SUBJECT: Case No 15-1921-EL-BGA

PUCO

2015 DEC -4 PM 12:14

RECEIVED-PROCKETING DIV

To Members of the Power Sitting Board:

This notice is to file our objection to the Notice of Amendment for addition of three [3] additional wind turbines to the Greenwich Wind Farm project. Adding additional wind turbines to this project will just compound the disruption to our community. This project adds no value to our community as well as the increasing the negative impact which wind turbines will have on our area.

The Power Board has been totally unwilling to hear the legitimate concerns of the community who will be directly affected by this large project. There is no reason to operate a wind turbine farm which will be 4,650 acres in close proximity to a village and outlying land owners. The Power Board has sided with a company that is not a US company, that is not an Ohio Company, and with land owners who negotiated and signed contracts under secrecy. The zoning of the wind turbines is also not within current regulations. Adjacent land owners must be given the opportunity to oppose the zoning issues and be given to opportunity to refuse to accept the variance acceptations.

This project should not be given the approval to proceed.

Again, our property will be in range of the wind turbine farm and we will be able to see the turbines to the west and south. We do not support this project and do not feel that it should proceed.

Sincerely,

Susan and Steve McCormack
