Subject: AEP and First Energy Utility Handouts

Dear Chairman Porter,

The outrageous proposals by AEP and First Energy to force ratepayers to subsidize operation of obsolete coal-fired power plants is clearly not in the interests of consumers.

Please oppose this disgusting example of corporate welfare, and call for an investigation by the Ohio attorney general to examine why the PUCO staff would support proposals that are so injurious to consumers and detrimental to the operation of free markets.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Roberto Mayer

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Dear Chairman Porter,

NO to utility handouts! You (the PUCO) are supposed to protect the consumers . Big business has enough clout with all they can buy with all the fees they gouge from consumers. When we (your consumer) - the public - need to improve or even just maintain our property, we must pay for it out of our own pockets, our own savings. Utility companies and investors should be responsible to do the same. If they pay their own way, they insure their own future profit. There is no need to bleed the people who are already putting money in their pockets. New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

DiAnna Noponen

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Tammy Fairchild

Dear Chairman Porter,

I thought GOP abhorred having government pick winners and losers. The free market is the best way to assure a reliable power supply, especially when reviewed by independent experts who know the grid.

As far as keeping jobs, responsible plant decommissioning will keep folks working for another decade or two. If I have to pay for anything at all about these plants, it's "one and done" forever as far as I'm concerned;

Shut them down if they can't compete, like a pro GOP'er would.

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Terry Patterson

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Debra Jones

Inflation already is destroying the middle class enough with no attempts to raise wages to match the cost of living. I'm tired of working hard to keep struggling to make ends meet while the rich get richer. Let's stop the 1 percent from killing the middle class. Stop these deals now! This is a monopoly!

Sincerely,

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Roberta Stephan

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

david westenfelder 1

Dear Chairman Porter,

I am sickened by this ploy of AEP & First Energy to reach into my pocket to cover their lack of foresight and technological awareness.

I am equally sickened by the PUCO going behind the backs of consumers to allow this money grab by AEP & First Energy.

If AEP & First Energy cannot compete with the newer power generation plants they have only themselves to blame.

STOP THIS CONSUMER RIFOFF, NOW!!!!

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Mike Manderick

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Sonja Lou Gilliam
2100 State Line Rd

I worked for AEP for over 30 years and know how much they work the system for looking good to the public with several methods but they are totally profit driven at their customers expense! With my last elec bill there were several rebate offers for trading in older elec appliances. Who is really paying for this? THEIR CUSTOMERS!!!

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Jennifer Farbrother

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Subject: I'm sick of aep

Dear Chairman Porter,

I have had several power outages over and over and there is absolutely nothing I can do about it. I am unable to change. I am unable to have monetary compensation. I am unable to get anyone on the phone from AEP that will do anything more than say "we are sorry". On average I would say I lose power once to twice a month for hours on end. Making my job more difficult and my life very inconvenient. But instead of using the money we have paid them over the decades to improve the lines and polls over the years they have allowed them to become obsolete. I don't believe any other company gets to lock people into no choice and constantly ask for more money for their mistakes and give no credit when they fail.

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Subject: Ohioans should not be screwed by FirstEnergy

Dear Chairman Porter,

FirstEnergy is trying to play it both ways and screw Ohioans.

They want to compete in the competitive market AND demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Either make them compete in a competitive market or reregulate them entirely. Don't let them have it both ways!

I don't live in Ohio, but I know enough about what FirstEnergy is doing to recognize that this will affect what I pay for electricity in Pennsylvania.

Please protect hard-working people, Ohioans and otherwise, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to corporate welfare B.S.

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Dear Chairman Porter,

21 years. That is how long AEP has been listed as a Fortune 500 company. So please tell me why it would be ok for a company that rakes in billions, in net profit, to raise my electric bill when I'm barely making my monthly house payment.

They can hide behind numbers all day long, but the only numbers that matter are telling you that the rich are getting richer by riding on the backs of the working class.

Please stop the rate hikes! Please.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Dear Chairman Porter,

I am a customer of IGS, so are many of my neighbors. We are all retired or on disability. It seems ALL of our services are going UP at an alarming rate- I wonder who we are in competition with, especially since we are supposed to be the best Nation on the planet. Why haven't all the increases from the gas hike been lowered since gas is cheaper, and if we have so much Surplus-why are things still so expensive. I understand the economy issues, BUT it seems to me that the taxpayer NEVER gets the better part of Anything, while the I don't work- get everything, I think another Bosron Tea Party would solve the problem and MAYBE treat everyone Fairly. Or better YET people could Stop using all our modern items and find out how we would fair. If you own a business and provide a service then YOUR job is to maintain that business at your expense, I will pay for your services, but I should not have to go Without so you can live in a mansion and give your kid the Best of life.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Terry Starr

FirstEnergy in particular is a poor excuse for a power company. They perform almost no maintenance on either equipment or tree trimming, I can't tell you how many power outages we suffer, it's almost every time there's a breath of wind.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Amy Welling
5664 Pleasant Hill Dr

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

I have cut my usage as much as I can. I use less than 400 kwh a month. Live in dark. It cost me 105.00 a month. This is constantly going up in cost. My usage is a fourth of past and with low usage now the costs is more over last 10 years. Cannot afford this!!

