Motion for protective order included with filing? ☐ Yes ☒ No

Motion for waiver(s) filed affecting this case? ☐ Yes ☒ No [Note: Waivers may toll any automatic timeframe.]

Notes:

Section I and II are Pursuant to Chapter 4901:1-6 OAC.

Section III – Carrier to Carrier is Pursuant to 4901:1-7 OAC, and Wireless is Pursuant to 4901:1-6-24 OAC.

Section IV – Attestation.

(1) Indicate the Carrier Type and the reason for submitting this form by checking the boxes below.

(2) For requirements for various applications, see the identified section of Ohio Administrative Code Section 4901 and/or the supplemental application form noted.

(3) Information regarding the number of copies required by the Commission may be obtained from the Commission's web site at www.puco.ohio.gov under the docketing information system section, by calling the docketing division at 614-466-4095, or by visiting the docketing division at the offices of the Commission.

(4) An Incumbent Local Exchange Carrier (ILEC) offering basic local exchange service (BLES) outside its traditional service area should choose CLEC designation when proposing to offer BLES outside its traditional service area or when proposing to make changes to that service.

All Filings that result in a change to one or more tariff pages require, at a minimum, the following exhibits.

Exhibit	Description:
A	The tariff pages subject to the proposed change(s) as they exist before the change(s)
B	The Tariff pages subject to the proposed change(s), reflecting the change, with the change(s) marked in the right margin.
C	A short description of the nature of the change(s), the intent of the change(s), and the customers affected.
D	A copy of the notice provided to customers, along with an affidavit that the notice was provided according to the applicable rule(s).

AFFIDAVIT
Compliance with Commission Rules

I am an officer/agent of the applicant corporation, _____, and am authorized to make this statement on its behalf.

(Name)

Please Check ALL that apply:

☐ I attest that these tariffs comply with all applicable rules for the state of Ohio. I understand that tariff notification filings do not imply Commission approval and that the Commission's rules as modified and clarified from time to time, supersede any contradictory provisions in our tariff. We will fully comply with the rules of the state of Ohio and understand that noncompliance can result in various penalties, including the suspension of our certificate to operate within the state of Ohio.

☐ I attest that customer notices accompanying this filing form were sent to affected customers, as specified in Section II, in accordance with Rule 4901:1-6-7, Ohio Administrative Code.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on (Date) _____ at (Location) _____

*(Signature and Title) _____ (Date) _____

- *This affidavit is required for every tariff-affecting filing. It may be signed by counsel or an officer of the applicant, or an authorized agent of the applicant.*

VERIFICATION

I, Stephen M. Howard verify that I have utilized the Telecommunications Filing Form for most proceedings provided by the Commission and that all of the information submitted here, and all additional information submitted in connection with this case, is true and correct to the best of my knowledge.

*(Signature and Title) Stephen M. Howard, Counsel (Date) July 21, 2015

EXHIBIT A

EXISTING TARIFF

The existing tariff of Time Warner Cable Information Services (Ohio), LLC ("TWCIS") will remain in effect until further notice. The existing tariff sheets may be found in TRF Docket No. 90-9278-TP-TRF. Time Warner Cable Business LLC has no existing tariffs on file with the Commission.

EXHIBIT B

PROPOSED REVISED TARIFF

There are no proposed revised tariff sheets as the existing tariff sheets of TWCIS will remain in effect until further notice.

EXHIBIT C

DESCRIPTION OF THE PARTIES

A. Time Warner Cable Inc. (“TWC”) and the TWC Subsidiaries

TWC is a publicly traded corporation organized under the laws of the State of Delaware, with its headquarters located at 60 Columbus Circle, New York, New York 10023. TWC delivers high-quality video, broadband, and voice services, reaching over 15 million residential and business customers across 30 states, including Ohio. TWC offers its business, commercial and enterprise services under its Time Warner Cable Business Class brand.

Although not the subject of the present Application, TWC is an industry leader in high-speed broadband, reaching approximately 11.7 million residential customers across the country, and TWC also provides advanced cable services to approximately 10.8 million residential video customers, making it the fourth-largest MVPD in the United States, behind Comcast, DirecTV, and Dish Network. TWC provides Home Phone, an interconnected VoIP service, to approximately 5.3 million residential customers throughout its footprint.

