Exhibit C

Narrative Summarizing Change(s)

In this application, Nova Telephone Company requests BLES pricing flexibility in order that it may increase its BLES rates for residential customers in the Nova Telephone Company exchanges. The Nova Telephone Company has two exchanges: Nova exchange and Sullivan exchange in which a pricing increasing is requested for only the Nova Exchange, as summarized in Exhibit B, to individual access line rate.

In the FCC USF/ICC Transformation Order (FCC 11-161), the FCC states that they want to avoid situations where some customers are subsidizing the cost of service for those that pay local service rates that are significantly lower than the national urban average. The FCC will therefore limit high cost loop support where local end-user rates do not meet an urban rate floor. In order to continue to receive full high cost loop support, Nova Telephone Company is required to have local rates that are comparable to the national urban average.

Exhibit D

Customer Notice and Affidavit

The following customer notice will be provided to customers on March 1, 2015. This notice was also sent to the Office of Consumers' Counsel and to the Commission's electronic mailbox (Telecomm-Rule07@puc.stte.oh.us) no less than thirty days prior to the rate increase:

Effective April 1, 2015, Nova Telephone Company will implement a revised rate schedule for basic local exchange services as follows:

<u>Nova Exchange</u>	<u>Current Monthly Rate</u>	<u>New Monthly Rate</u>
Residence Primary Access Line	\$15.55	\$16.80

The new rate, which will become effective April 1, 2015, represent an increase of \$1.25 above the current rate for this service.

Many rural telephone companies, including Nova Telephone Company, receive support from the Federal Universal Service Fund. New rules such support if a telephone company's local rates are below the national average. The \$1.25 increase is necessary to bring out local rate more in line with the national average and to avoid a reduction in our Federal Universal Service Fund support.

If you have any questions about the revised rate, please call us at 419-652-3571.

Affidavit

I, Charles D. Mattingly, Jr., am an authorized agent of the applicant corporation, Nova Telephone Company, and am authorized to make this statement on its behalf. I attest that the customer notice accompanying this affidavit will be sent to the affected customers as a bill insert on March 1, 2015 in accordance with Rule 4901:1-6-07, Ohio Administrative Code. I declare under penalty of perjury that the foregoing is true and correct.

Exhibit E
Demonstration of Alternative Providers

Pursuant to R.C. 4927.12(C)(3)(a) and Ohio Administrative Code 4901:1-6-14, Nova Telephone Company may not increase its BLES rates for an exchange area unless it first applies to the Public Utilities Commission of Ohio and the Commission determines that the application demonstrates the two alternative providers offer, in the exchange area, competing service to the BLES service offered by the company, regardless of the technology and facilities used by the alternative provider, the alternative providers location and the extent of the alternative provider's service area within the exchange area. An alternative provider, under R.C. 4927.12(C)(3)(a), includes a wireless service provide.

The Commission has not previously determined that Nova Telephone Company's exchange qualified for alternative regulation of BLES.

In accordance with R.C. 4927.12(C)(3)(a), the attached information demonstrates that two alternative providers offer competing service to the BLES service offered by Nova Telephone Company in its exchange, namely Verizon Wireless and Armstrong.

These Coverage Locator depictions apply to the following calling plans:

Share Everything, Nationwide Calling Plans, Mobile Broadband and Prepaid.

* Across the 4G LTE network within the Coverage Area.

** Across the 4G LTE network within the Verizon Extended Coverage Area. Network conditions may cause your service to connect to 3G at times. Some of the Coverage Area includes networks run by other carriers. The coverage depicted is based on their information and public services, and we cannot ensure its accuracy.

Roaming charges apply in Canada Broadband and Canada Domestic Services areas.

These Coverage Locator maps depict predicted and approximate wireless coverage. The coverage areas shown do not guarantee service availability, and may include locations with limited or no coverage. Even within a coverage area, there are many factors, including customer's equipment, terrain, proximity to inside buildings, foliage, and weather that may impact service. Some of the Coverage Areas include networks run by other carriers. The coverage depicted is based on their information and public services, and we cannot ensure its accuracy.

Handset Banner Information

When your banner displays "Extended Network," or "Roaming," Included Features and Optional Services may not be available. Standard Text Message/Media Messaging rates apply when available. When your banner displays "Verizon Wireless," Optional Services, including Unlimited Text/Media/Messaging if purchased, are available.
