## **ATTACHMENT 13**

## **Lorain**

Description: In 2013 and 2014, Columbia authorized a history consultant firm to research corporate successors to the late nineteenth century and early twentieth century entities known to have been associated with the former MGP Site located in Lorain, Ohio. In addition, Columbia asked that this review include a confirmation of site ownership, past operating practices, and available historic information to aid in future site evaluation. Columbia has reviewed its corporate history and has determined that it is a successor to entities that owned and/or operated the Lorain MGP. Because MGPs are a recognized environmental condition, Columbia will be conducting additional investigations at this property in the future. An SEC-required determination of an appropriate contingent environmental liability for the site was also developed.

During the twelve-month period ending in November 2014, limited activities were completed to finish the historic evaluation and update the contingent environmental liability. In the future, Columbia will conduct investigations consistent with Ohio VAP regulations and conduct community outreach and negotiate access as required.

No activities were performed during the most recent twelve-month period ending in November 2015.

Total Project Costs to Date: Total incremental costs incurred by Columbia during the period December 2013 through November 2015, exclusive of the \$25,000 to be funded by Columbia, were \$1,473.00. This amount was deferred previously.