TWC was the first multi-system operator to introduce a mass-market, facilities-based VoIP service. Home Phone service features and options include call forwarding, call waiting, caller-ID, outbound caller-ID blocking, enhanced 911 and unlimited local and long-distance calling throughout the United States and to Canada, Mexico, China, Hong Kong, India, and the U.S. territories. Home Phone customers may also access a secure web portal (“VoiceZone”), through which they may activate caller ID, set up unwanted call blocking, customize other Home Phone service features and access their voicemail.

The TWC Subsidiaries are wholly owned subsidiaries of TWC and limited liability companies organized under the laws of the State of Delaware. Their principal offices are located at 60 Columbus Circle, New York, New York 10023. By means of a Certificate of Public Convenience and Necessity, Certificate No. 90-9278, issued in Commission Case No. 05-837-TP-ACE on August 1, 2005, TWCIS is authorized to provide local exchange and interexchange services in Ohio. By means of a Certificate of Public Convenience and Necessity, Certificate No. 90-6412, issued in Commission Case No. 13-1217-TP-ACE on July 19, 2013, TWCB is authorized to provide interexchange services throughout the state.

TWCIS does not itself provide direct end-user voice services in Ohio. Rather, TWCIS provides wholesale telecommunications services, including switched access service and local interconnection service to retail VoIP providers, including TWCIS's own non-regulated affiliate that provides retail VoIP service, TWC Digital Phone LLC d/b/a Time Warner Cable. TWCB offers to business and commercial customers a variety of products and services, including high-capacity transmission services such as Metro Ethernet and cell tower backhaul services and facilities used by wireless providers. TWC, through other subsidiaries, offers a broad range of other communications and information technology solutions, including broadband Internet access, voice solutions, and through its NaviSite operations, managed hosting and cloud computing services. TWC offers these services in competition with Incumbent Local Exchange Carriers ("ILECs") and other service providers. TWC offers these services using its own facilities and, where necessary, third-party facilities. TWC's customers range in size and variety from individual consumers and small businesses with a single location to medium-sized and enterprise businesses with multiple locations, as well as government, education, and non-profit institutions.

B. Charter Communications, Inc.

Charter is a leading communications company that provides broadband Internet, video, voice, and business services.¹ Charter markets its services under the Spectrum brand. As a result of extensive investment and a commitment to providing the best services, Charter now serves over 5.8 million residential customers and has 386,000 commercial relationships. Domiciled in Delaware and headquartered in Stamford, Connecticut, Charter operates in 28 states and employs over 23,500 people.

Charter provides voice service to over 2.4 million residential customers via Voice over Internet Protocol (“VoIP”) technology. Charter’s voice services include unlimited long distance calling in the United States, and Canada, Puerto Rico, the U.S. Virgin Islands, and Guam. Calling features include voicemail, call waiting, caller-ID, call forwarding, and more, at no additional charge. In addition, the E911 feature automatically provides the emergency service operator with a caller’s phone number and location. For customers with video service, caller ID on TV is available in most areas at no additional charge. Indeed, Charter does not offer plans with separate, additional fees common in the industry, such as a federal Universal Service Fund (“USF”) fee, state USF fee, subscriber line fee, or E911 fee.²

¹ Certain of the subjects and benefits discussed in this filing pertain to non-jurisdictional products and services. While those items are included herein in order to provide a comprehensive view of the public interest benefits of the proposed Transaction, Charter respectfully reserves all rights relating to the inclusion of or reference to such information, including without limitation Charter’s legal and equitable rights relating to jurisdiction, filing, disclosure, relevancy, due process, review, and appeal. The inclusion of or reference to non-jurisdictional information may not be construed as a waiver of any rights or objections otherwise available to Charter in this or any other proceeding, and may not be deemed an admission of relevancy, materiality, or admissibility generally or with specific regard to the Commission’s actual public interest standard under applicable law.

² Charter remits these fees to the appropriate regulatory agencies where required and in accordance with law, but does not generally add them on top of the monthly rate that consumers pay for Charter’s voice service.

