**Re: NTE Ohio, LLC, OPSB Case No. 14-534-EL-BGN**

Dear Ms. McNeal:

The November 24, 2014, Opinion, Order, and Certificate ("Certificate") approving NTE Ohio, LLC ("NTE") Certificate of Environmental Compatibility and Public Need to Construct the Middletown Energy Center established a set of conditions as part of the Certificate. In addition to the conditions, the Ohio Power Siting Board ("Board") directed NTE to meet various requirements prior to construction.

The Board noted on page 11 of the Certificate that some fill of wetland 2 would be necessary for the construction of the southern access road, and directed NTE to work with the U.S. Army Corps of Engineers to assure that the proper permitting is obtained.

This letter is a clarification of the letter filed yesterday, September 9, 2015, to state that no permits were required from the U.S. Army Corps of Engineers because no fill is required in jurisdictional wetlands. Thus, NTE is in compliance with this directive.

If you have any questions please call at the number listed above.

Sincerely,

Sally W. Bloomfield
