COMMENTS: To Chairman Andre Porter and the Ohio Power Siting Board, It is not right that the OPSB has allowed the Greenwich Wind Park to go forward. It seems that the law required that all the 124 adjacent landowners were suppose to sign a waiver if we agreed with the minimum set backs. I for one did not sign any waiver and I strongly feel that this project should not be able to go forward. I truly believe that the wind turbines that are proposed for this area are too close to homes and properties.
I hope that you reconsider this certificate to Wind Lab.
