CASE\_NUMBER: 13-099-EL-BGN

COMMENTS: Please STOP the Wind Turbines in my back yard! Sleep is a biological necessity and sleep deprivation caused by an intermittent thumping sound accompanied by vibration and noise is a very serious adverse health effect! Our property value will go down a great deal. Our wildlife will suffer from wind turbines as well. We are also concerned about our school kids with the school being so close to the proposed location of the wind turbines. Think what could happen if in your back yard and a blade came flying your way (NOT GOOD). PLEASE STOP WIND TURBINES...

Thank you, Karen & Duane Edwards
