

Dear Public Utilities Commission of Ohio,

My family and I care about reducing toxic pollution and saving money on electric bills. Please support Ohio Citizen Action for clean water.

Case: First Energy 14-1297-EL-SSO

regarding Case #14-1297-EL-SSO

To Whom it may concern,

Do you enjoy  
clean water and  
clean energy?

Do you think  
others may enjoy  
the same?

Guess what. They do.  
The average consumer  
is struggling to make  
ends meet. They do not  
need your price hikes  
or your dirty energy.

Can you think of  
others, and try to  
provide an honest  
and decent service?

Jesus Christ!

- Mrs. Okeke

To whomever it may concern,

My family is distraught At the recent increase in Air pollution in our beautiful state. Please take this letter into consideration when using coal in the future.

Thank you!

Lizzy Rudge

Re: 14-1297-EL-SSO (First Energy Bailout)

This letter is to inform you that my family of 5 and I are very concerned about the issue of reducing toxic pollution and saving money on our electric bill! My husband's grandfather, Henry Thomas, helped to organize the United Mine Workers Union from the small town of Oak Hill West Virginia. I have the utmost respect for coalmines and the impact they have on our economy. I am also concerned about their impact on our environment, as I would like to leave the natural beauty of our state, to my descendants; in at least the condition that I am able to enjoy it.

Coalmining had its place in our history and I am thankful for that. I would ask that you invest the money that would otherwise be used to bail out First Energy, to instead invest in more efficient and renewable energy sources.

Please know that my family and I are very active in our community and will follow this action very closely.

Sincerely,

A handwritten signature in cursive script that reads "Ann Conley". The signature is written in black ink and is positioned above the printed name.

Ann Conley

To Whom It May Concern:

I am writing to encourage you to oppose an "indefinite freeze" (or any freeze) of clean energy standards in the state of Ohio. Please do not delay the implementation of common-sense standards that not only reduce the future impact of man-made pollution on our environment but also have the potential to reduce energy costs and create jobs.

Additionally, I would encourage you to oppose allowing Ohio Edison and other energy providers to utilize a rate increase to force consumer to support continued reliance on coal-burning power plants (PUCO Case No. 14-1297-EL-SSO). As I'm sure you're aware, these power plants are significant polluters, contributing to mercury pollution in Lake Erie and the Ohio River.

I have been a resident of Ohio for more than 20 years. My family and I want to encourage you to ensure that we will be happy and proud to live in a state where the quality of our air and water is clearly important to the citizens and legislature, and where we are doing everything we can to move away from relying on fossil fuels to provide the energy we need in our home.

Sincerely,

Kris Johnson

To Whom It May Concern:

I would like to ask to please stop the bailout of our older, outdated coal plants. We do want to reduce our independence on coal for electricity and we need investment in efficient and renewable energy.

My family and I definitely want to save money on our electric bills as do most families. We also want to reduce toxic pollution.

Thank you for considering our concerns.

Sincerely,  
Majane Byers

TO P.U.C.O. MEMBERS,

I UNDERSTAND IN REALITY YOUR RESPONSIBILITY AND LOYALTY LIES WITH BIG BUSINESS AND THE BOARDS OF THOSE CORPORATIONS. BUT YOU MUST REALIZE THAT YOU ARE ALSO RESPONSIBLE TO THE MILLIONS OF INDIVIDUALS THAT MAKE UP THIS GREAT STATE.

THESE FAMILIES HAVE TO SURVIVE WITHIN A BUDGET AND MANY, LIKE MY OWN, GET NO ASSISTANCE FROM BIG GOVERNMENT. WE CONSERVE AND MAKE UP A PRIORITY LIST. THE UTILITIES SHOULD DO THE SAME. WHEN PROFITS ARE ROLLING IN PUT SOME AWAY. WHEN LOSSES APPROACH MAKE CHANGES WITHIN YOUR BUDGET. DON'T DEPEND ON BAILOUTS FROM THE CONSUMERS WHO ARE STRETCHED THIN.

END THE FREEZE ON OHIO'S CLEAN ENERGY STANDARDS. CLEAN ENERGY AND ALTERNATIVE ENERGY ARE A FACT OF LIFE AND A PART OF OUR AND OUR CHILDREN'S FUTURE. TODAY IT MAY NOT BE COST EFFECTIVE, BUT WITHIN MY LIFETIME AND CERTAINLY MY CHILDREN'S IT WILL BE.

TAXPAYER SINCE 1968
