COMMENT DESCRIPTION:

14-1297-EL-SSO Dear Commisioners, I am opposed to First Energy's plan. They have a very clear conflict of interest. They have every incentive to come up with assumptions that support their assertion that this plan is good for ratepayers. It isn't. If it was going to save the rate payers money, they would have gotten the financing to make it past the first couple of years and kept the money. Of course for me, it's not really about the financial impact on myself. I signed up for 100% wind power, because I don't want to financially support coal fired generation even if it looks cheaper because they pollute for free, harming people and the environment. This deal forces me to. That is infuriating! The law should be changed to disallow regulated monopoly electricity companies to own generation. Frank

Dec 16, 2015

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

With the new settlement, FirstEnergy's proposal went from bad to worse. Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Ms. Kathy Alexander
