Docketing Case No.:

14-1297-EL-SSO

Notes:

Please docket the following in the case number above. Thank you.

\*\*\*\*\*

**COMMENT DESCRIPTION:**

Our comment is in reference to CASE # 14-1297 and we want our comments included in the Public Record for this case! A recent settlement proposed by First Energy and PUCO would increase our bill by approximately \$10.50 per month for the next 8 years. DO THE MATH: \$10.50/MONTH X 12 = \$126/year x 8 years = \$1,008,00 just for my wife and I. The total increase of this proposal for consumers would be a bailout in the billions of dollars to subsidize FirstEnergy's power plants. I'm sure there are MANY businesses that would like to have this kind of bailout at the consumers expense because their plants are not competitive. My wife and I are Sr. Citizens who rely on Social Security every month to make ends meet and will not receive a Cost of Living Adjustment (COLA) for 2016. We, like other consumers, just can't afford this unnecessary increase in our monthly electric bill. My wife and I are asking you to please reject the FirstEnergy settlement. We want to thank you, in advance, for your favorable consideration in this matter. Sincerely, Tom & Joyce Pavek

Subject: Reject FirstEnergy's proposal to keep old coal plants running

Dec 30, 2015

Chairman Andre Porter

Dear Chairman Porter,

I urge you to reject First Energy's proposal to keep several old, dirty and uncompetitive power plants open. Their plan will not only burden customers with increased electric bills, but the plan is anti-competitive and will harm human health. Ratepayers should not have to pay for these old power plants just because these plants cannot compete with newer technologies like wind or solar power.

These coal power plants are pumping out thousands of tons of soot, carbon and mercury pollution every day, harming me and many other Ohioans in the process. Newer technologies like wind and solar do not cause the kind of damage these old power plants will.

Please do not approve FirstEnergy's plan to bail out First Energy's old, dirty power plants. Supporting FirstEnergy's plan will hurt Ohio in its path to build an energy future powered by clean energy.

Sincerely,

Mr. David Carpenter

COMPLAINT DESCRIPTION:

AEP wants to raise our rates, because they want to make sure that all power plants make a profit-have you looked at their overall profit? I have. A reasonable alternative is to improve (at their expense) the profitability of their coal plants.
