23 should be closed, that you and your officers would obviously
24 become aware of that, one, it's closed, and would be able to
25 plan a route in advance knowing that it's closed, as opposed

1 to getting to a particular crossing and finding it to be
2 temporarily closed with a train?

3 A Yes. If that crossing is ultimately closed, the
4 deputies will have to preplan their route as they're
5 responding to the call. I mean, obviously that's nothing on
6 paper. That's all going on in the officer's head as he's
7 responding to the call.

8 Q But it's something you would envision if a grade
9 crossing is closed, if -- I assume when you've got major road
10 construction where they've got a detour and a crossing or an
11 intersection torn out or something, that's something that you
12 know and your officers would be aware of and would
13 communicate to each other so that as they're planning that
14 mental route they could take that into account?

15 A Yes.

16 MR. EVANS: Sheriff Kent, I don't
17 think I have any other questions for you. I
18 appreciate your time and assistance this morning.
19 You probably know this from other depositions, but
20 you have the right to review the transcript - and we
21 will be having it typed up in writing - just to make
22 sure everything is taken down accurately. You
23 can -- as the witness, you can waive that right if
24 you wish, or you can indicate you would like to
25 review it, and it's completely your call.

1 THE WITNESS: I would like to review
2 it.

3 (Deposition concluded at 11:00 a.m.)

3 CERTIFICATE OF NOTARY PUBLIC

4 I do hereby certify the witness, whose attached
5 testimony was taken in the above matter, was first duly
6 sworn to tell the truth. The testimony contained herein was
7 reduced to writing in the presence of the witness, by means
8 of stenography; afterwards transcribed; and is a true and
9 complete transcript of the testimony given. I further
10 certify that I am not connected by blood or marriage with
11 any of the parties, their attorneys or agents, and that I am
12 not interested directly, indirectly or financially in the
13 matter of controversy.

14 In witness whereof, I have hereunto set my hand
15 this day, October 21, 2014, at Willard, Ohio, County of
16 Huron, State of Ohio.
