2011.pdf; Wireless Technology Harms the Body.pdf

Please add the following documents to PUCO Case Record 14-1160-EL-UNC

I will be sending 146 separate documents to be entered into the record for all commissioners and the public to see as proof that the wireless meters are dangerous, violate our rights to privacy, and are not legal.

To charge a fee to protect our health and right to privacy is also considered extortion as well as is using our tax dollars without our permission to pay for these meters.

We the public never gave you permission to install hazardous products such as these on our homes.

Duke Energy installed these wireless smart meters without legal permission to do so. They do not have a right to charge a fee for removing them to re-install our analog meters which do not cause health issues or violate our rights.

Duke Energy as consistently lied to the public regarding the health hazards of these wireless smart meters. They have more than enough letters from medical doctors stating that these have caused severe, debilitating health problems as well as deaths after their installation.

Let there be no confusion that Brian Maynard with Duke Energy has been contacted by numerous people and is well aware of the medical letters. He has first-hand knowledge of the complaints by people made ill by the wireless smart meters.

The rest of the public has the right to know that Duke Energy is disregarding the damage these wireless smart meters are causing to the environment, animals, and people.

This information is to be shared with each PUCO commissioner prior to making any decisions r	egardi	ng the
above mentioned case.	2015	#ECE
Sincerely,	DEC I	RECEIVED-
Tara Madison	ţ P≱	POCKE
(I will not include my address or phone number because I have already been targeted by Duke	: E m erg	
complaining about the above mentioned violations.)	N	TT.
