Notes:

Please docket the following in the case number above. Thank you.

**QUESTION DESCRIPTION:**

As a senior citizen I am asking you to disregard the proposals of FE and AEP. Their customers deserve subsidies not their shareholders and management team. They will benefit at the expense of the citizens of Ohio. It's not surprising that the PUC is under pressure from them. I have seen the same thing in other states. But now it's hitting home. They are supposedly big boys - let them prove it. You know they don't have their customers interest in mind. Level the playing field please. Regards, Joe G

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

With the new settlement, FirstEnergy's proposal went from bad to worse.

Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and

residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Ms. Patricia Dean
