Subject: RE: 14-1280-EL-BSB: Gable Substation, Jefferson County

Ms. Avolio,

Thank you for contacting the Ohio Power Siting Board (OPSB). Your correspondence regarding the proposed Gable Substation Project will be docketed in the public comments for case number 14-1280-EL-BSB.

The adjudicatory hearing in this case will begin on Thursday, April 23 at the offices of the Public Utilities Commission of Ohio, 180 East Broad Street, Columbus. During the adjudicatory hearing, AEP Ohio Transmission Company and OPSB staff will have an opportunity to offer expert testimony supporting their positions before an administrative law judge. Later, once the adjudicatory process is complete, the Board will schedule the project for a decision during a public Board meeting.

The OPSB website at www.OPSB.ohio.gov provides the latest information regarding this and other power siting cases. Should you have additional questions or comments, please feel free to contact me directly at (866) 270-6772.

Respectfully,

Matt Butler

TO WHOM IT MAY CONCERN:

In reference to project 14-1280-EL-BSB: Gable Substation, Jefferson County

I am writing to plead for you to **not** use the preferred site on County Road 15 for the substation. The family on this property have been there for decades and have given their hard earned tax dollars and service to the county and to its community members. I have had some of my most fond memories on that property and feel it would be a travesty to see a substation put up to ruin some of the most gorgeous views in the county (and arguably of the tri-state area).

Please do not hesitate to contact me for further comments or testimony.

Best,
Allison Avolio
