Re:

In the Matter of the Annual Filing Requirements For 2015 Pertaining to the Provisioning of High Cost Universal Service Case No. 15-1115-TP-COI

In the Matter of the Annual Filing Requirements For 2015 Pertaining to the Provisioning of Lifeline Universal Service Case No. 15-1116-TP-COI

FCC Form 481 Filing of Bascom Mutual Telephone Company

Dear Ms. McNeal:

Enclosed are four (4) copies of the **redacted** FCC Form 481-Carrier Annual Reporting that was filed with the Federal Communications Commission, along with **redacted** Rate Floor Data for filing on the public record in the above matters on behalf of Bascom Mutual Telephone Company. Please time stamp the extra copies and return them to our courier.

Also enclosed are four (4) unredacted copies of the confidential information to be filed under seal pursuant to the Motion for Protective Order filed in these matters on June 30, 2015. Please time stamp the extra copies of the confidential information being filed under seal, and return them to our courier.

Thank you for your attention to this matter. Please contact me if you have any questions.

Very truly yours,

William A. Adams

Annual Progress Report Redacted in its Entirety

BASCOM MUTUAL TELEPHONE COMPANY

300589oh510.pdf

Line 510, Service Quality Standards and Consumer Protection Rules Compliance

Documentation of the company's compliance with certification requirements pursuant to 47 CFR §54.313(a)(5).

In addition to the rules and regulations contained in Title 47, Code of Federal Regulations, Bascom Mutual Telephone Company is subject to the following Service Quality Standards and Consumer Protection Rules of the Public Utilities Commission of Ohio:

Ohio Administrative Code

4901:1-6-09	Eligible Telecommunication Carrier certification (high cost and Lifeline).
4901:1-6-12	Service Requirements for BLES (Basic Local Exchange Service), including installation and
	repair intervals, deposits, payments and disconnection.
4901:1-6-13	Warm line service.
4901:1-6-14	BLES pricing parameters, including late payment charges and reconnection fees.
4901:1-6-15	Directory Information.
4901:1-6-16	Unfair or deceptive acts and practices.
4901:1-6-17	Truth in billing requirements.
4901:1-6-18	Slamming and preferred carrier freezes.
4901:1-6-19	Lifeline requirements.
4901:1-6-20	Discounts for persons with communications disabilities.
4901:1-6-27	Provider of last resort (POLR).
4901:1-6-30	Company records and complaint procedures.
4901:1-6-31	Emergency and outage operations.
4901:1-7-03	Toll presubscription.
4901:1-7-24	Local number portability (LNP).
4901:1-7-26	Competition safeguards (CPNI).

Ohio Revised Code

4927.06	Unfair or deceptive trade practices.
4927.08	Basic local exchange service standards.
4927.09	Access to 9-1-1 service.
4927.11	Access to basic local exchange service.
4927.12	Alteration of rates for basic local exchange service.
4927.13	Lifeline service for eligible residential customers.
4927.14	Adoption of rules for rates for persons with disabilities.
4927.15	Rates, terms and conditions for 9-1-1 and other services.
4927.17	Notice of rates, terms or conditions of service; contact information to be provided on
	bills and notices.
4927.21	Complaints against telephone company.

The company has established policies and procedures designed to protect consumers, including publishing customer rights, formal complaint procedures, and policies related to privacy, slamming and network management. These can be viewed on the company's web site at www.bascomtelephone.com.

The company observes strict compliance to all CPNI rules, including training for new employees, refresher training for current employees, maintaining written practices for handling CPNI and submitting annual certifications to regulatory agencies. The CPNI manual is available for inspection at the company business office. The company uses third party verification to prevent slamming and uses a contracted service order administrator to process LNP requests within the time constraints contained in the rules. Customer bifling is performed by a bifling vendor that maintains software that complies with all truth in bifling requirements, including the information that is required to be displayed on the customer bifl. The company maintains a CALEA manual and utilizes a third party vendor to make sure that all CALEA requests are processed in accordance with applicable laws and regulations. The CALEA manual and procedures are filed with the appropriate agencies and are also maintained at the company business office.

The company's Basic Local Exchange Service Tariff, PUCO No. 4, contains BLES pricing, 9-1-1, Lifeline and IntraLATA presubscription information, terms and conditions. The tariff is available at the company business office and in the tariff section of the PUCO website http://www.puco.ohio.gov.

Other sections of FCC Form 481 contain additional information regarding the following: Lifeline terms and conditions - Line 1210 Emergency operations - Line 610

BASCOM MUTUAL TELEPHONE COMPANY

300589oh610.pdf

Line 610, Functionality in Emergency Situations - Voice and Broadband

Documentation of the company's processes implemented to assure compliance with certification requirements pursuant to 47 CFR §54.313(a)(6) and §54.202(a)(2).

Bascom Mutual Telephone Company has an employee call-out procedure in place to mobilize its entire workforce in the event of an emergency situation. The notification process utilizes landline, cellular and internet technologies. In the event of total failure of all communications technologies, company practices include having employees report to the central office to obtain further instructions.

