*Re: In the Matter of the Applications of Ohio Edison Company, The Cleveland Electric Illuminating Company, and The Toledo Edison Company to change Their Pole Attachment Tariffs*  
Case No.15-975-EL-ATA

Dear Ms. McNeal:

Ohio Edison Company, The Cleveland Electric Illuminating Company, and The Toledo Edison Company (collectively "Companies") submitted their Applications to amend their pole attachment tariffs in this docket on May 15, 2015, pursuant to the Commission's directives in Case No. 13-579-AU-ORD. The Companies hereby supplement their Application in this case with the following statement as to why a conduit occupancy rate was not included.

No other utility or provider currently occupies any of the Companies' conduit space. Further, there are no pending requests at this time and a review of the Companies' records indicates the Companies have not denied any historical requests to date. In addition, the information needed to calculate the conduit occupancy rate is not readily available and it would take the expenditure of considerable time and resources in order to develop such a rate. In light of those facts, the Companies have not attempted to calculate a conduit occupancy rate. Should the need arise in the future, however, the Companies will pursue resolution of any such issue presented at that time.

Please advise if additional information is needed from the Companies. Thank you for your attention to this matter.

Respectfully Submitted,

//s/James W. Burk
