Dear Public Commission of Ohio,

I am writing in reference to First Energy case #14-1297-EL-SSO. I urge you to deny the rate increase to lock consumers into buying power from Ohio's dirtiest coal plants. My family and I care about reducing toxic pollution and saving money on our electric bills. I care about this issue because a bailout of old, polluting technology only benefits utility shareholders and delays the inevitable investment in efficiency and renewable energy.

Sincerely,

Janet Behringer-Smith