The central office and core network functionality is supported by 8 hours of battery reserve and a 60 kw natural gas generator set capable of running indefinitely for unlimited hours. Customer NID's containing active electronic equipment are supported by 8 hours of continuous talk time battery reserve. The company also maintains a number of portable generator sets that can be deployed in the event they are needed.

The facility network is designed as a diverse-routed fiber optic ring, capable of instantaneously switching traffic around damaged facilities. Employees are trained in fiber optic splicing and the necessary equipment is maintained on-site for rapid deployment and restoration. Separate facilities support the PSTN and broadband network connections to other carriers. In the event that all PSTN facilities are damaged, the switch is capable of both TDM and IP formats, providing the ability to reroute PSTN traffic via dedicated IP facilities to other carriers.

The network is capable of managing traffic spikes caused by emergency situations. This is accomplished by maintaining properly sized trunk groups to the PSTN and by providing substantial broadband backbone bandwidth capable of carrying overflow voice traffic in addition to data traffic.

The capabilities and procedures listed above apply to the Company's voice and broadband networks since many functions are intertwined. For example, the fixed, central office generator set provides power to both the voice switching and circuit equipment as well as the DSLAMs, routers, optical terminals and other broadband equipment. The same is true for the portable generator sets provide emergency power to the voice and broadband equipment located in the field network nodes. Personnel call-out and response is identical for situations that interrupt the voice as well as broadband network.

Line 1010, Voice Services Rate Comparability

Bascom Mutual Telephone Company certifies that its residential voice service rates are less than two standard deviations above the national average urban rate for voice service, as specified in the most recent public notice issued by the Wireline Competition Bureau (DA 15-470). The current voice service rate is \$11.00, which is below the national average urban rate floor of \$21.22. As such, it is well below two standard deviations above the national average urban rate (the reasonable comparability benchmark rate of \$47.48).

Kathy Keylart
Kathy Reinhart, Assistant Treasurer

BASCOM MUTUAL TELEPHONE COMPANY

300589oh1210.pdf

Line 1210, Terms & Conditions of Voice Telephony Lifeline Plans

Bascom Mutual Telephone Co. (SAC 300589) has established terms and conditions for Lifeline customers that incorporate the federal and state requirements as documented in its Basic Local Exchange Service Tariff PUCO No. 4 Section 5, First Revised Sheet No. 1.

The Company shall provide Lifeline service as defined in 47 C.F.R. § 54.401 (a) on a non-discriminatory basis to all qualifying low-income customers. The Company's Lifeline service offering shall comply with all applicable federal and state laws, including, but not limited to, 47 C.F.R. Part 54, Subpart E; the FCC's Lifeline reform order (Report and Order released February 6, 2012, WC Docket No, 11-42, et. al) and any subsequent clarifying orders; Section 4927.13, Revised Code; Rule 4901:1-6-19, Ohio Administrative Code; and, the Commission's nontraditional Lifeline service order (Finding and Order adapted May 23, 2012, Case No. 10-2377-TP-COI) and any subsequent entries and/or orders.

In 2014, the company began participating in the National Lifeline Availability Database (NLAD). This database is designed to help the company identify and resolve duplicate claims for Lifeline Program-supported service and to prevent future duplicates. All applications for Lifeline service are verified using NLAD in order to prevent duplicate service from being established.

The Lifeline discount applies to Basic Local Exchange Service (BLES) as defined by Ohio Revised Code 4927.01(A)(1). For residence customers, BLES consists of local dial tone service, flat-rate telephone exchange service, touch-tone dialing service, access to and usage of 9-1-1 services, provision of a telephone directory at no charge, listing in that directory, per call caller identification blocking services, access to telecommunications relay service and access to toll presubscription, interexchange or toll providers or both, and networks of other telephone companies. The company also provides an optional toll denial feature at no additional charge. The current rate for residential BLES is \$11.00 per month.

The company applies the Lifeline support amount as follows: first, to waive the End User Common Line EUCL) Charge of \$6.50 and second, to discount the residential BLES charge with the remaining balance of the support amount, in compliance with 47 CFR §54.403(b).

Residential BLES customers may also add optional service features and subscribe to a variety of long distance calling plans offered by the company. No discount is applied to these services because the entire Lifeline support amount is exhausted after applying it to the EUCL and BLES charges.

Line 3010, Progress Report on 5 Year Plan - Milestone Certification

Pursuant to 47 CFR §54.313(f)(1)(i), Bascom Mutual Telephone Company (SAC 300589) certifies that it is able to provide broadband service at actual speeds of at least 4 Mbps downstream/1 Mbps upstream to all customers within its study area, with latency suitable for real-time applications, including Voice over Internet Protocol, and usage capacity that is reasonably comparable to reasonably comparable offerings in urban areas, and that requests for such service are met within a reasonable amount of time.

In support of this certification, the Company's broadband network is 100% fiber-to-the-premise and is capable of speeds in excess of 100 Mbps. Requests for service are typically fulfilled within one to two business days, oftentimes on the same day as the request. Broadband maximum speed offerings are currently 50 Mbps downstream/15 Mbps upstream for residential customers and 50 Mbps downstream/50 Mbps upstream for business customers. The company provides unlimited usage with all of its broadband offerings.

Kathy Reinhart, Assistant Treasurer
