Subject: No bailouts for coal

Sep 1, 2015

PUCO Commissioners

Dear Commissioners,

I do not support Ohio's electric utilities' attempt to bail out their old coal plants on my dime. These plants are not competitive with today's market prices for electricity, and they spew toxic pollution into our air and water.

Coal, which generates nearly 70 percent of electricity in Ohio, is known to cause major air pollution and negatively impact public health while contributing to climate disruption. Due to Ohio's heavy reliance on coal, we have some of the worst air in the nation.

Ohio's utilities' request to bail out coal plants that are no longer economically feasible is bad public policy that, in addition to costing Ohio electric customers more, will prevent Ohio from reducing dangerous emissions of carbon, soot, smog and mercury pollution.

Sincerely,

Kathleen Boyle

**Subject:** No support for dirty power plants

Dear Chair Public Utilities Commission Ohio Andre Porter,

WE must realize global warming is real and caused, in part, by coal burning power plants.

I support modernization and improvement of Davis-Besse, but not dirty coal burning plants.

Brad Cotton  
Circleville, Ohio

Sincerely,

Brad Cotton

Re: Christopher Dillon

, 00000

Docketing Case No.: 14-1297-EL-SSO

Notes:

Dear Public Utilities Commission of Ohio Andre Porter, I am writing to express my disapproval of the proposed First Energy rate hike which I believe would not be in the best interest of Ohio consumers. We must actively move away from aging, dirty sources of power and the draining expenses they create, not just on Ohians finances, but on our environment as well. Investments in clean, renewable, energy will create jobs for the future. Thank you. Sincerely, Christopher Dillon