Currently the seventh-largest multichannel video programming distributor (“MVPD”) in the United States, Charter serves 4.2 million residential Charter TV video customers over its all-digital network to the vast majority of its service area. It has recently unveiled “Worldbox”—an innovative set-top box that uses a downloadable security solution. Moreover, Charter is currently deploying its “Spectrum Guide”—a cloud-based user interface that enhances the consumer video service and can be accessed through both Worldbox and legacy two-way set-top boxes. Charter’s TV “app” offers over 150 live, linear channels, video on demand (“VOD”) and the ability to download VOD content for future playback. All these innovations will enable New Charter to improve the customer experience.

Although not the subject of the instant Application, Charter is committed to developing and deploying innovative broadband technology. Charter’s broadband Internet services deliver an industry-leading minimum of 60+ Mbps to the vast majority of its 4.8 million residential broadband customers. The company continually invests in improving its network and services. Charter was also recognized in 2014 as the nation’s fastest WiFi provider. Its broadband services are also provided under customer-friendly terms. Charter offers its base 60 Mbps service at lower prices than other providers, and does not impose data caps or engage in usage-based billing. Charter has invested in broadband interconnection, and has not been involved in any notable disputes over traffic management. It maintains a focus on ensuring the broadband user experience is a positive one.

EXHIBIT D

DESCRIPTION OF AND RATIONALE FOR THE INVOLVED TRANSACTION, INCLUDING PUBLIC INTEREST CONSIDERATION

Pursuant to the Ohio Administrative Code § 4901:1-6-29, Charter Communications, Inc. (“Charter”) and Time Warner Cable Inc. (“TWC”), on behalf of its subsidiaries Time Warner Cable Information Services (Ohio), LLC (“TWCIS”), and Time Warner Cable Business LLC (“TWCB,” and together with TWCIS, the “TWC Subsidiaries,” and, collectively, with TWC and Charter, the “Applicants”), respectfully request the approval of the Public Utilities Commission of Ohio (the “Commission”) for a transaction involving the transfer of control of the TWC Subsidiaries as described herein.

Charter, TWC, and a third entity, Bright House Networks, LLC (“BHN”), a subsidiary of Advance/Newhouse Partnership (“A/N”) that has no presence or operations in Ohio and is not a party to this Application, will combine to form “New Charter,” creating an advanced, growth-oriented broadband and cable company poised to better serve customers with competitive, high-quality communications services (the “Transaction”).

The Transaction should be approved because substantial public interest benefits will flow to Ohio customers, with no adverse impacts on competition. Specifically, the Transaction will enable the Applicants to enhance the competitive market for voice service in Ohio; deliver superior services at just and reasonable rates; and ensure that New Charter’s services are at the cutting edge of innovation. The company will achieve these results, while growing the business and at the same time, promoting good corporate governance that inures to the benefit of both customers and employees in Ohio.

A. The Transaction Will Improve Competition and Service for Voice Service in Ohio

The Transaction will promote the deployment of advanced voice services and enhance competition in the voice marketplace. Approval of the Transaction will provide voice service customers in Ohio with a more robust competitor, leading to better service and value.³ The increased scale of the merged company will enable it to more effectively make significant fixed-cost investments by spreading those investments over a larger customer base. This scale will also better enable the merged company to invest in and attract a top-tier research and development team, to build facilities for state-of-the-art technological testing and experimentation, and to play an important role in developing proposed standards for standard-setting bodies. Each of these benefits of increased scale will enable New Charter to serve customers with its own technological innovations, as opposed to relying on purchasing whatever the largest players in the industry develop.

Charter, TWC, and BHN are recognized as premier voice service experts with advanced systems. The Transaction will allow the companies to integrate the best features of their respective voice offerings, resulting in improved service for residential and business customers. By combining these companies' voice expertise and advanced services, New Charter will be able to offer the best service and products available, with significant synergistic advantages that will ensure New Charter continues to develop the best new technology well into the future.

Furthermore, while there are strong indications that the Transaction will enhance competition in Ohio, there is no countervailing adverse impact to competition in the State

³ For example, the FCC typically considers cable VoIP providers and ILECs to operate in the same voice telephony market segment. *See, e.g., Applications Filed for Transfer of Control of Insight Commc'ns Co. to Time Warner Cable Inc.*, Memorandum Opinion and Order, 27 FCC Rcd 497, 504-05 ¶ 17 (2012).

either. Charter, TWC and BHN do not compete directly with one another in Ohio. Indeed, Charter and BHN currently have no presence in Ohio. Accordingly, post-Transaction, residential and business customers will continue to have numerous competitive alternatives for telephone service and high-capacity business services. Residential voice competitors include traditional providers of phone service such as ILECs and Competitive Local Exchange Carriers (“CLECs”), providers of fixed and nomadic VoIP services (including Vonage and others), and wireless providers. Other providers of high-capacity business services include the ILECs as well as large CLECs. New Charter will offer Ohio customers a high-quality and efficiently priced alternative committed to technical innovation and premiere service.

