Subject: First Energy doesn't deserve any more money

Dear Chairman Porter,

First Energy paid \$100 million to stick their name on the stadium in Cleveland. If they can waste that much money (that we paid for on our bill), they obviously don't need any more.

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

Subject: Ignore utility companies' scare tactics

Dear Chairman Porter,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Helena

I need a new roof on my house. How about First Energy donating to replace my old and outdated roof. My need is at least as great as theirs as I am retired and on a fixed income. If merely asking for a handout is all that is required, then my request is deserving of the same consideration as those of the utility companies. I have to get the job done with the resources available to me. The utility companies should have to do the same.

To: Johnson, Thomas  
Subject: Ignore utility companies' scare tactics

Dear Commissioner Johnson,

New, clean, natural gas plants are providing alternatives to old, inefficient plants that AEP and FirstEnergy want consumers to subsidize with rate increases. The utility companies have threatened plant shut-downs and warned that consumers and businesses will no longer have a reliable power supply, if they don't get handouts paid for by consumers. But Ohio's power grid operator and multiple experts have said that Ohio has plenty of power generation for the future.

Don't fall for utility scare tactics! Please Tell the PUCO to say "no" to the utility handouts and "yes" to cheaper natural gas to fuel Ohio's future.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Sheila Webb

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Kate King

I have an all electric home and cannot get an all-electric rate; First Energy says I can't be grandfathered the old all-electric rate. In bad months we consume 6000 kw that forces us to burn wood to eliminate \$800/month electric bills; I'm 72 years old and don't know how long we'll be able to cut-split and burn firewood to heat our home.

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Subject: Protect Ohioans from Utility Power Plays

Dear Chairman Porter,

AEP and FirstEnergy are trying to hijack Ohioans' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Ohioans, seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUCO to put a stop to this corporate welfare.

I have an all electric home and cannot get an all-electric rate; First Energy says I can't be grandfathered the old all-electric rate. In bad months we consume 6000 kw that forces us to burn wood to eliminate \$800/month electric bills; I'm 72 years old and don't know how long we'll be able to cut-split and burn firewood to heat our home.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

D R Szynal  
7393 Canal Rd  
Valley View, OH 44125

Dear Commissioner Johnson,

AEP and FirstEnergy are trying to hijack Pennsylvanians' electric bills and demand billions of dollars in ransom from Ohio consumers to prop up their old power plants that they claim are losing money. I shouldn't have to pay extra charges to subsidize utility companies when I get no benefit in return.

Please protect hard-working Pennsylvanians', seniors on fixed incomes, and small business owners from ridiculous and totally unnecessary rate hikes. Please tell the PUC to put a stop to this corporate welfare.

Even though this originated in Ohio there is no doubt that the same issues and rate hikes are upon First Energy customers here in PA.

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas. The utilities need to realize the technology has turned in power generation. They have refused to invest in solar and wind. Every time a wind turbine is erected or a solar panel installed it is less work at the generation plant. Solar and wind can feed into the existing aging grid infrastructure. If the utilities and the state would offer a small feed in tariff solar and wind would explode in Ohio. There is nothing stopping a utility that has a budget set aside every year to modernize plants, upgrade equipment, etc to invest in renewables.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. As a First Energy shareholder I do expect a dividend for my investment but I don't expect as a consumer I should pay to upgrade their infrastructure. I suppose the next time you book a flight to Washington or wherever and you see an additional cost of 5 percent to "help cover upgrading our fleet" you would not be a happy politician. IF you give the utilities what they are asking it is the same principal and it is not right to fleece the public. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

Subject: Pull the Plug on Utility Handouts

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

There are far too many Ohio workers that have not had a pay raise in decades. So, why should any utility be allowed to pick their pockets.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Douglas Baxter  
2715 Middletown St NW  
Uniontown, OH 44685

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas. The utilities need to realize the technology has turned in power generation. They have refused to invest in solar and wind. Every time a wind turbine is erected or a solar panel installed it is less work at the generation plant. Solar and wind can feed into the existing aging grid infrastructure. If the utilities and the state would offer a small feed in tariff solar and wind would explode in Ohio. There is nothing stopping a utility that has a budget set aside every year to modernize plants, upgrade equipment, etc to invest in renewables.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. As a First Energy shareholder I do expect a dividend for my investment but I don't expect as a consumer I should pay to upgrade their infrastructure. I suppose the next time you book a flight to Washington or wherever and you see an additional cost of 5 percent to "help cover upgrading our fleet" you would not be a happy politician. IF you give the utilities what they are asking it is the same principal and it is not right to fleece the public. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Christopher a Francis

Dear Commissioner Johnson,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Aaron Snyder

Dear Chairman Porter,

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.

It's outrageous that my electric bill will go up while these giant utilities are earning billions of dollars and paying hefty dividends to their shareholders. Please stand up for Ohio consumers and tell the PUCO to reject AEP's and FirstEnergy's money grab.

PUCO Case #s: 14-1297-EL-SSO; 14-1693; 14-1694

Sincerely,

Dear Chairman Porter,

Ridiculous greed! We can barely afford our electric since moving to this area where First Energy rules. Now they want more??!!!! Don't let this happen. Make THEM responsible for their own problems. Don't push it off on consumers. We carry enough on our backs already while these corporate morons get fatter and richer! End it NOW!!

I don't want my electric bill to go up to pay for AEP's and FirstEnergy's old power plants. The utilities claim they're losing money on their aging plants, and now they're demanding that consumers cover the cost of their bad decisions not to invest in cheaper, cleaner power, like natural gas.
