To the PUCO —

Please stop the bail
out of First Energy and
rate increases related to
any coal derived energy.
We need to look to the
future and seek renewable
energy.

PUCO

I have been a long time supporter of the work of the Ohio Citizen Action committee. I appreciate that they work hard to keep us aware of legislation that affects the environment.

We care about reducing pollution and reducing our use of coal.

Please deny the rate increase to lock consumers into buying power from Ohio's dirtiest coal plants.

Sincerely, Mary Sickbert
Cleveland Heights OH

A handwritten signature in black ink, appearing to read "Mary Sickbert", with a long horizontal flourish extending to the right.

FILE

Dear Public Utilities Commission of Ohio,

We are writing in regards to case number 14-1297-EL-SSO. We are very concerned about the quality of air in Ohio. We are planning on starting a family soon, and we want to grow our family in the best possible environment. Please prevent energy companies from raising the costs of energy for consumers simply to offset their own expenses and line their own pockets. We are in a single income household, and times are already difficult. We do not need to be burdened with this extra cost. Thank you for your time, and we hope you are in support of Ohio's citizens and not its corporations.

Sincerely,

Garrett and Hannah Smith
