

Case No. 15-0526-EL-REN
Weaver, Tom Residence 1- T Weaver
Staff Interrogatories - Initial Set

Question 1: It appears from the photographs given in Section G that the facility location for 15-0526-EL-REN and 15-0527-EL-REN are the same. Please explain or give an updated address for this facility.

Answer 1: The response from the installer is as follows regarding the above question of two facility with the same address:

While the 10 arrays appear to all be one system, the wiring of them is split in half and goes to two different facilities. The 5 orange circled arrays are wired into the grain elevator and red barn to the North of the site. The circled yellow ones are wired together and go to the owners home located to the south of the panels. They are all owned by the same person. The SREC Trade website wouldn't allow us to use the same address for both systems when applying.

Question 2: Please provide additional photographs or a diagram that clearly show all 120 modules for this facility.
