Subject: AEP is making plenty of money - No rate hike!

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. I am making about \$40,000 less a year than I did eight years ago and haven't had a pay increase in a couple years. The cost of everything goes up (including taxes) - yet I am not making more money. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Greg Baumer  
12 S 33rd St  
Newark, OH 43055

Subject: Enough Record Profit

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Subject: High Electric Bills

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Jeffrey p hegedus

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Mike Cutter

Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

RONALD BITTNER

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Cheryl Barber  
8472 Manchester Ave NW  
Canal Fulton, OH 44614

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

David conversino  
1204 Perry Dr SW

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

First Energy shareholders are now receiving a dividend yield on their shares of 4.38%. The Ten Year Treasury yield is 1.89%. So First Energy shareholders are receiving 2.32 times the benchmark yield. If First Energy requires additional funds for capital expenditures or compliance with EPA regulations, they should cut their dividend and use that money to pay for such expenditures. They should not ask the public to subsidize their stockholders. Investors assume certain risk when they invest in equities and should never be allowed to reduce the risk at the public's expense.

Below is a chart showing First Energy's executive compensation for the years 2010-2014:

Key Executive Compensation

FE

Name/Title	2010	2011	2012	2013	2014				
Key Executive Compensation						17,091,123	28,673,881	34,484,592	
21,205,711	33,539,833								
Salary	2,366,481	2,431,346		3,118,119	3,669,172	3,699,520			
Bonus	0	0	0	0	0				
Annual Other Income		0	0	0	0	0			
Restricted Stock Award		6,707,799		13,367,752	21,306,653	13,349,918	13,358,408		
Securities Options		0	1,990,378	0	0	0			
LTIP Payout	0	0	0	0	0				

Non-Equity Compensation	3,597,360	4,174,460	1,980,892	3,721,779	2,772,300
Other Compensation	104,139	95,384	98,383	73,815	108,271
Total	17,091,123	28,673,881	34,484,592	21,205,711	33,539,833

Anthony J. Alexander/Executive Chairman of the Board, Former President and Former Chief Executive Officer	11,627,657	18,328,895	23,310,829	11,719,858	15,563,530
---	------------	------------	------------	------------	------------

I realize this chart may be a little difficult to read but you can find the chart at [www.morningstar.com](http://www.morningstar.com). Simply enter the ticker symbol FE in the quote box and click of the search icon. These levels of compensation are simply ridiculous for a company the size of First Energy, specially considering how poorly the management has performed. It is simply inconceivable that the public is once again asked to bailout a company whose management is unable to run the company in a capitalistic environment and yet expects to be paid outrageous salaries. The public has bailout the banks, AGI, General Motors, and others. When does this stop. You can stop it and you should.

Sincerely,

L. M. McGurk

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Dear Commissioner Johnson,

AEP didn't account for its business properly. When they exited generation in Ohio, AEP suddenly realized it needed to adjust its costs. This shouldn't happen. AEP was not responsible in understanding its costs. Now it wants to be bailed out. No thanks. Other companies are stepping in. Let's see who wins.

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

AEP didn't account for its business properly. When they exited generation in Ohio, AEP suddenly realized it needed to adjust its costs. This shouldn't happen. AEP was not responsible in understanding its costs. Now it wants to be bailed out. No thanks. Other companies are stepping in. Let's see who wins.

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Ha Ha Ha...we do not have dependable electrical service now! Multiple power surges every week. If there is a storm we are guaranteed to lose power- an hour or two and up to 3 to 10 days. It has been this way for twenty-five years and AEP wants to raise their prices? What a joke! No one has offered to cover our losses due to their undependable service. We have had to install a generator in our home. We are against any raise in their charges!

Dear Chairman Porter,

Why is it that the rich always need to get richer at the expense of the middle class, people on fixed incomes and lower incomes and small businesses. We are supposed to guarantee them profits. I hear complaints about welfare to the poor but never any about corporate welfare which cost our country much more in less revenue. IT,S CRAZY!!!!!!!!!!

We say NO to AEP handouts

Subject: Oppose First Energy generation bail-out

Dear Chairman Porter,

A few years ago, First Energy requested their generating plants be deregulated. Now that the deregulated market is delivering savings to Ohio customers, First Energy claims they aren't making enough money from generation - they need a generation subsidy. Other suppliers are more efficient and offering lower prices. The utility companies have warned that consumers and businesses will no longer have a reliable power supply, if they don't get this handout. But FE has spent hundreds of millions of dollars (at a guaranteed profit for their regulated transmission subsidiary) to build additional lines to bring more power into Ohio. Ohio's power grid operator and multiple experts say that this gives Ohio adequate power for the future.

