COMMENT DESCRIPTION:

I am writing to let you know that I stand with Ohio Citizen Action in their fight for energy standards, case number 14-1297-el-sso. I support renewable energy and would love to see our state do the same. The coal plants are dirty and outdated. We have numerous options of renewable energy to choose from and I believe the citizens would support the renewable energy choices. Rather than putting our money towards upkeep and repair of the outdated coal plants, I would like to see Ohio using our money for solar, wind, or water energy. Thank you!