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

PLEASE, PLEASE, PLEASE keep AEP from raising rates. I am on Social Security, living on a fixed income. My home is all electric, therefore, I am greatly concerned about any more hikes from AEP. In January of 2015, my electric bill was \$900. for just one month. Other months last year I had \$600. and \$700. bills. I called AEP over and over about how extraordinarily high this was and they continued to tell me it was cold and rates have increased. Yes, it was cold but I had never had a bill nearly that high in the 20+ years I've lived here. In previous years it had been high but never over \$500+ dollars a month when extremely cold. Should it be right that AEP takes half of my S.S. check in some months. Also note that I live in a very modest size home. I'm on oxygen so have to have my electric on at all times, including A/C in summer months. My S.S. is just slightly high enough to disqualify for assistance, but when qualifying for assistance, many things need to be taken into consideration. That being ones expenses, such as the medical bills I have to pay. Other than that, I don't have debt, but still can barely make it month to month only due to my electric bills. AEP threatened to shut off my power if I didn't pay those huge bills in a short period of time. I was forced to pay AEP by charging it to my Credit Card which I rarely use, which I have for emergencies, only. Guess electric has become an emergency for me. It just isn't right that I can go broke due to my electric bill. It affects me financially and physically since it is so upsetting. I never have the furnace temp at 70 degrees year round. Not an ideal temp for me, but I have to try to keep the AEP bill as low as I can.

PLEASE keep AEP from giving us any more rate hikes. It's nearly killing me now. I wish there was a way to get the present rates down. Certainly not up. I can't afford to live here strictly due to AEP costs, but I also cannot afford to move. My electric bill is the only thing that puts me in financial jeopardy. It just isn't right.

Sincerely,

L.C. Halley

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

PUCO acts like they're doing taxpayers a favor by making them shop for lowest rates, why can't AEP be regulated to just provide the lowest rates?!?! Instead, taxpayers have to do a lot of legwork, get roped into contracts where the month after your ending contract date, the electric rate doubles. Taxpayers are busy enough without having to shop for lower electricity, and every little charge that AEP gets continues to steal from us to fatten the executives pockets. Why can't utilities be regulated, isn't that PUCO's job? ? Take action to quit putting the squeeze on the middle class pocket books.

Sincerely,

PKS

I live in Indiana but, I work at for a utility that will face a negative impact if this is passed. The Plant I work at has updated our equipment to meet the required regulations set by the EPA. This request will have a great impact on our jobs if this is passed. Please consider in turning this request down and have these two companies make the changes that other utilities have done to stay compliance and not pass the burden to the customers and other utilities.

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

I live in a poor area of Akron Ohio and we can barely pay the bills we already have. I can't imagine spending more. We pay more and more and never get a break. Why can't we be rewarded for being long time customers. I won't rather give my business to an out of state provider then pay more. If your business can't make it, you must be doing something wrong, so you might as well shut it down and do something else.

Time for another revolution.

Sincerely,

Sick and tired

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Brian Sanzone

Almost every time any of the utilities ask for a rate hike, the PUCO gives them everything they want, and does not protect Ohioans. The PUCO is almost always ready to put more money into the utilities companies pockets. I ask that the PUCO AND the utility companies totally changes course and start thinking of Ohioans for a change.

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

From: Jesse Willetts [<mailto:user@votervoice.net>]
Sent: Monday, February 08, 2016 4:13 PM
To: Porter, Andre <Andre.Porter@puc.state.oh.us>
Subject: Pull the Plug on FE ripping us off...

Dear Chairman Porter,

I am WORN OUT after being an all electric home owner...one once since 1975.

I was there in Columbus at the PUCO hearing as a testifying (on the bench) witness a few years back regarding the all electric RGC discount 10-0176-EL-ATA, complete with copies of a letter from Cleveland Electric Illuminating (dated and postmarked envelope and addressed to me) for PUCO and FE to examine, saying I will always have my RGC discount as long as I live in my house. It was implied in the letter that the next person to move into my house probably will lose the discount. When testifying, the FE's lawyer implied that I didn't understand what the letter was really implying and simply blew it off to everyone involved as I didn't understand it. HUH.....It seemed pretty straight forward if one was to read only 2 sentences of the letter for themselves and not listen to the suggested implied response by the FE lawyer. Well I guess it is easier to LISTEN to a lawyer than to READ only a couple sentences out loud, or to themselves. Copies in PDF format are available if anyone reading this message would like the letter as well as addressed and post marked letter stated above. Chalk up one for lawyers...

