Subject: A utility handout? I don't think so

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Paul Hannah

Subject: Energy Subsidies

Dear Chairman Porter,

I am writing in regards to potential subsidies for old FirstEnergy coal and nuclear powerplants, costing tax payers billions over the next decade while allowing FirstEnergy to continue making profit - during and after the subsidies. This is simply insane. Public tax dollars should not be spent to generate profits for a public corporation. Why should we foot the bill? What do we gain from it? If it was being used to advance our infrastructure, or make our energy and environment cleaner, I could understand it somewhat. But, what I see being proposed is to charge the citizenry to keep old, dirty plants in operation which aren't efficient enough to be profitable. Why should we do that?

Let me be clear, my number one goal in regards to energy is to move away from dirty fossil fuels and towards a sustainable environmentally friendly solution. We MUST cut carbon emissions, NOW - not in fifty years. Why subsidize an old, dirty coal plant? I am using this effective distribution tool to reach you all quickly, but not using their generic message supporting out of state natural gas companies, because I do not think natural gas is the answer, either.

In regards to FirstEnergy profits -- any subsidy whatsoever, that costs taxpayers more money, cannot result in profits for FirstEnergy shareholders. That is tantamount to theft. IF you were to subsidize these old, dirty plants, by FirstEnergy's argument of "leaving options open" to return to coal etc., then they should run at cost for the duration (8 years?) of the subsidy. They make no profits, but they break even. They can then make profits when (if) we ever return to coal the way they are predicting. Make them have "skin in the game," otherwise they are making an investment gamble with OUR MONEY. If they are so confident this will happen, they would jump at the chance for us to keep them from losing money until things become profitable. Surely, we do not need to help them so much as to generate profit for them at the same time? You can't have your cake and eat it too.

However, what should truly be happening right now is not maintaining the old ways of power generation, and neither should we move to natural gas (though it IS preferable over coal!). I understand that Republicans are in the pockets of companies like FirstEnergy, coal producers, natural gas suppliers, and oil tycoons. Or, perhaps you aren't? Take some time and look at what is happening to our climate. Stop making yourselves look like fools, and making our grandchildren pay the price, by ignoring the reality of climate change. Listen to the 99% of scientists not taking money from industrial corporations who are reporting the truth - that climate change is real, imminent, and man made. Each year, Greenland loses enough land-ice to provide Los Angeles with enough clean drinking water for 2,000 years. You read that right. Soot from forest fires and dirty energy plants is taken into the lower atmosphere and deposited at the poles, turning the icecaps in Greenland dark grey rather than glaring white. This causes more light to be absorbed - and triples the rate of icemelt. It is a positive feedback loop, and we have a limited amount of time to stop it. Now, we are beginning to see signs of Antarctic icemelt, too. If nothing is done, we'll be facing sea level rise of over fifty feet - cities like New York, Boston, New Orleans, Los Angeles, and San Francisco will be put under water. This is not a joke. Quit selling out.

Let me wrap this up - subsidizing energy is great, if it is an investment in the best interest of the citizenry. That means NOT investing in old, dirty, dilapidated, no-longer-financially-feasible power plants. Why would we invest in that?? Invest in new, modern, clean energy. Tear down the old power

plants, and build new ones. Nuclear energy is not the way of the future, but it is a temporary stop gap. There have been huge strides in efficiency in Nuclear, and replacing the old plant with a new one would be beneficial to all. Rather than replacing the coal plant with natural gas, I urge you to look into significant solar, wind, and hydro-electric solutions to reduce our greenhouse gas emissions. This is what subsidizing should target - advancing our scientific capabilities and energy producing ability in the direction we NEED but cannot yet fully adopt in a profitable manner, not what we used to do but is so bad now in multiple ways, that it can no longer be successful.

Please take this under advisement, and know that my vote is yours in future elections (I vote every year, not just in presidential cycles) if you support clean energy to reduce the effects of climate change.

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

These companies are already gouging homeowners and renters with their ridiculous rates. Why are legislators backing these big businesses. We don't get the kickbacks like they do. They are suppose to represent the people, not themselves. Please stop this pay hike.

Please do not allow this hike and we could appreciate cheaper natural gas in the future here in Ohio.