Say no to the utility lobby! Deny the First Energy request and give your constituents cheaper deregulated power.

Subject: Please Consider Denying the First Energy Rate Increase Request

Dear Chairman Porter,

I object to a rate increase by First Energy.

First Energy is taking the position that this rate increase is about preserving jobs amongst other things. As a commissioner of the PUCO it is not your responsibility to preserve First Energy jobs. It is instead your job to insure that public utilities are allowed a fair rate in a regulated environment.

Given First Energy's large profits and returns to shareholders over the years some consideration should have been made by their board to reinvest in their business to remain competitive rather than ask for a large rate increase instead to pass those costs along to their consumers.

In Lake County First Energy pays little to no property taxes on the Perry Nuclear Power Plant because of legal maneuvering to avoid paying taxes on the true fair market value of their plant - leaving the schools and citizens in our area high and dry.

Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Dear Commissioner Johnson,

I am a senior citizen that's fed up with the way First Energy deals with it's customers. They don't deserve any support at all from it's customers, and I certainly hope you will exercise due diligence when considering this matter and not let their lobbyists sway you.

When my mom was diagnosed with bone marrow cancer, and homebound, a day before a storm related outage in her Lyndhurst, Ohio neighborhood, they refused to give her home special attention to get the power back on because she wasn't on a "list". I actually drove up and down the neighborhood begging any trucks I saw to take care of this and they said they couldn't, as she wasn't a priority. They were able to restore half the street, but sat in front of her house with guards to keep anyone from touching the remaining downed line that fed her house. We had to buy a generator and mickey mouse it to provide her heat and cook her food. This was very unsafe, but we had no alternative. She was homebound. It was three days before her power was restored. This was in October of 2013. She died 5 weeks later. They showed me absolutely no empathy when I complained up the ladder to get someone to restore her power and actually treated me very rudely. It wasn't until I threatened to go to the TV stations that they finally fixed the line that only affected 3 houses on her street. Their customer service is the WORST of anyone I have ever dealt with, and now they want something from us? They can go to hell.

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

All businesses must figure out how to manage their capital investments, with the balance of maintaining older assets and a keen eye on productivity and efficiency. In my Industry, we have to be competitive and cannot just blindly raise rates. We have to be accountable to our customers and financially responsible in order to survive as a corporation and generate a return to shareholders.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Please make them accountable for their spending and responsible for cutting overheads like everyone else these days and improving their plant efficiency or closing the assets that don't have a return on investment.

I thank you for your time!

Sincerely,

Tom Kimball

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

All businesses must figure out how to manage their capital investments, with the balance of maintaining older assets and a keen eye on productivity and efficiency. In my Industry, we have to be competitive and cannot just blindly raise rates. We have to be accountable to our customers and financially responsible in order to survive as a corporation and generate a return to shareholders.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Please make them accountable for their spending and responsible for cutting overheads like everyone else these days and improving their plant efficiency or closing the assets that don't have a return on investment.

I thank you for your time!

Sincerely,

Tom Kimball

Dear Commissioner Johnson,

Tell First Energy to reduce the size of their corporate flight department and use more efficient way to move their executives. First Energy spends multi millions of dollars to have their own corporate fleet when there are other ways to securely and safely move executives. It's time to make the senior management accountable for their costs. If my memory serves me right this is like GM and Ford flying their private corporate jets to Washington to ask for bailouts. Seems to me they did not get those bail outs and reduced their corporate fleet and saved multi millions of dollars.

Sincerely,

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Anthony Masiello

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Dan Hipple

Dear Chairman Porter,

We received a 1,000.00 electric bill and were told that there was nothing wrong with our meter and there was just nothing we could do about it. We are being charged double. We are charged from Ohio Edison and First Energy and they both make the same exact amount from us. They finally did come put a new meter on my house and I have not had an electric bill that high since. I still think it is CRAP that I have to pay double. The electric companies are just a joke and will do what they want because they know people can't go without it.

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Subject: Protect Ohioans from Utility Power Plays

Dear Commissioner Johnson,

We received a 1,000.00 electric bill and were told that there was nothing wrong with our meter and there was just nothing we could do about it. We are being charged double. We are charged from Ohio Edison and First Energy and they both make the same exact amount from us. They finally did come put a new meter on my house and I have not had an electric bill that high since. I still think it is CRAP that I have to pay double. The electric companies are just a joke and will do what they want because they know people can't go without it.

