Members of the Commission,

Please deny the rate increase that locks consumers into buying power from Ohio's oldest, dirtiest coal plants. My family and I care about reducing pollution and saving money on our electric bills.

A bailout of old polluting technology only benefits utility shareholders and delays inevitable investment in efficient and renewable energy.

Thank you for your consideration to this matter on case number 14-1297-EL-SSO for FirstEnergy.

Sincerely,

C.R. and Lois Adrian-Concerned taxpayers
