

7/26/94

STAFF EXHIBIT NO. 4

Data Request No. 72.0
Case No. 93-487-TP-ATA
Topic:
Redundancy #3
Author: Ken Rogiers

Request 1: Provide a list of Central Offices (CO) that are served by remote switches where the communities served ~~do not have local emergency services~~ such as fire, police, etc., but, rely on the host switch community for its protection.

See attached.

Request 2: List only those remote COs from the above listing that are ~~fed by one main feeder cable~~ and not redundantly looped or ringed.

See attached.

quest 3: Provide any construction schedules or target dates that Ameritech ~~will build redundancy~~ or have alternate feeder cables/fiber for each of the COs ~~sted.~~

See attached.