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Linda Magyar

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

John Ashcraft

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Joyce Samokyszyn

The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Why should consumers have to pay for maintaining the shoddy business plan these power companies created. Our bills continue to go up and up with fees and claims that they need monies for upgrades to existing lines and apparently they never put said fee monies (that PUCO oks) back into their services for the consumers. I cannot understand why they haven't put any of the added fees toward what they claimed to be using them for. If I don't maintain my home by setting aside a little money to fix and upgrade the inevitable repairs needed who do I threaten? What a sanctioned racket these companies have going on. Funny thing is, I wrote to PUCO about this very thing back on 3/25/2014 and received a response from AEP that to me seemed more like a haha letter, my favorite part was "the charges and riders have all been reviewed and approved by the PUCO and they are items that ALL customers are subject to". I guess consumers around here are starting to smell what I smell.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Barbara Warren

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Marcia J. Voss

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

S.A.Nestor

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Clifford Sonnie

Dear Chairman Porter,

AEP and other utilities asking for yet another price hike (aka BAILOUT) is infuriating. Consumers should NEVER be charged more because of AEP's decision to "update" coal-fired plants. That is AEP's cost of doing business. Their risk. Not mine. A "net savings over their 8 year plan" is also a joke. Consumers will NEVER see a "savings" in any way, shape or form. And why is a former PUCO chairman now a lobbyist for the Alliance for Energy Choice?

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

These proposed rate hikes will devastate our economy. People are barely making due, the elderly especially. An additional \$700-800 per year would mean people again will have to choose between paying a bill they cannot afford and eating (or purchasing required medication, etc).

This is pure greed. The rate hike is unnecessary and borders on criminal. Do not vote this in - Public Officers, your constituents are watching.

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return. They already stopped our promised all electric rate in Strongsville.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Subject: Protect Ohio Electricity Delivery

Dear Chairman Porter,

A common gut reaction to energy rates in general and electricity rates in particular is to assume they are too high. Instead, we need to value these important resources properly and assure that good stewardship is exercised. Electric utilities can assure reliable, environmentally clean availability of energy by being well funded. Higher rates will discourage the wasteful mindset that results from the low rates we now enjoy. I encourage the PUCO to create the stable, predictable financial environment that helps build a stable grid for the future. No more complaining. Let's get behind the utilities.

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Dexter Mounts II

I am concerned that PUCO and our elected politicians are not serving the citizens that rely on their oversight. The continued lobbying efforts by utility companies are blinding our elected servants. You need to step back and reflect on any decision to support the utility companies. We should not be responsible for their lack of innovation, leadership, and initiative.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Linda Covington

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

James McCabe

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

William LeFever

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694 Also, AEP give nice bonuses to their employees. It is time for realistic salaries for employees and upper management. No price increase in electricity. I wish everyone had the choice between gas or electric. I certainly would go with gas, it's cheaper and warmer. And also, not have to be told this apartment complex uses AEP or another company. So sad, this is suppose to be America, land of the free. Our forefathers would turn over in their graves. They worked to make our country the best, until several years ago. Illegals, and citizens are demanding our rights that have been written for years be null and void. We should not have to give up our rights, freedom to fly the American flag, to pray in schools and say the pledge of allegiance. This is why our our country is the way it is now. Please stop this rip off now, please.

Sincerely,

Kathy Starrett

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

TRunals

Unfortunately the money tree in my backyard no longer produces. I am a senior citizen on a small Social Security income and I did not get a SS "raise" this year. Thus I fall further behind every year. Moreover, I have an all-electric home and just cannot afford any more utility increases. PLEASE DO NOT KICK ME OUT OF MY HOME where I've lived since 1976. I've got nowhere to go!

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

T. Perry

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

I cant afford to pay any more on my electric bill then I already have to pay. My electric bill has many fees on it such as electric delivery charge, electric consumption charge among others, its like they are double dipping.

They drive around and seem to spare no expense when it comes to fancy Freight Liner electric bucket trucks and the like along with other pick up trucks, cars and vans all brand new or almost brand new. I drive an old ratty 2003 rusting out Dodge Ram van not very pretty like their vehicles.

They are very quick to send shut off notice when you fall more then a month behind. They offer some lame programs to help you make payments on the back amount along with paying your current amount.

