**Re: NTE Ohio, LLC, OPSB Case No. 14-534-EL-BGN**

Dear Ms. McNeal:

The November 24, 2014, Opinion, Order, and Certificate ("Certificate") approving NTE Ohio, LLC ("NTE") Certificate of Environmental Compatibility and Public Need to Construct the Middletown Energy Center established a set of conditions as part of the Certificate.

Within this set of conditions, Condition No. 1 stated:

**The facility shall be installed at the Applicant's site as presented in the application, and as modified and/or clarified by the Applicant's supplemental filings and further clarified by recommendations in the Staff Report.**

In compliance with Condition No. 1 and the recommendation set forth on page 18 of the Staff Report that NTE use mitigation measures to achieve the level of operational noise impact as presented in its application, NTE confirms that the project will be designed with mitigation resulting in operational noise impacts of 4 dBA or less at each of the five short-term monitoring locations identified in the application (representing the closest residential area).

Thus we believe that NTE is in compliance with the recommendation set forth on page 18 of the Staff Report. If you have any questions please call at the number listed above.

Sincerely,

Sally W. Bloomfield
