Rider UE-GEN is applicable to all retail jurisdictional customers, including those taking generation service from competitive retail electric service (CRES) providers, except for those customer accounts designated by CRES providers as not part of Duke Energy Ohio's Purchase of Accounts Receivable (PAR) Program.

2. Rider UE-GEN is bypassable with regard to dual-billed customer accounts and customer accounts designated by CRES providers as not part of the PAR program, but is non-bypassable by all other retail customers, including standard service offer customers and customers designated by CRES providers as part of PAR program.

3. The electric uncollectible rider, Rider UE-GEN, currently has a monthly charge of \$0.000184 per kWh for residential customers and (\$0.07) per bill for non-residential customers, which were approved in Case No. 14-953-EL-UEx in a Finding and Order dated September 25, 2014.²

4. Pursuant to the terms of the stipulation and the Opinion and Order, Duke Energy Ohio now applies to the Commission to establish a value to recover incremental expenses for Rider UE-GEN. The total unrecovered balance as of March 31, 2016, is projected to be approximately \$2,236,224 for residential and \$103,144 for non-residential rate classes (exclusive of any fees for a third-party audit that the Commission may determine is required). The Company proposes Rider UE-GEN monthly charges of \$0.000300 per kWh for residential customers and \$0.12 per bill for non-residential customers. The schedules supporting the adjustments are attached in the Direct Testimony of Theodore H. Czupik Jr. Attachment THC-1 provides the calculation of proposed rates for Rider UE-GEN.
