Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

KM Clark

Dear Chairman Porter,

AEP is trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they correctly claim are losing money. What AEP fails to state is the incurred generating losses are due to poor management decisions. We shouldn't have to pay extra charges to subsidize AEP's competitive generating operation when we get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Miranda Johnson

Dear Chairman Porter,

AEP had to know that upgrades would be needed eventually but chose to be greedy and take the dividends for themselves instead of saving a percentage for future upgrades and expect us to pay for it.

While I admittedly enjoy electricity service to my home, it is important to look at AEP for what it is in the power generation industry, essentially an oligopoly, except I have no choice in who generates my electricity, on who transmits it. They have enjoyed no competition for decades so they had no pressure to upgrade their services. Now, there are alternatives cropping up and suddenly AEP is finding that they need to compete with more than just their own profits. That is business.