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Larry and Brittany Dailey  
3160 N Pleasant Dr  
East Palestine, OH 44413

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Wendy Tullis

Dear Chairman Porter,

I am a senior citizen that's fed up with the way First Energy deals with it's customers. They don't deserve any support at all from it's customers, and I certainly hope you will exercise due diligence when considering this matter and not let their lobbyists sway you.

When my mom was diagnosed with bone marrow cancer, and homebound, a day before a storm related outage in her Lyndhurst, Ohio neighborhood, they refused to give her home special attention to get the power back on because she wasn't on a "list". I actually drove up and down the neighborhood begging any trucks I saw to take care of this and they said they couldn't, as she wasn't a priority. They were able to restore half the street, but sat in front of her house with guards to keep anyone from touching the remaining downed line that fed her house. We had to buy a generator and mickey mouse it to provide her heat and cook her food. This was very unsafe, but we had no alternative. She was homebound. It was three days before her power was restored. This was in October of 2013. She died 5 weeks later. They showed me absolutely no empathy when I complained up the ladder to get someone to restore her power and actually treated me very rudely. It wasn't until I threatened to go to the TV stations that they finally fixed the line that only affected 3 houses on her street. Their customer service is the WORST of anyone I have ever dealt with, and now they want something from us? They can go to hell.

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Subject: Pull the Plug on Utility Handouts

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Sue Gordon

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Njwatson  
1428 Putnam St  
Sandusky, OH 44870

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas. It's repulsive to see the irresponsible decision FirstEnergy is making by ignoring the welfare of humanity and the planet. The environmental changes unclean energy is doing the planet and the health of people is settled science, but the people and corporations in power continue to ignore it in the name of greed. There should be laws put in place that obligate companies like this to start using cleaner and safer practices for producing energy. If people in power continue to go down this path, our doom is the question of when, not if. Why are so many people not acknowledging the fact that the survival of humankind is at stake. Energy practices that are perilous to the environment should be a crime.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

HELEN HANCOCK

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Jill Richmond

Subject: Pull the Plug on Utility Handouts

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

John Holmes

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

mary jo gyuro

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Sandy McCandlish  
1130 Ridge Rd NE  
Lancaster, OH 43130

My electric bill is 25-30% of my rent! Last month my bill was \$302.43! This is for a 2 bedroom, no basement, approx. 1050 sq. ft. Rental. AND. It was one of the warmest Decembers on record!! AND. This is with only one person living here who keeps the thermostat at 68 degree constant temperature.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

June Ramey

PUCO Case #: 14-1297-EL-SSO; 14-1693; 14-1694

It is time for Ohio to take the lead in alternative energy for future generations without subsidizing the model proposed by AEP. The inclusion of independent scientific research and development is vital for the economic and intellectual growth of Ohio. I ask that you consider the global implications of your decision. I taught my science students to look at all sides of a problem because it is often in the hidden nuances and alternate ideas where solutions are found.

Subject: Pull the Plug on Utility Handouts

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

thomas schnitkey

Feb 14, 2016

Commissioner Thomas Johnson

Dear Commissioner Johnson,

I'm writing today to ask you to say no to FirstEnergy's request for the PUCO to authorize substantial, customer-funded subsidies to bail out its uneconomic power plants.

With the new settlement, FirstEnergy's proposal went from bad to worse. Please safeguard market competition and reject FirstEnergy's proposal, so that a utility can no longer cross-subsidize or favor its affiliate companies in order to block competition. Approving the deal would send a clear message to Ohio's businesses, entrepreneurs, investors, and residents: We favor reigning power players and political clout over innovation and competition. Utility profits should not be placed ahead of Ohioans' best interests, and especially not at their personal expense.

If you believe Ohio should have electricity that is clean, reliable, and affordable, please reject FirstEnergy's request.

Thank you,

Mr. Michael Snyder

Subject: Say NO to Utility Handouts

Dear Chairman Porter,

Constituents and customers are not responsible to guarantee corporations profits, not even public utilities. AEP and FirstEnergy wanted deregulation, over the objection of most Ohioans. Deregulation has served them and their shareholders very well for some time. Now that it is not going their way, they want a bailout - at the expense of their Ohio consumers. Economic competition is what these companies sought - a way to expand and compete in the economic marketplace. Now they are not as profitable as they want, or think they should be, it is NOT Ohioans responsibility to foot the bill for their bad business decisions.  
Say NO this corporate blackmail.