I think the electric company First Energy needs to TIGHTEN ITS BELT like the rest of us and suck it up like we have to. I don't see my employer handing our raises because they feel sorry for me because I cant up keep my home or maintain my vehicle. In fact I think they need to reduce their fees they charge.

IF I HAVE TO TIGHTEN MY BELT ANY MORE I WILL START TO LOOSE BLOOD FLOW TO MY LEGS.
FIRST ENERGY NEEDS TO DO THE SAME THING!!

I BEG YOU TO NOT APPROVE ANY RATE HIKES FOR FIRST ENERGY.!!

THANK YOU

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Nicole warner

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Corey j welch

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

mark zbinovec

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Jeff Hunsicker

Dear Chairman Porter,

NO!!!!NO!!!!NO!!!! Can you read this Ohio PUCO!!!! Even your former Chairman, Todd Snitchler, is against this!!

DO NOT APPROVE THIS...not now, not ever, not in any form or percentage. This will cause the people in the state of Ohio to rise up and demand you be replaced with a more consumer concerned group. Stealing from the consumers in Ohio where energy is concerned is a dirty little Republican secret that will be exposed for what it is...a money grab for utilities. You've allowed these types of thefts before and Ohio is just weary. Do not allow this and do not bring this again in 6 months in another form!

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

David Large

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

The following statement is from a newspaper article dated Dec. 2 2015.

The company says consumers will see an initial increase in electricity bills of a few dollars per month, followed by a net savings in bills in the later years of the agreement, leading to a net decrease of \$560 million over the eight-year term. Opponents say these numbers are incorrect and that there are no financial benefits for consumers.

"This is one of the worst backroom deals in the history of utility regulation," Rob Kelter, an attorney for the Environmental Law and Policy Center, said in an email. "The PUCO staff has cut a deal with FirstEnergy that will prop up uneconomic coal and nuclear plants that can't compete in the competitive market, the very market that FirstEnergy itself touted when competition benefitted the company."

He said provisions that seem good for consumers or for the environment are illusory. "The agreement has so many loopholes that FirstEnergy can conduct business as usual and claim they have complied," he said.

Looks like we the consumer will pay more now and benefit very little from it.

Sincerely,

John Geiser

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Pat Colpaert

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Elliott Gutierrez

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Anthony campomizzi

I have been over paying for their convenience for over 40 years and have had enough. Toledo Edison has had their way forever and I will not augment their screw-ups any longer. What have they done with the BILLIONS they have already collected? I have to plan and live on a tight budget to survive on social security. I can't have my bought and paid for lobbyist go out and get me additional funding and I'm tired of the PUCO being a rubber stamp for Toledo Edison, First energy, or whomever getting more taxpayer funding because they don't live within their means...

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas. It's about time that the "suits" of the world stop making demands and start listening to the customer.

It's outrageous that my electric bill HAS gone up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders- which used to be optional -. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

I just received my January statement - it is \$169.95. THIS IS HIGHWAY ROBBERY.. My house - which I have lived in for 16 years - is an all electric home with a pond and running filter. Even during the Christmas Season with additional holiday lights I HAVE NEVER USED \$169.95 WORTH OF ELECTRICITY. 2013 First Energy installed a new meter on my home to make it more accurate in my charges. I have had more "estimates" than "actual" readings since then. They s'pposedly can read my meter from the road so WHY are there still "estimates". I believe it is time to make the customer happy rather than the shareholder. Please put an end to this robbery and bring my bill back to a reasonable amount.

Sincerely,

Cheryl A Rosenberger

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

LeShawn Powers

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Drew

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Elizabeth Kirsch

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

I know first hand of the pays, raises, waste, and bonuses to employees and top executives. Those few of us middle class workers who are trying to make a living are being squeezed of every dollar we earn. Utilities go up and our wages stay the same. When all wage earners are retired and the new generation of welfare are all you have to gouge what are you going to do?

If I make a poor business decision, I must accept and live with it. I can't pass it on and add it to someone's electric bill The Utilities should be held to the same standard.

Sincerely,

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Stephen C. Drummer
5454 Hollywood Ave
Maple Heights, OH 44137

They must be responsible for their mistakes. Their lack of planning is not on the customers. It is on their higher ups. They should be responsible for paying and if they can't then they should be replaced or the company itself should go under be replaced by one that will act responsibly. Or maybe they should be owned by the public if they want our money so bad.
