Re: Intrastate Carrier Access Reform
Case No. 10-2387-TP-COI

Dear Ms. McNeal:

As prescribed by the Federal Communications Commission's November 18, 2011 USF/ICC Transformation Order, FCC 11-161 (WC Docket No. 10-90) ("Order"), AT&T Ohio's switched terminating access rates are being reduced effective July 1, 2015. These reductions are being offset by recovery from the Access Recovery Charge ("ARC") and the Connect America Fund ("CAF").

The Order also requires carriers seeking to obtain recovery through the federal mechanisms established in that Order to make certain certifications to the FCC and to state commissions regarding their eligibility for, and their compliance with the rules applicable to, such recovery. Specifically, 47 C.F.R. §51.915(d)(3) requires Price Cap Carriers to certify annually to the FCC and to relevant state commissions that the carrier is not seeking duplicative recovery in the state jurisdiction for any Eligible Recovery subject to the federal recovery mechanisms.

In compliance with that requirement, AT&T Ohio submits the attached certification concerning its compliance with the FCC requirements. As a Price Cap Carrier, AT&T already has made the required certification to the FCC in a filing dated June 16, 2015.

Thank you for your courtesy and assistance in this matter. Please contact me if you have any questions.

Very truly yours,

/s/ Maryann Mackey