Simply put, I have over the years gone from 5,500 kWh in the winter peak to around 1650 kWh usage. A very large reduction. Similarly in summer from 2300 to about 700 kWh. I can't get it down any further after costing me around \$35,000 out of my pocket to get my bills that greatly down on usage through major and minor improvements. I was doing this as an investment so when I retire, my bills should be reasonable on a fixed income. Well the current electric bills are far exceeding any inflation that might be encountered. An example as follows...Dec 2014, actual cost per kWh USED was 8.27 versus 10.22 cents for Dec 2015 bill. A 23.5% increase. It doesn't stop there, Jan 2014 6.82 cents, versus 9.4 cents Jan 2015. Wow, a 50% increase. If this keeps up, what next 60%, then 75% if and when PUCO might approve FE's current appeal to keep the old power plants open. Maybe my bills will go up 100% per kWh.

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab before the lawyers can chalk up a BIGGIE win number 2.

I am respectful of lawyers, but watch out PUCO, read, read, and don't simply listen. It is easy to be swayed.

I have kept this to one page because most people won't bother to read it if it exceeds one page. Please read out of respect. Thank you in advance....

Respectfully....

Jesse Willetts

First Energy, Cleveland Electric Illuminating customer Parma Ohio

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

The Rowlinson's
3747 Albaugh Rd

AEP just had a rate increase back in 2013. Just because they didn't earn enough money for there shareholders. What a Crock!

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Hope Beedy

Dear Chairman Porter,

Electric is already outrageous. Especially with a transmission charge on top of it. It's getting harder for retired folks to continue paying these bills. I do not wish to see my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Gail Chaney aep customer (hostage)

Dear Chairman Porter,

Can you imagine my surprise when I saw the recent advertisements regarding First energies conflict with consumers? they are airing on local TV.

Recently I was approached by a representative of a fairly well known energy supplier in Dec 2016, They were informing customers of their choices, specifically choices in Gas suppliers.

I decided to choose the more competitive rate offered for their Gas.

I also wanted some information on electric supply. Their costs were competitive as well.

I am not just interested in competitive prices, I wanted to make a more environmentally responsible choice.

I have had no real problems with First energy, I was still on the fence about the switch. When I was told of a plan that would cost slightly more for my electricity but would support "greener" and more sustainable sources I decided that due to the offset from cheaper gas prices offered by this company I would switch both Gas and electric.

In Feb, my final bill from First energy came and I payed it off early. I was not under any false understanding up to this time regarding my electric bills. I just let auto deduct take care of payments for a long time.

I wanted to clear my credit card history from First energy, Maybe i'm just a stickler for such things. When I contacted the provided number for First energy, calculated my way through their phone maze, finally a representative talked to me and said that the number was an Illuminating Co. number. I was confused, (Here in NE Ohio that is a distributor) Beyond that he was rude saying " that is all you need to know" instead of answering questions.

OK, so I understand that My credit information is on file..maybe with the Illuminating co, and have no problem with the distribution charge (This is in addition to actual energy costs) But who is First energy?

#1 So Illuminating Co. bills itself as "A First energy Co"
(isn't this a way to monopolize if not confuse people?)

#2 Doesn't deregulation prevent #1

#3 how can a supplier own a distributor while maintaining a competitive market?

Really I don't want to know. and as far as I know my credit information is still on file with First energy.

Here in NE Ohio things like the Browns First energy stadium stink.
How can that be afforded ant they are asking for additional payouts?

The reversal of decisions to put windmills in the lake, The recuperation of decades old dirty coal plants, Corporate doublespeak, Shady marketing

What had been reinforcing my confusion, now just made me angry.
FIGHT THE HIKE!

Yes I am against a price hike.
Against whatever First energy is.

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Richard Peterson

Dear Chairman Porter,

The whole plan as proposed by AEP and First Energy is outrageous. No business should be subsidized by taxpayers for being inefficient. Given the resources that we have in Ohio, the price we pay for electricity is already thievery. Make them man up and be responsible.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Angel Criado

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Michael James Griffin

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Michele Brown

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Furthermore, every month AEP makes me pay an additional deposit. They have hundreds of dollars from their deposit fees they make us pay. When i lost my job, i asked them about the program that they offer to customers to help pay for other peoples electric. AEP told me I could donate to the fund. I asked how I might get on the list for a donation, can I fill out an application for help. They said that they have no idea and they could not help me. So if, when people donate to the fund, where does the money go if they do not have a plan to distribute the donations? Stop AEP, help the people. AEP is a huge monopoly and they need to be audited and an investigation will prove that they need stopped.

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Teresa Robinson

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Justin Doss
