Subject: I agree and support FirstEnergy & AEP

Dear Commissioner Johnson,

Ohio's power grid operators and multiple experts have said that Ohio needs AEP & FirstEnergy's power generation for reliability and for the regions future.

Please tell the PUCO to say "yes" to the utility Companies AEP FirstEnergy and "yes" to Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Subject: Protect Ohioans from Utility Power Plays

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that *consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers.* But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Subject: Pull the Plug on Utility Handouts

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Subject: Ignore Alliance for Energy Choice

Dear Commissioner Johnson,

New, clean, natural gas plants are great and should help continued diversity in our energy resources. AEP and FirstEnergy's existing coal fired power plants are far from old and inefficient are a great compliment to natural gas fleet. *They have been maintained well and are in good condition.*

Placing all of our energy eggs in one natural gas basket would be incredibly foolish and its irresponsible for organizations to mislead people this way. We will ultimately have a larger percentage of our energy supply coming from natural gas and renewables, but it has to be part of a larger energy plan. Failing to maintain current infrastructure for the sake of short term natural gas prices is also irresponsible.

PPA's are not subsidies. They provide consistency in a volatile market. This has been the whole sales pitch for energy choice in Ohio (consistency). These people are getting their message confused.

Dear Commissioner Johnson,

The executives at First Energy have been making huge money (specially when they had a monopoly) and now we have to pay for it - again.

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to *subsidize utility companies when I get no benefit in return.*

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Bob Lucas

Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

AEP and other utilities asking for yet another price hike (aka BAILOUT) is infuriating. Consumers should NEVER be charged more because of AEP's decision to "update" coal-fired plants. That is AEP's cost of doing business. Their risk. Not mine. A "net savings over their 8 year plan" is also a joke. Consumers will NEVER see a "savings" in any way, shape or form. And why is a former PUCO chairman now a lobbyist for the Alliance for Energy Choice?

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Adam Rogers

Subject: Pull the Plug on Utility Handouts

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Subject: Protect Ohioans from Greedy Corporations

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. Ohioans shouldn't have to pay extra charges to subsidize utility companies because they haven't modernized.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

These proposed rate hikes will devastate our economy. People are barely making due, the elderly especially. An additional \$700-800 per year would mean people again will have to choose between paying a bill they cannot afford and eating (or purchasing required medication, etc).

This is pure greed. The rate hike is unnecessary and borders on criminal. Do not vote this in - Public Officers, your constituents are watching.

Sincerely,

Bonnie Rhea
