Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Thank you!

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

*It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.*

Subject: Protect Ohioans from Utility Power Plays

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Unfortunately the money tree in my backyard no longer produces. I am a senior citizen on a small Social Security income and I did not get a SS "raise" this year. Thus I fall further behind every year. Moreover, I have an all-electric home and just cannot afford any more utility increases. PLEASE DO NOT KICK ME OUT OF MY HOME where I've lived since 1976. I've got nowhere to go!

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

I cant afford to pay any more on my electric bill then I already have to pay. My electric bill has many fees on it such as electric delivery charge, electric consumption charge among others, its like they are double dipping.

They drive around and seem to spare no expense when it comes to fancy Freight Liner electric bucket trucks and the like along with other pick up trucks, cars and vans all brand new or almost brand new. I drive an old ratty 2003 rusting out Dodge Ram van not very pretty like their vehicles.

They are very quick to send shut off notice when you fall more then a month behind. They offer some lame programs to help you make payments on the back amount along with paying your current amount.

I think the electric company First Energy needs to TIGHTEN ITS BELT like the rest of us and suck it up like we have to. I don't see my employer handing our raises because they feel sorry for me because I cant up keep my home or maintain my vehicle. In fact I think they need to reduce their fees they charge.

IF I HAVE TO TIGHTEN MY BELT ANY MORE I WILL START TO LOOSE BLOOD FLOW TO MY LEGS. FIRST ENERGY NEEDS TO DO THE SAME THING!!

I BEG YOU TO NOT APPROVE ANY RATE HIKES FOR FIRST ENERGY.!!

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.
