To Whom it May Concern,

This letter is regarding FirstEnergy case number 14-1297-EL-SSO. Please deny the rate increase to lock consumers into buying power from Ohio's oldest, dirtiest coal plants. A bailout of old, polluting technology only benefits utility shareholders and delays inevitable investment in efficiency and renewable energy. My family and I care about reducing toxic pollution and saving money on our electric bill as well as our environment and it's future. Thank you for taking time out of your day to read this, and I hope you'll deny the rate increase to lock consumers into buying power from Ohio's oldest, dirtiest coal plants.

Thank you.

Claire Rickards