B. The Transaction Will Promote Good Corporate Citizenship To the Benefit of Employees and Customers

Following completion of the Transaction, New Charter will preserve and expand programs by Charter, TWC, and BHN that establish their strong corporate citizenship. For instance, Charter currently has a national philanthropic initiative known as Charter our Community, through which it helps promote critical home repairs, accessibility modifications, and energy-efficient upgrades in low-income communities.

Similarly, New Charter will retain and expand TWC’s and BHN’s community-friendly corporate practices, such as TWC’s diversity and inclusion initiatives in hiring and purchasing, and BHN’s broadband program for low-income residential customers.

In addition, the merged company will be committed to increasing its customer care capacity, and will do so through investment and in-sourced jobs in the United States. New Charter will bring overseas TWC jobs back to the United States and hire and train thousands of new employees for its customer service call centers and field technician operations. New Charter will bring many if not most of these jobs in-house, where it will provide significant

training, benefits, and opportunities for advancement, adding to the skill level and economic fabric of local communities, while developing its own high-skilled, well-paid workforce devoted to delivering improved customer service in Ohio and across the country.⁴

C. The Transaction Will Be Seamless to Customers

This Transaction will be seamless to the customers of the TWC Subsidiaries. This Application does not request authority for the transfer of customers or the assignment or discontinuance of any certificate. Given that the TWC Subsidiaries will continue to be providers in Ohio, the Transaction will not adversely affect the operation of any certificated carrier in Ohio. After closing the Transaction, if New Charter wishes to make additional changes that require further notice or regulatory approval, New Charter, through its regulated affiliates, will follow applicable Ohio filing and notice requirements associated with such changes.

