**RULES AND REGULATIONS GOVERNING THE DISTRIBUTION AND SALE OF NATURAL GAS IN
THE STATE OF OHIO**

the Ohio Revised Code. These variations are beyond the control of the Company, which can only dispatch the gases received.

7. **Service Shall Not Be Disturbed.** No customer shall attach or use any appliance which may result in the injection of air, water, or other foreign matter into the Company's lines; and without **prior** approval from the Company, no customer shall attach or use any appliance which will increase or decrease the pressure in the Company's lines intermittently to such extent as to interfere with continuous service to other customers.
8. **No Customer Shall Sell to Another.** The Customer shall not supply or sell gas for use in any location other than that specified in the application or for the use of any other person.
9. **Access to Premises.** The Company and its authorized employees shall have free access at all reasonable times to all of the premises in which gas supplied by the Company is used or is to be used. Customer has the right to request, and the Company's authorized employee must provide upon such request, appropriate identification.
10. **Customer's Responsibility.** Customer assumes all responsibility for property owned by the customer on customer's side of the point of delivery, which is generally the outlet side of the curb stop/curb cock. If there is no curb stop/curb cock, the point of delivery shall be the property or lot line. In addition, Customer is responsible for the installation and use of appliances used in connection with the property owned by customer therewith, and will save the Company harmless from and against all claims for injury or damage to persons or property occasioned by or in any way resulting from the customer's use of such appliances or customer property within the customer's control thereof on customer's side of the point of delivery.
11. **Right of Way.** Customer, without reimbursement, will make or procure conveyance to Company of right-of-way satisfactory to it across the property owned or controlled by customer for Company's distribution mains, extensions thereof, or appurtenances necessary or incidental to the supplying of service to customer.
12. **Charges and Payment for Temporary Service.** In addition to regular payments for gas used, the customer shall pay the cost for all material, labor, and all other necessary expense incurred by the Company in supplying gas service to the customer at customer's request for any temporary purpose or use.
13. **Customer Indebted to Company.** Subject to the requirements of Chapters 4901:1-13, 4901:1-17 and 4901:1-18 of the Ohio Administrative Code, and any subsequent amendments thereto, service will not be supplied to any premises if at the time of application for service the applicant is indebted to Company for any service previously supplied at the same or other premises, until payment of such indebtedness or other arrangement satisfactory to the Company shall have been made.

**RULES AND REGULATIONS GOVERNING THE DISTRIBUTION AND SALE OF NATURAL GAS IN
THE STATE OF OHIO**

SECTION 5 — GENERAL INFORMATION

43. **Subject to Commission Rules and Regulations.** These Rules, Regulations and Rates Governing the Distribution and Sale of Natural Gas are subject to and include as part thereof all orders, rules, and regulations applicable to the Company as issued or established from time to time by the Public Utilities Commission of Ohio under its emergency powers.
44. **Gas Supply Shortage and Curtailment.** The following classifications set forth the rules of the Company governing the curtailment of gas service to various classes of customers in the event of a gas shortage. The Company may curtail or discontinue gas service in accordance with this classification without incurring liability for any subsequent loss or damages that its customers may sustain through such curtailment or discontinuation.
- (a) **Class A Customers** shall include any service account where the use of natural gas is for space heating of a permanent residence or for use by a governmental agency or public service organization that provides emergency or life support services. Human needs customers shall include permanent residences, hospitals, nursing homes, residential correctional institutions, and motels and hotels. In the event of a shortage of gas, Class A customers shall have preference over Class B and Class C customers.
- (b). **Class B Customers** shall include any service account where the use is in schools, churches, and similar institutions, federal, state, county, municipal and public buildings, theaters, stores, restaurants, bakeries, and all types of commercial establishments. In the event of a shortage of gas, Class B customers shall have preference over Class C customers.
- (c). **Class C Customers** shall include service accounts using gas in industrial or manufacturing facilities, including gas used for space heating by such customers, and customers using gas for the generation of power. Gas service to customers under this classification shall be subject to discontinuance or curtailment at any time, temporarily or permanently, in whole or in part, to protect or conserve the supply of gas for Class A and Class B customers.
45. **Effect of Commission Approval.** Approval of the above tariff language by the Public Utilities Commission of Ohio does not constitute a determination by the Commission that the limitation of *liability* imposed by the *Company* should be upheld in a court of law. Approval by the Commission merely recognizes that since it is a court's responsibility to adjudicate negligence and consequent damage claims, it is also the court's responsibility to determine the validity of the exculpatory clause.
