COMPANY\_NAME: OPSB/PUCO  
CASE\_NUMBER: 13-0990-EL-BGN

COMMENTS: I have resided at the stated address since Aug. of 1972. I have paid my taxes, obeyed township, county, and state laws. Now it seems OPSB has no regard for my rights or the rights of the other 123 adjacent property owners. Surely, OPSB must realize what these monster turbines will do to our property values, not to mention the ugly overwhelming site of these turbines day-in and day-out, in most cases for the rest of our lives. We will have to see the blades creating the STROBE-EFFECT of the sunlight. We will hear the noise of the turbines. Please remember: WE WERE HERE FIRST. We did not choose to move next to a wind farm. I would be willing to bet, no one on the board would like living by a wind farm. Has there been consideration of dangers of ice cast-off, or a turbine self destructing and causing a crop field fire. When the wind don't blow they don't make power, they consume it. I am asking the board to reconsider possible injustice to adjacent property owners. Sincerely, Leslie and Loretta Somsak