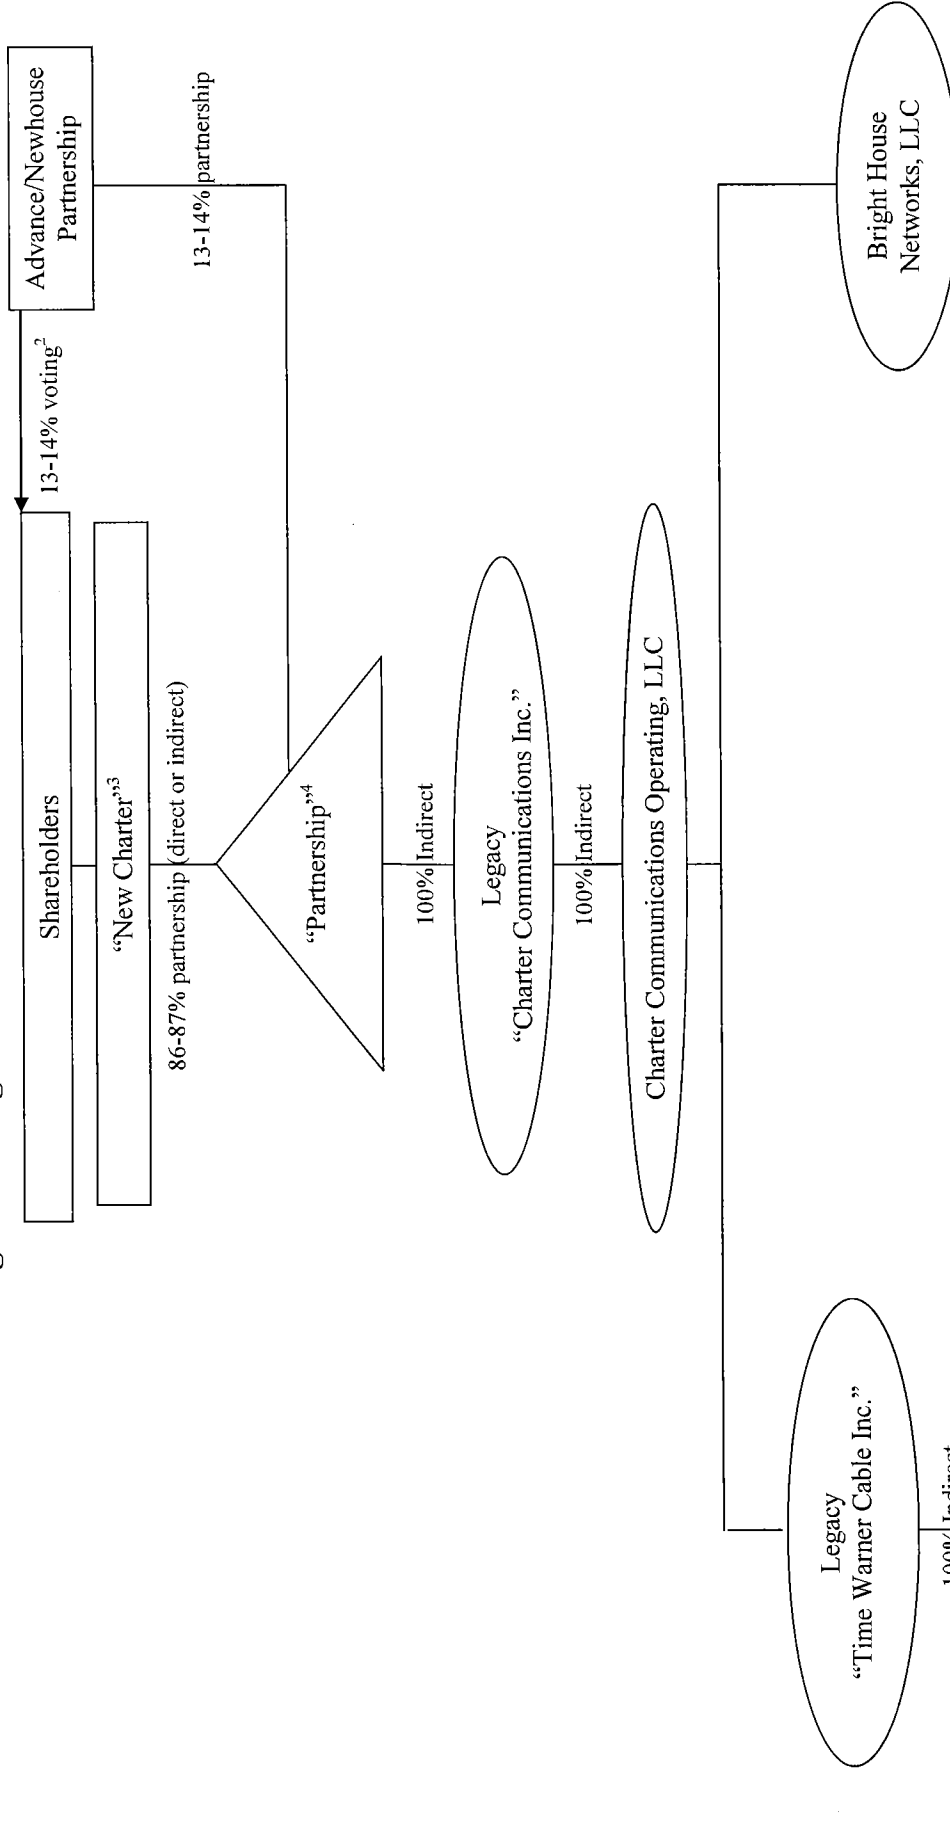

⁴ Charter has not yet begun transition efforts, and is therefore not yet able to provide a description of the transaction's specific impact on Ohio TWC Subsidiaries' employees. Nevertheless, Charter has experienced considerable job growth since 2012, hiring 7,000 new employees across its service area. New Charter expects to continue to grow its business after the Transaction.

Diagram of Organization Structure Prior to Transactions¹

Key
 1 All ownership 100% direct unless otherwise noted.

Diagram of Organization Structure Following Transactions¹

Key

- 1 All ownership 100% direct unless otherwise noted.
- 2 Advance/Newhouse Partnership will have 13-14% voting in New Charter via 1 share of Class B common stock corresponding to its economic partnership interests
- 3 Formerly CCHI, LLC
- 4 Formerly Charter Communications Holdings, LLC
